**British Social Welfare in the Twentieth Century** Robert Page, Richard Silburn, 1999-03-31 This major thematic and historical overview provides a clear guide to key welfare practices and developments in the public private voluntary and informal welfare sectors in twentieth century Britain outlining the dominant ideas about welfare in the period in question As such it offers an effective bridge between historical and contemporary concerns drawing out some of the more rarely articulated premises of courses in the history of social policy and illuminating the social political and economic dimensions of its subject

**The British Welfare Revolution, 1906-14** John Cooper, 2017-10-05 The Welfare Revolution of the early 20th century did not start with Clement Attlee's Labour governments of 1945 to 1951 but had its origins in the Liberal government of forty years earlier The British Welfare Revolution 1906 14 offers a fresh perspective on the social reforms introduced by these Liberal governments in the years 1906 to 1914 Reforms conceived during this time created the foundations of the Welfare State and transformed modern Britain they touched every major area of social policy from school meals to pensions the minimum wage to the health service Cooper uses an innovative approach the concept of the Counter Elite to explain the emergence of the New Liberalism and examines the research that was carried out to devise ways to meet each specific social problem facing Britain in the early 20th century For example a group of businessmen including Booth and Rowntree invented the poverty survey to pinpoint those living below the poverty line and encouraged a new generation of sociologists This comprehensive single volume survey presents a new critical angle on the origins of the British welfare state and is an original analysis of the reforms and the leading personalities of the Liberal governments from the late Edwardian period to the advent of the First World War

**A History of Britain, 1885-1939** John Davis, 1999-05-26 The period between 1885 and 1939 was a pivotal half century in British history in which the Victorian political system yielded to a system far more recognisably modern in response to popular pressure for social reform and the implications of global superpower status Dr Davis relates these political developments to the background of social and economic change and to the consequences of Britain's position as an imperial power Drawing extensively upon the new historical scholarship of the 1980s and 1990s John Davis presents an original analysis of political change in a crucial period of Britain's recent past

**Governing Systems** Tom Crook, 2016-06-14 When and how did public health become modern In *Governing Systems* Tom Crook re-examines this key question in the context of Victorian and Edwardian England long regarded as one of the homes of modern public health The modernity of modern public health Crook argues should be located not in the rise of a centralized bureaucratic and disciplinary State but in the contested formation and intricate functioning of systems of governing from the administrative to the technological Equally we need to embrace a dialectical understanding of modern governance one that is rooted in the interaction of multiple levels agents and times Theoretically ambitious but empirically grounded *Governing Systems* will be of interest to historians of modern public health and modern Britain as well as anyone interested in the

complex gestation of the governmental dimensions of modernity Provided by publisher

**Mental Disability in Victorian England** David Wright, 2001-10-04 This book contributes to the growing scholarly interest in the history of disability by investigating the emergence of idiot asylums in Victorian England Using the National Asylum for Idiots Earlswood as a case study it investigates the social history of institutionalization privileging the relationship between the medical institution and the society whence its patients came By concentrating on the importance of patient centred admission documents and utilizing the benefits of nominal record linkage to other non medical sources David Wright extends research on the confinement of the insane to the networks of care and control that operated outside the walls of the asylum He contends that institutional confinement of mentally disabled and mentally ill individuals in the nineteenth century cannot be understood independently of a detailed analysis of familial and community patterns of care In this book the family plays a significant role in the history of the asylum initiating the identification of mental disability participating in the certification process mediating medical treatment and facilitating discharge back into the community By exploring the patterns of confinement to the Earlswood Asylum Professor Wright reveals the diversity of the insane population in Victorian England and the complexities of institutional committal in the nineteenth century Moreover by investigating the evolution of the Earlswood Asylum it examines the history of the institution where John Langdon Down made his now famous identification of Mongolism later renamed Down s Syndrome He thus places the formulation of this archetype of mental disability within its historical cultural and scientific contexts

**The Philosophy of the State and the Practice of Welfare** Helen Bosanquet, J. H. Muirhead, 2024-05-31 Unemployment poverty and the role of the state were themes which structured the discourse of social theory and the developing social legislation in Britain at the end of the Victorian period and the early twentieth century This collection examines the neglected contribution of Bernard and Helen Bosanquet to that contemporary maelstrom of ideas about the condition of the people the process of social reform and the practice of social work Like their contemporaries Sidney and Beatrice Webb the Bosanquets were a significant partnership integrating philosophy and practice theory and action Bernard Bosanquet the Idealist philosopher is best known for his study *The Philosophical Theory of the*

State His wife Helen economist and social worker was a member of the Royal Commission on the Poor Laws 1905-9 and between 1909 and 1921 editor of the Charity Organisation Review. They were selective supporters of state welfare schemes; they helped to re-fashion the Charity Organisation Society away from its nineteenth-century individualism by their advocacy of organic social collectivism. But character, self-development and responsibility remained central tenets of their welfare programme. This collection re-publishes most of the Bosanquets' principal books and articles relating to the philosophy of the state and the practice of welfare. The development of their ideas in the context of their own time and their relevance to current debates in the theory and practice of welfare forms the basis of a substantial introduction by David Gladstone, the series editor. This Volume charts the life of Bernard Bosanquet.

**Trusting Leviathan** Martin Daunton, 2001-11-01

Professor Martin Daunton's major work of original synthesis explores the politics of taxation in the long nineteenth century. In 1799 income tax stood at 20% of national income; by the outbreak of the First World War it was 10%. This equitable exercise in fiscal containment lent the government a high level of legitimacy, allowing it to fund war and welfare in the twentieth century. Combining new research with a comprehensive survey of existing knowledge, this book examines the complex financial relationship between the State and its citizens.

**Getting the Measure of Poverty** Jonathan Bradshaw, Roy Sainsbury, 2017-03-02
