Economic Transformation In Eastern Europe And The Distribution Of Income:

Economic Transformation in Eastern Europe and the Distribution of Income Anthony Barnes Atkinson, John Micklewright, 1992-10-01 Who gains and who loses from economic transformation in Eastern Europe is a key question but one that is too rarely discussed To understand the implications of the move to a market economy it is necessary to know more about the distribution of income under Communism This book assembles evidence about earnings dispersion income inequality and poverty in Czechoslovakia Hungary Poland the USSR with separate information for Russia the Ukraine and other republics It adopts a comparative perspective bringing out the differences between these countries and the West as well as within Central and Eastern Europe It shows that widely held beliefs about Eastern Europe under Communism are not borne out by the evidence

Economic Transformation in Eastern Europe and the Distribution of Income Anthony Barnes Atkinson, John Micklewright, 1992-10 This book first published in 1992 examines the distribution of income under Communism in Eastern Europe and its implications for economic transformation

Economic transformation in Eastern Europe and the distribution of income Anthony B. Atkinson, John Micklewright, 1991

The Distribution of Income in Eastern Europe Anthony Barnes Atkinson, John Micklewright, 1992 This paper examines the distribution of household incomes in Eastern Europe before the economic transformation that began in 1990 Was there less inequality in these countries under Communism than in Western economies Many people appear to believe that no such data exist for Eastern Europe Such common impressions are however largely based on the situation in the former Soviet Union and the position in the Central European countries has been quite different The first aim of the paper is to present the evidence about the distribution of income in Czechoslovakia Hungary Poland and the former USSR in the mid 1980s and to make a comparison with the UK The findings confirm that income inequality in Czechoslovakia is substantially less than in the UK At the same time our results bring out the differences within Eastern Europe The distribution for Hungary appears relatively close to that in Czechoslovakia but the Lorenz curves for these two countries lie comfortably inside those for Poland and the former USSR In drawing attention to the availability of evidence on income inequality in Eastern Europe we are not suggesting that such data are perfect The household surveys particularly that in the former USSR are subject to a number of qualifications The limitations of the evidence are the subject of the fourth section of the paper

Transformation of Pension Systems in Central and Eastern Europe Winfried Schmohl, Sabine Horstmann, 2002-06-26 Given the highly specialised subject matter which so easily degenerates into rather tedious calculations this book is really amazingly interesting and competently executed The late Mark Blaug formerly of the University of London and University of Buckingham UK

Transforming Post-Communist Political Economies National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Task Force on Economies in Transition, 1998-03-02 This ground breaking new volume focuses on the interaction between political social and economic change in Central and

Eastern Europe and the New Independent States It includes a wide selection of analytic papers thought provoking essays by leading scholars in diverse fields and an agenda for future research It integrates work on the micro and macro levels of the economy and provides a broad overview of the transition process This volume broadens the current intellectual and policy debate concerning the historic transition now taking place from a narrow concern with purely economic factors to the dynamics of political and social change It questions the assumption that the post communist economies are all following the same path and that they will inevitably develop into replicas of economies in the advanced industrial West It challenges accepted thinking and promotes the utilization of new methods and perspectives *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **IMF Staff papers, Volume 43 No. 3** International Monetary Fund. Research Dept., 1996-01-01 This paper examines the volatility and predictability of emerging stock markets A range of measures suggests that despite perceptions to the contrary the volatility of emerging markets may have fallen rather than risen on average Also although the autocorrelations in emerging market returns appear to turn negative at horizons of a year or more the magnitude of these return reversals is not that much larger than reversals in some mature markets One interpretation of the results would be that emerging markets have not consistently been subject to fads or bubbles or at least no more so than in some industrial countries **The Economics of the Welfare State** N. A. Barr, 2020 The sixth edition of this successful textbook discusses elements of the welfare system including cash benefits the health service and education The text argues that the welfare state does not exist just to help the underprivileged but also offers efficiencies in areas where the private markets would be inefficient or would not exist at all Suitable for both economics students and students on related disciplines this book places the content within a theoretical framework and uses learning features to engage students with the discussion Each chapter is concluded with a summary of the key points and an appendix which provides a non technical summary for students with no previous exposure to economics Worked examples from around the world facilitate the comparison of global welfare issues while diagrams allow readers to visualize concepts The author ends each chapter with questions for further discussion which could be prepared to structure seminars or to independently test understanding while an annotated list of further reading suggestions guides additional research This book is accompanied by the following online resources For students Web links Further reading For lecturers PowerPoint slides *Globalization and Equity* Natalia E. Dinello, Lyn Squire, 2005-01-01 In bringing together seven regional studies by economists from the Global Development Network Natalia Dinello and Lyn Squire provide an insightful perspective on the relationships between globalization and equity The topic is important but too often has been oversimplified and viewed through western lenses Complexity does not preclude strong conclusions dubbed the Cairo

