Financing High-Tech Startups Robin P. G. Tech, 2018-03-02. This book examines the adverse effects of complexity, information asymmetries, transaction costs and uncertainty on investors' decision making. It suggests mitigating those effects using appropriate and matching signals and analyzes a sample of 903 German startups to quantitatively highlight the distinct financing patterns and characteristics of high tech startups. It then investigates the reasons for these patterns on the basis of a qualitative study that includes 34 interviews with investors and entrepreneurs in the US and Germany and an international expert panel. Lastly, it presents a

framework that matches complexity factors with appropriate productive signals **A Handbook of Cultural Economics**
