Economics An Awkward Corner:

Economics Joan Robinson,2016-11-10 Originally published in 1966 this book has enduring validity In analysing the economic situation of the late 1960s Joan Robinson discusses the contradictions which arise from the need to readjust the organisation of society to the fantastic capacity for producing material wealth that capital accumulation and progress in technology have made possible She maintains that the late twentieth century economic system is just an awkward corner in a continuing process of historical development **Economics** George L. Hicks,1967 **Economic** ,1967 **Joan**

Robinson: Writings on Economics J. Robinson,2001-12-19 Joan Robinson was one of the most prominent economists of the century She made fundamental contributions to many different areas of economic thought She studied economics at Girton College Cambridge graduating in 1925 During the 1930 s she published three books and participated in Keynes Circus Her early contributions to economics were extensions of neo classical theory and in 1933 she introduced the theory of imperfect competition She became an ardent follower of Keynes and produced expositions of his theory She was one of the first economists to take Marx seriously as an economist She became Reader in Economics at Cambridge in 1956 and in the same year she published *The Accumulation of Capital* in which she began to extend Keynes theory in particular to take into consideration long run issues of growth and capital accumulation Her work on growth theory in 1962 alongside Nicholas Kaldor led to them developing the Cambridge Growth Theory She became the first ever female Fellow of Kings College Cambridge in 1979 This collection of her writings is an excellent testament to the depth and breadth of the impact she had on economic theory as a whole **Routledge Library Editions: Landmarks in the History of Economic Thought**
