Economic Report of the President United States. Congress. Joint Economic Committee, 1979 **Hamilton's Curse** Thomas J. DiLorenzo, 2009-12-08 Thomas Jefferson and Alexander Hamilton two of the most influential Founding Fathers were also fierce rivals with two opposing political philosophies and two radically different visions for America While Jefferson is better remembered today it is actually Hamilton's political legacy that has triumphed a legacy that has subverted the Constitution and transformed the federal government into the very leviathan state that our forefathers fought against in the American Revolution How did we go from the Jeffersonian ideal of limited government to the bloated imperialist system of Hamilton's design Acclaimed economic historian Thomas J DiLorenzo reveals how Hamilton first as a delegate to the Constitutional Convention and later as the nation's first and most influential treasury secretary masterfully promoted an agenda of nationalist glory and interventionist economics These core beliefs did not die with Hamilton in his fatal duel with Aaron Burr but were carried on through his political heirs The Hamiltonian legacy wrested control into the hands of the federal government by inventing the myth of the Constitution's implied powers transforming state governments from Jeffersonian bulwarks of liberty to beggars for federal crumbs It also devised a national banking system that imposes boom and bust cycles on the American economy saddled Americans with a massive national debt and oppressive taxation and pushed economic policies that lined the pockets of the wealthy and created a government system built on graft spoils and patronage By debunking the Hamiltonian myths DiLorenzo exposes an uncomfortable truth the American people are no

longer the masters of their government but its servants Only by restoring a system based on Jeffersonian ideals can Hamilton's curse be lifted at last *Krugman's Macroeconomics for AP** Margaret Ray, David A.
