Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs,1995 *The United Nations and Human Rights* Frédéric Mégret, Philip Alston, 2020-04-02 The very concept of human rights implies governmental accountability To ensure that governments are indeed held accountable for their treatment of citizens and others the United Nations has established a wide range of mechanisms to monitor compliance and to seek to prevent as well as respond to violations The panoply of implementation measures that the UN has taken since 1945 has resulted in a diverse and complex set of institutional arrangements the effectiveness of which varies widely Indeed there is much doubt as to the effectiveness of much of the UN s human rights efforts but also about what direction it should take Inevitable instances of politicization and the hostile or at best ambivalent attitude of most governments has at times endangered the fragile progress made on the more technical fronts At the same time technical efforts cannot dispense with the complex politics of actualizing the promise of human rights at and through the UN In addition to significant actual and potential problems of duplication overlapping and inconsistent approaches there are major problems of under funding and insufficient expertise The complexity of these arrangements and the difficulty in evaluating their impact makes a comprehensive guide of the type provided here all the more indispensable These essays critically examine the functions procedures and performance of each of the major UN organs dealing with human rights including the Security Council and the International Court of Justice as well as the more specialized bodies monitoring the implementation of human rights treaties Significant attention is devoted to the considerable efforts at reforming the UN s human rights machinery as illustrated most notably by the creation of the Human Rights Council to replace the Commission on Human Rights The book also looks at the relationship between the various bodies and the potential for major reforms and restructuring [Making Development Co-operation More Effective 2014 Progress Report](#) OECD, United Nations Development Programme, 2014-04-03 This report a first snapshot of the state of play since Busan commitments of 2011 takes stock of how far we have come and where urgent challenges lie in making development aid more effective [Emerging Powers and the UN](#) Thomas Weiss, Adriana Abdenur, 2018-11-08 The post 2015 goals and the changing environment of development cooperation will demand a renewed and strengthened UN development system In line with their increasing significance as economic powers a growing number of emerging nations will play an expanded role in the UN development system These roles will take the form of growing financial contributions to individual organizations greater weight in governance structures higher staff representation a stronger voice in development deliberations and a greater overall influence on the UN development agenda *Emerging Powers and the UN* explores in depth the relationship of these countries with and their role in the future UN development system Formally the relationship is through representation as member states first UN and UN staff second UN However the importance of the non public sector
