Inspiration: Bacchus and the Cultural History of a Creation Myth John F. Moffitt, 2005-05-01 The purpose of this book is to reveal the antique pedigree of a now commonplace term Inspiration an essential creation myth now propelling notions of self expression in modern art making Knowledge of the ancient sources of such supposedly modernist fixations will make a significant contribution to historical cultural thinking particularly by showing in detail the facts of an unrecognized evolutionary continuity In order to personify Inspiration this study initially focuses upon Michelangelo's *Bacchus* of 1496 so revealing now forgotten meanings once typically to be attached in a generic way to any *Bacchus* Then it demonstrates how these Dionysiac concepts arose in ancient Greece Later developments particularly from the Middle Ages through the Renaissance are traced here for the first time Due to further modifications by Friedrich Nietzsche Dionysiac expressionism eventually became a staple of modern art theory and practice

Jewish Bodylore Amy K. Milligan, 2018-12-27 *Jewish Bodylore Feminist and Queer Ethnographies of Folk Practices* explores the Jewish body and its symbology as a space for identity communication applying the tools of bodylore the folkloric study of the body to the Jewish body in ways that are in

line both with feminist and queer theory The text centers a feminist folkloric approach to embodiment while simultaneously recognizing its overlaps with the study of Jewish bodies and symbols It investigates Jewish embodiment with a keen eye to that which breaks from tradition Consideration is given to the ways in which bodies intersect with time and space in the synagogue within religious movements in secular culture and in childhood ritual Representing a unique approach to contemporary Jewish Studies this book argues that Jewish bodies and the intersections they represent are at the core of understanding the contemporary Jewish experience Rather than abandoning or dismissing Judaism many contemporary Jews use their bodies as a canvas claiming space for themselves demonstrating a deliberate and calculated navigation of Jewish law and engaging a traditionally patriarchal symbol set which in its feminist use amplifies their voices in a context which might otherwise silence them Through these actions and choices contemporary Jews demonstrate a nuanced understanding of their public identities as gendered and sexed bodies and a commitment to working towards increased inclusivity within the larger Jewish and secular communities In the end this book is a foray into the world of Jewish bodies how they can be conceptualized using folkloristics and how feminist methodologies of the body can be applied fairly to Jewish bodies celebrating the multitude of ways in which the body can be conceptualized and experienced

Trees of Paradise and Pillars of the World Elizabeth A. Newsome, 2001-09-15 Based on a thorough analysis of the imagery and inscriptions of seven stelae erected in the Great Plaza at Copan Honduras by the Classic Period ruler 18 Rabbit God K this study argues that stelae were erected not only to support a ruler's temporal claims to power but more importantly to express the fundamental connection in Maya worldview between rulership and the cosmology inherent in their vision of cyclical time After an overview of the archaeology and history of Copan and the reign and monuments of 18 Rabbit God K Elizabeth Newsome interprets the iconography and inscriptions on the stelae illustrating the way they fulfilled a coordinated vision of the king's ceremonial role in Copan's period ending rites She also links their imagery to key Maya concepts about the origin of the universe expressed in the cosmologies and mythic lore of ancient and living Maya peoples Because previous scholarship has never assigned all seven monuments to a single period or the patronage of one ruler the uniqueness of Newsome's study lies in the way it explicates the overall meaning and function of the stela series with respect to the long term activities and agendas of one king BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

American Illustrated Magazine ,1883 *Music and History* Stanley C. Pelkey,2005 This book begins with a simple question Why haven't historians and musicologists been talking to one another Historians frequently look to all aspects of human activity including music in order to better understand the past Musicologists inquire into the social cultural and historical contexts of musical works and musical practices to develop theories about the meanings of compositions and the significance of musical creation Both disciplines examine how people represent their experiences This collection of original essays the first of its kind argues that the conversation between scholars in the two fields can become richer and more mutually informing The volume features an eloquent personal essay by historian Lawrence W Levine whose work has inspired a whole generation of scholars working on African American music in American history The first six essays address widely different aspects of musical culture and history ranging from women and popular song during the French Revolution to nineteenth century music publishing in Philadelphia Pennsylvania Two additional essays by scholars outside of musicology and history represent a new kind of disciplinary bridging by using the methods of cultural studies to look at cross dressing in nineteenth and early twentieth century opera and blues responses to lynching in the New South The last four essays offer models for collaborative multidisciplinary research with a special emphasis on popular music Jeffrey H Jackson Memphis Tennessee is assistant professor of history at Rhodes College He is the author of *Making Jazz French Music and Modern Life in Interwar Paris* Stanley C Pelkey Portage Michigan is assistant professor of music at Western Michigan University He is a member of the College Music Society and his work has appeared in music related periodicals **An Introduction to the History of Medicine** Fielding Hudson Garrison,1929 *The Early History of Heaven* J. Edward Wright Associate Professor of Hebrew Bible and Early Judaism University of Arizona,1999-12-13 When we think of heaven we generally conjure up positive blissful images Heaven is after all where God is and where good people go after death to receive their reward But how and why did Western cultures come to imagine the heavenly realm in such terms Why is heaven usually thought to be up there far beyond the visible sky And what is the source of the idea that the post mortem abode of the righteous is in this heavenly realm with God Seeking to discover the roots of these familiar notions this volume traces the backgrounds origin and development of early Jewish and Christian speculation about the heavenly realm where it is what it looks like and who its inhabitants are Wright begins his study with an examination of the beliefs of ancient Israel's neighbors Egypt and Mesopotamia reconstructing the intellectual context in which the earliest biblical images of heaven arose A detailed analysis of the Hebrew biblical texts themselves then reveals that the Israelites were deeply influenced by images drawn from the surrounding cultures Wright goes on to examine Persian and Greco Roman beliefs thus setting the stage for his consideration of early Jewish and Christian images which he shows to have been formed in the struggle to integrate traditional biblical imagery with the newer Hellenistic ideas about the cosmos In a final chapter Wright offers a brief survey of how later Jewish

Christian and Islamic traditions envisioned the heavenly realms Accessible to a wide range of readers this provocative book will interest anyone who is curious about the origins of this extraordinarily pervasive and influential idea *The Body in History* John Robb, Oliver J. T. Harris, 2013-09-02 This book is a long term history of how the human body has been understood in Europe from the Palaeolithic to the present day focusing on specific moments of change Developing a multi scalar approach to the past and drawing on the work of an interdisciplinary team of experts the authors examine how the body has been treated in life art and death for the last 40 000 years Key case study chapters examine Palaeolithic Neolithic Bronze Age Classical Medieval Early Modern and Modern bodies What emerges is not merely a history of different understandings of the body but a history of the different human bodies that have existed Furthermore the book argues these bodies are not merely the product of historical circumstance but are themselves key elements in shaping the changes that have swept across Europe since the arrival of modern humans
