Natter, 2020 With his revolutionary and liberated view of the naked body and sexuality Egon Schiele emphatically wrote himself into the history of art at the beginning of the last century Even today the women and self portraits painted by the enfant terrible of the Viennese modern age still have an exciting and bold effect They were all created during the last decade of his short life Egon Schiele: the Unsalvageable Ego Helmut Friedel, Helena

Pereña, 2011 Expressionist Egon Schiele is one of the most popular artists of classic modernism Schiele's spectacular life and early death as well as many of his works especially the provocative nudes and seemingly pathological self portraits have time and time again raised guestions about parallels between life and work of the Austrian artist But can such a narrow biographical focus really do Egon Schiele's art justice This volume looks at Schiele in a different way It discusses his oeuvre as a contribution to turn of the century debates and discourse about cultural issues such as the crisis of the individual which around 1900 was labelled with the phrase the unsaveable I For instance Schiele's preoccupation with the occult can be understood as a direct response to this crisis Some of the themes and issues which we find in Schiele's art can also be found in the literature of his time while his nudes respond to contemporary attitudes towards sexuality Exhibition St dtische Galerie Munich 3 11 2011 4 3 2012 **Egon Schiele** Narim Bender, 2014-12-27 With his signature graphic style embrace of figural distortion and bold defiance of conventional norms of beauty Egon Schiele was one of the leading figures of Austrian Expressionism He was an Austrian painter a prot g of Gustav Klimt and important figurative painter of the early 20th century The twisted body shapes and the expressive line that characterize his paintings and drawings mark the artist as one an earliest exponent of Expressionism In Schiele's early years he was strongly influenced by Klimt and Kokoschka but soon evolved into his own characteristic style He focused on portraits of others as well as himself In his later years while he still worked often with nudes they were done in a more realist fashion Schiele made many drawings some of which were extremely erotic During his short but highly prolific career which ended with his premature death Schiele created more than three thousand works on paper and approximately 300 paintings Egon Schiele Jane Kallir, 2003-04-29 Austrian Expressionist Egon Schiele produced a prolific body of work before his early death at the age of twenty eight in 1918 The oeuvre is comprised of a few hundred oil paintings and thousands of drawings and watercolors Schiele's oils have often been reproduced and are well recognized However limited access to the fragile works on paper and dispersion among several collections have made for an unbalanced representation of his work as a draftsman This book assembles drawings and watercolors from public and private collections and reproduces work from every year of the artist's career beginning with the juvenilia and early academic studies. The focus means that work that is rarely reproduced is represented extensively providing a unique opportunity to study the rapid artistic development of Schiele over the course of his brief twelve year career The book is organized chronologically and divided into year by year sections Each section includes a text that discusses the major events in Schiele's life and the interrelation between the artist's drawing and developments in his oil painting Features a previously unpublished Schiele watercolor and several works that have never been reproduced in color

Egon Schiele Tobias Günter Natter, 2017 A century after his death Egon Schiele continues to stun with his contorted lines distorted bodies and eroticism This XXL sized book features the complete catalogue of his paintings from 1909 1918 Nearly 600 illustrations are presented many of them newly photographed alongside expert insights and Schiele's personal writings

in this Egon Schiele: Paintings and Drawings Jessica Findley, 2014-11-21 With his signature graphic style embrace of figural distortion and bold defiance of conventional norms of beauty Egon Schiele was one of the leading figures of Austrian Expressionism He was an Austrian painter a prot g of Gustav Klimt and important figurative painter of the early 20th century The twisted body shapes and the expressive line that characterize his paintings and drawings mark the artist as one an earliest exponent of Expressionism In Schiele's early years he was strongly influenced by Klimt and Kokoschka but soon evolved into his own characteristic style He focused on portraits of others as well as himself In his later years while he still worked often with nudes they were done in a more realist fashion Schiele made many drawings some of which were extremely erotic During his short but highly prolific career which ended with his premature death Schiele created more than three thousand works on paper and approximately 300 paintings Egon Schiele.
