Egbert Havinga Enjoying Organic Chemistry 1927 1987:

Enjoying Organic Chemistry, 1927-1987 Egbert Havinga, 1991-01-01 One noted scientist explained his refusal to contribute a volume by saying in part that it is extraordinarily difficult to write in good taste about oneself Only if one can manage a humorous and light touch does it come off well Naturally I would like to place my work in what I consider its true scientific perspective but Each autobiography reflects the author's science his lifestyle and the style of his research Naturally the volumes are not uniform although each author attempted to follow the guidelines To write in good taste was not an objective of the series On the contrary the authors were specifically requested not to write a review article of their field but to detail their own research accomplishments To the extent that this instruction was followed and the result is not in good taste then these are criticisms that I as editor must bear not the writer As in any project I have a few regrets It is truly sad that Egbert Havinga who wrote this volume and David Ginsburg who translated another died during the development of this project There have been many rewards some of which are documented in my personal account of this project entitled **Extracting the Essence Adventures of an Editor** published in **CHEMTECH BOOK JACKET**
