Economic Development In Seven Pacific Island Countries:

Economic Development in Seven Pacific Island Countries Mr.Christopher Browne,Mr.Douglas A. Scott,1989-06-15
This book by Christopher Browne with Douglas A Scott reviews the economic progress that Fiji Kiribati Papua New Guinea Solomon Islands Tonga Vanuatu and Western Samoa have made since independence An overview of the region examines development strategies external economic relations the role of the private sector and the evolution of financial structures Seven country studies describe the main characteristics of each economy analyze performance over the past decade and provide detailed statistics suitable for cross country comparison Pacific Island Economies Hilarian M. A. Codippily,1996
This sixth annual study focuses on the effects of globalization on developing countries and the growing divide between fast and slow integrating economies It describes current trends in integration and answers key questions on trade and on commodity reliant economies The book examines two questions in particular detail Will trade liberalization work The report argues that countries that embark on trade liberalization in the current environment are likely to be rewarded and recognizes that genuine adjustment costs exist and that complementary reforms are important How can commodity reliant countries enhance productivity and diversify exports Although many of these countries have been among the high growth fast integrators many others have been poor performers Successful exporters are characterized by high productivity in existing commodity sectors the capacity to diversify to non traditional commodity exports and the maintenance of economic stability The report projects continued rapid acceleration of integration over the next decade with moderate import growth in the developed countries and continued sharp import increases in developing countries Those countries that continue to reform their economies and expand their participation in the world economy will be in a position to take advantage of the resulting opportunities those that do not risk falling further behind Vanuatu International Monetary Fund,1996-08-26 This
Background Paper on Vanuatu reviews the development of monetary control instruments in five small island economies in the South Pacific Fiji Solomon Islands Tonga Vanuatu and Western Samoa and draws some lessons from their experience The paper highlights that except Solomon Islands which have extraordinarily high credit demand from the government these economies have large structural excess liquidity in the banking system The paper describes the financial sector in the five economies and analyzes the background for large excess liquidity It also reviews the developments of monetary instruments in these economies from a comparative perspective Research Handbook on Transnational Corporations Alice de Jonge,Roman Tomasic,2017-01-27 Transnational corporations TNCs have moved to the forefront of regulatory governance both within states and in the international arena The Research Handbook on Transnational Corporations provides expert background commentary and up to date insights into regulatory frameworks impacting on TNCs at global industry and national levels Written by global experts in their field this unique collection of essays provides in depth understanding of how the forces of globalisation affect the world s largest corporations and how those corporations in turn shape globalisation

Asian Bibliography ,1990 *Pacific Forest* Judith Bennett,2021-10-25 This book addresses the contending views of the uses of Solomon Island forest Ranging from an examination of the interaction between the first settlers and their forest the book goes on to analyse the attitudes of the British administrators planters and missionaries The colonial government sought to protect the resource but neglected to consider the wishes of the forest s inhabitants in planning for its future economic use The independent governments failed to protect the dwindling forest on customary land in the face of accelerating demands from their own people and of Asian based logging companies while non governmental organisations and aid donors have tried to invoke a more conservative regime of forest use

Future Role of International Agencies and Donors in Private Sector Development in Pacific Island Countries Jim McMaster,1990 *Social Policies in Solomon Islands and Vanuatu* Biman C. Prasad,Paul Kausimae,2012 Solomon Islands and Vanuatu are two small states that have struggled to develop successful social policies since independence This study traces their social histories and examines factors that have hindered progress Future development requires a move away from traditional social structures and a focus on political stability and economic growth

Chinese Policy Priorities and Their Implications for the United States Robert G. Sutter,2000 How the West responds to China s emergence as a great power will go far toward determining the course of world politics in the years ahead Yet as Robert Sutter shows in this timely book U S foreign policy in this vital arena remains remarkably unfocused and uninformed Preoccupied with domestic imperatives and a persistent and intractable debate over China the U S government media and public have all but ignored the interests and motivations of China s leaders The author argues that the course of U S China relations will be determined by Beijing as well as Washington and a balanced understanding of Chinese leaders priorities will lead to more informed and effective U S policy Toward that goal this pragmatic study examines current Chinese concerns and behavior in areas of crucial importance to the United States Assessing the many economic social and political problems that continue to preoccupy China s leaders Sutter concludes that Chinese internal difficulties and aspirations are so wide ranging and protracted that China s leaders will remain focused on promoting economic development and reforms and maintaining social political stability well into the twenty first century This analysis sets the stage for more extensive treatment of China s role in world affairs areas where Chinese and U S interests interact most directly The author contends that a balanced view of common ground and differences will temper the excessive swings seen in recent U S China policy and lay the groundwork for a more realistic relationship as we move into a new century

World Year Taylor & Francis Group,2004 **Self-determinable Development of Small Islands** Masahide Ishihara,Eiichi Hoshino,Yoko Fujita,2016-06-14 This book aims to clarify the present situation of the relations between small island countries and territories on the one hand and the great powers mainland areas and mega islands on the other and explores how small

island countries and territories preserve and build their identity under globalization This book is divided into five parts The first part presents papers on issues that are related to Okinawa the American military presence the formation of a global human network and the history of and language revitalization in Okinawa The second part includes papers on security in East Asia and the Pacific Region the history of and present issues in international relations within the South and East China Sea areas The third part presents papers on economic issues and social developments on small islands The fourth part deals with ocean policies and marine resource management in the Pacific Region by the United States Australia and Japan Finally the fifth part presents papers on the revitalization of three indigenous languages All the chapters of the book are based on the achievements of the research project Towards New Island Studies The Ryukyus as an academic node between East Asia and Oceania conducted by the International Institute for Okinawan Studies at the University of the Ryukyus This 5 year project was funded by the Japanese Ministry of Education Culture Sports Science and Technology and aimed to contribute academically to the creation of sustainable and self determinable societies in small island regions This work will be extremely useful and informative for readers in small island countries and territories and for researchers who are interested in small island issues to understand the current situation and who wish to consider effectual and feasible solutions Regionalism in South Pacific Yu Changsen, 2018-12-01 2017 4 8 UNDP **Asia-Pacific** Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants For the time being these forces seem to be in the

ascendant The China Alternative Graeme Smith, Terence Wesley-Smith, 2021-03-01 In this collection 17 leading scholars based in Solomon Islands Fiji Papua New Guinea Timor Leste Australia New Zealand the United States and China analyse key dimensions of the changing relationship between China and the Pacific Islands and explore the strategic economic and diplomatic implications for regional actors The China Alternative includes chapters on growing great power competition in the region as well as the response to China's rise by the US and its Western allies and the island countries themselves Other chapters examine key dimensions of China's Pacific engagement including Beijing's programs of aid and diplomacy as well as the massive investments of the Belt and Road Initiative The impact of China's rivalry for recognition with Taiwan is examined and several chapters analyse Chinese communities in the Pacific and their relationships with local societies The China Alternative provides ample material for informed judgements about the ability of island leaders to maintain their agency in the changing regional order as well as other issues of significance to the peoples of the region China's discovery of the diverse Pacific islands intriguingly resonant of the era of European explorers is impacting on this too long overlooked region through multiple currents that this important book guides us through Rowan Callick Griffith University The China Alternative is a must read for all students and practitioners interested in understanding the new geopolitics of the Pacific It assembles a stellar cast of Pacific scholars to deeply explore the impact of the changing role of China on the Pacific islands region Significantly it also puts the Pacific island states at the centre of this analysis by questioning the collective agency they might have in this rapidly evolving strategic context Greg Fry The Australian National University *The Performance and Prospects of the Pacific Island Economies in the World Economy* A.
