Effective Clinical Neurologist:

The Effective Clinical Neurologist Louis R. Caplan, Joshua Hollander, 2010-10 The Effective Clinical Neurologist presents the most systematic guide available for the doctor or medical student learning the art of the neurological examination and treatment The patient centered method is presented in logical steps walking the reader through the process in a clear and detailed yet personal style The authors begin by placing neurological medicine in its current cultural and economic environment and progress to presenting the specific process of interacting with the patient This book is the only guide to the art of achieving optimal doctor patient interaction and communication which are essential to the practicing neurologist The third edition of this classic reference is fully updated to include the impact of electronic communication and to incorporate the many technological advances that can be applied to the neurological evaluation Other changes in the environment in which the clinician practices include the changes in procedure brought about by managed care This edition is organized into four parts beginning with a section on the clinician neurologist and the scope methods and uniqueness of this area of medicine Part II focuses on the patient encounter the taking of a history systemic and neurological examination interpretation of tests giving the patient information and conducting the dismissal interview Case examples illustrate the methods discussed Part III presents the various types of encounters that occur including those that involve inpatient care outpatient care consultations and the inclusion of medical students and other trainees Medico legal aspects of neurological care are also presented Part IV concludes with a summing up of the approach to patient care that is presented in the book and offers 10 Commandments of Doctoring

The Effective Clinical Neurologist Louis R. Caplan, 1990

DeJong's The Neurologic Examination William Campbell, Richard J. Barohn, 2019-02-11 This popular reference is the definitive guide on exam techniques for neurology residents fellows and practitioners integrating details of neuroanatomy and diagnosis in an easy to read easy to follow format A new clinical focus new videos online and new illustrations make DeJong's The Neurologic Examination 8th Edition even more useful for mastery of this complex area Anatomical and exam illustrations ensure proper technique and illustrative case studies and tables summarize differentials and clinical findings

Controversies in Stroke Care Majaz Moonis, M. V. Padma Srivastava, 2012-09 Stroke is the leading cause of neurological morbidity and mortality and the third leading cause of mortality worldwide In spite of several advances over the past two decades in acute stroke management stroke prevention and neuroprotection there is no clear consensus in any of the areas of diagnosis and management This book offers a rational approach to the current diagnosis and treatment of stroke that individual physicians can apply to their practice

A Video Atlas of Neuromuscular Disorders Aziz Shaibani, 2024 A Video Atlas of Neuromuscular Disorders is the essential reference on adult neuromuscular disorders and their diagnosis and treatment Perfect for preparing for the neurology and neuromuscular boards this book and accompanying videos have become an invaluable resource for neurology and neuromuscular training programs while catering to the too busy and often overwhelmed modern

doctor with its straightforward structure and language

Neurology Robin Howard, Dimitri Kullmann, David Werring, Michael Zandi, 2024-03-11

neurology A fully updated and authoritative neurology resource The Queen Square Textbook has established itself as a favourite companion to clinical neurosciences training and teaching around the world whilst retaining its role as an invaluable reference guide for physicians and other healthcare professionals working in neurology general medicine and related specialties The book continues to reflect the core values essential to the practice of clinical neurology in the 21st century The third edition has been extensively revised and updated to take account of the rapid pace of progress in the neurosciences and patient care Contemporary neurology has been changed by the COVID 19 pandemic the climate emergency and the growing inequalities in healthcare resources The new edition has been extensively revised to reflect these challenges and affords a greater emphasis on management and rehabilitation whilst continuing to reflect the coherence of a text produced from a single closely knit centre of excellence Highlights of the new edition include

- An updated approach to clinical examination decision making and diagnosis
- New developments in neuroimmunology pathology and genetics
- Neuropalliative care
- Ethical and legal issues in clinical neurology
- The latest developments in the understanding and management of stroke movement disorders epilepsy cognitive impairment multiple sclerosis infections myelopathy anterior horn cell disease disorders of nerve and muscle neuro oncology neurological disorders of hearing balance and vision and the neurological care of critical illness sleep neuropsychiatry pain autonomic and urological disorders
- An emphasis on treatment and rehabilitation of the person with a neurological disease

The new edition marks a significant transition to reflect contemporary neurological practice during uncertain times It mirrors the enormous changes in investigation diagnosis and treatment that have occurred in recent years whilst maintaining the underlying principle that we do not treat diagnoses but rather we care for people affected by neurological disease
