Kelly Publications, 2024-11-20 Sappho s Missing Poems takes you on an exhilarating journey to uncover one of history s greatest literary enigmas Sappho the iconic poet of ancient Greece once composed nine volumes of poetry that captivated the ancient world yet today only fragments remain What happened to the rest of her works Could they still be waiting to be discovered in forgotten libraries or buried beneath ancient ruins Blending history archaeology and literary intrigue this thrilling exploration dives into the search for Sappho's lost poems and the ongoing guest to recover the voice of a poet who continues to inspire the world Sticks, Stones, and Shadows Martin Isler, 2001 What do the pyramids of Egypt really represent What could have driven so many to so great and often so dangerous an effort Was the motivation religious or practical Illustrated with more than 300 photographs and drawings this book presents an original approach to the subject of pyramid building It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses It examines Egyptian technologies and techniques from the origins of pyramid development to the step by step details of how the ground was leveled how the site was oriented and how the stone was raised and placed to meet at a distant point in the sky Here the author also asks and answers questions virtually ignored for the last century He discloses for example the ancient use of shadows now denigrated to the ornamental back yard sundial but once an important tool for telling the height of an object geographical directions the seasons of the year and the time of day He also reinterprets the ancient stretching of the cord ceremony which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid James Tucker, 2005-07-01 Very few of the titles whether fiction or non take a serious analytical look at the Bible as a biblical scholar or theologian would This is where God's Inferno differs from the majority It utilizes logical rational reasoning to analyze what that Bible actually says not what most have been lead to believe It seriously attacks the present Christian faith as their tenants and doctrines are based on a very faulty interpretation of what the Bible actually says It maintains and proves the god of the Old Testament is not the Supreme God but merely what the Jewish people of Israel pictured their god to be Naturally if he is not the Supreme God then Jesus is not the Son of that Supreme God but may have been the son of that hateful murderous vengeful god of the Old Testament From the founding of Christianity it traces its impact through the first 1500 1600 years of the Catholic Church the keepers of the faith during that time It documents the Crusades the Inquisitions and the Reformation as well as the many married priests Popes who fathered children and under aged leading fathers of the Church Finally it attempts to motivate the indifferent Christian to utilize his God given mind to seriously think about what they actually believe and to conduct their lives according to that belief The Near East Charles Keith Maisels, 2005-10-24 Charles Maisels follows the course of discovery of the land between the rivers over more than a century to our present conclusions very different from the first discoveries Old Penn .1907 The Sphere ,1907 The Oxford Guide to Ideas & Issues of the Bible Bruce M. Metzger, Michael D. Coogan, 2001-12-20 The Bible has been a rich source of inspiration for two thousand years one of the great wellsprings of Western civilization In The

Oxford Guide to Ideas and Issues of the Bible dozens of eminent scholars explore how the Bible has influenced our religious ethical artistic and philosophical traditions Here are more than two hundred alphabetically arranged entries that explore key aspects of the Bible and its teachings The contributors examine what the Bible says about timeless issues such as adultery and abortion divorce and drunkenness marriage and murder suffering and temptation and they discuss religious concepts found in the Bible ranging from incarnation sin and grace to baptism ethics and the Holy Spirit The book also considers the wider intellectual world examining the Bible s influence on Western law and medicine and it looks at how the Bible has been viewed by thinkers such as Marx and Freud and by fields such as social science and archaeology Thoughtful essays also analyze the Bible s influence on human creativity in areas such as music dance art and literature the latter includes an extensive discussion of the impact of the Bible on American writing from Cotton Mather to Saul Bellow There is even an article on everyday expressions from the Bible ranging from the love of money is the root of all evil to such common sayings as the skin of one s teeth at one s wit s end and you can t take it with you The Oxford Guide to Ideas and Issues of the Bible brings together a wealth of insight into the Bible's impact on our culture It is an essential addition to any school or home *Israel in Egypt* James K. Hoffmeier,1999-03-18 The author examines current Egyptological evidence and argues that it supports the biblical record concerning Israel in Egypt Drawing on evidence from recent excavations in the Nile Delta extra biblical texts inscriptions artefacts and recent infra red satellite photographs he provides a reconstruction of the Israelite sojourn defends the plausibility of the Joseph story discusses the role of Moses in history and traces the probable route of the Exodus itself **Egypt's Christian Heritage** Dan Heale, 2020 The Christian Coptic heritage of Egypt remains poorly studied from the perspective of heritage management and is also at risk from a number of external and internal factors This book offers an examination of the threats to these monuments through an analysis of the management of three heritage sites How Art is Made Debra N Mancoff, 2023-11-23 How Art Is Made looks at renowned works of art from across the centuries and around the globe and asks the intriguingly simple question how were these works actually made Divided into two sections materials and methods each chapter showcases a single work of art which demonstrates the mastery and innovative use of a single material or method from oil paint pastel and pencil to woodcut litho and impasto Each work is presented as the centerpiece of a capsule history while comparative works are also included to help amplify our understanding How for example did Michelangelo paint the Sistine Chapel fresco or Turner become such a master of watercolor How did Warhol turn so effectively to screen printing and how does Yayoi Kusama create such beguiling infinity rooms The book enhances the experience of looking at great works of art and guides us to a deeper understanding of how they were created and why we regard them as so important The Soviet-Israeli War, 1967-1973 Isabella Ginor, Gideon Remez, 2017-08-01 Russia's forceful re entry into the Middle Eastern arena and the accentuated continuity of Soviet policy and methods of the 1960s and 70s highlight the topicality of this groundbreaking study which confirms the USSR s role in

shaping Middle Eastern and global history This book covers the peak of the USSR s direct military involvement in the Egyptian Israeli conflict The head on clash between US armed Israeli forces and some 20 000 Soviet servicemen with state of the art weaponry turned the Middle East into the hottest front of the Cold War The Soviets success in this war of attrition paved the way for their planning and support of Egypt s cross canal offensive in the 1973 Yom Kippur War Ginor and Remez challenge a series of long accepted notions as to the scope timeline and character of the Soviet intervention and overturn the conventional view that d tente with the US induced Moscow to restrainthat a US Moscow d tente led to a curtailment of Egyptian ambitions to recapture of the land it lost to Israel in 1967 Between this analytical rethink and the introduction of an entirely new genre of sources memoirs and other publications by Soviet veterans themselves The Soviet Israeli War paves the way for scholars to revisit this pivotal moment in world history