Consensus here but its analysis is helped by the mix of expertise and local knowledge embodied in this book Richard Pomfret University of Adelaide Australia *Annual World Bank Conference on Development Economics Regional 2007* François Bourguignon, Boris Pleskovic, 2007-01-01 Global Development Finance GDF is the World Bank's annual review of recent trends in and prospects for financial flows to developing countries It is an indispensable resource for governments economists investors financial consultants academics bankers and the entire development community Vol I Analysis and Outlook reviews recent trends in financial flows to developing countries Also available as a two volume set Vol II Summary and Country Tables includes comprehensive data for 138 countries as well as summary data for regions and income groups

The Oxford Handbook of the Russian Economy Michael Alexeev, Shlomo Weber, 2013-07-18 This Handbook is the most comprehensive up to date study of the Russian economy available Russian and western authors analyze the current economic situation trace the impact of Soviet legacies and of post Soviet transition policies examine the main social challenges and propose directions for reforms Economic Crisis and Political Economy R. Bellofiore, E. Karwowski, J. Toporowski, 2013-12-17 Rosa Luxemburg Oskar Lange and Micha Kalecki made important contributions to twentieth century political economy that guided the thinking of their student Tadeusz Kowalik The chapters of this volume examine how the ideas of Luxemburg Lange Kalecki and Kowalik can illuminate our understanding of the crisis in twenty first century capitalism **Agriculture in Liberalizing Economies** DINA L. UMALI, Charles Maguire, 1995 Discusses ways in which the role of the state in promoting agricultural growth and development may be redefined This report presents the proceedings of the 14th World Bank Agricultural Symposium held in January 1994 The papers explore ways in which the role of the state in promoting agricultural growth and development may be redefined They also capitalize on important lessons emerging from experiences around the world The report suggests that changing the role of government from market domination towards the provision of a regulatory framework that facilitates private sector activity is an ongoing process rather than a one time occurrence The papers also illustrate the wide variety of issues and the different approaches in the various countries that are redefining the role of government in agricultural development **Poland** Mr. Xavier Maret, Mr. Gerd Schwartz, 1993-05-01 This paper argues that the brunt of the reform induced increase in Polish social expenditures has been borne by social insurance arrangements mainly pensions and unemployment compensation rather than by social assistance schemes targeted to the poor or more temporary social safety net schemes This is largely due to ease of access to social security and its more attractive benefit structure Much of recent social expenditure reform had an ad hoc nature and was driven by the need to alleviate looming financial distress A major policy challenge is to avoid a further burdening of social security by needs that should be addressed by basic income support and emergency assistance policies or by general transfers e g family allowances Current reform needs are illustrated by using unemployment benefits and pensions as examples **The Economics of Poverty, Inequality and Wealth Accumulation in Mexico** M. Székely, 1998-09-21 The aim of this book is

to understand why despite a considerable increase in average income in Mexico during the 1984-1992 period of economic liberalization the conditions of the poorest of the poor deteriorated and income inequality increased To explain why some individuals were able to take advantage of the opportunities which the economy was generating while others were prevented from doing so the author suggests some methodology to extract additional information from poverty and inequality measures and test the main theories of household saving behaviour

Changes in the Wage Structure During Economic Transition in Central and Eastern Europe Jan J. Rutkowski, 1996-01-01 World Bank Technical Paper No 336 Presents the results of consultative surveys undertaken in 36 rural and urban communities across Nigeria The study examines the effectiveness and accountability of local institutions in local decisionmaking and participation as well as some common limitations such as the narrowness of membership and goals and their limited technical and managerial capacities

Measuring Inequality Frank Alan Cowell, 2011-01-27 This book deals with the theoretical and practical problems involved in measuring the extent of inequality The book covers modern theoretical developments in inequality analysis and shows how the way we think about inequality has been shaped by classic contributions in economics and related disciplines

Visions of Inequality Branko Milanovic, 2023-10-10 Branko Milanovic charts 200 years of the fascinating history of the discourse on inequality through portraits of six key economists from Quesnay to Kuznets In their work and lives we see how differently each conceived of inequality and how the subject prominent in their times was eclipsed during the Cold War and has become central once again

Determinants of Cross-country Income Inequality Branko Milanovic, 1994 An alternative hypothesis to explain why income inequality differs among countries Inequality in richer societies decreases not only because of economic factors but also because societies choose less inequality as they grow richer
