## **Egyptian Politics Under Sadat The Post Populist Development Of An Authoritarian Modernizing State:**

Egyptian Politics Under Sadat Raymond A. Hinnebusch, 1985 Anwar Sadat presided over a remarkable transformation in the Egypt built by Nasir economic liberalisation superseded populist revolution from above a Western alliance replaced Nasir's challenge to Western power in the Arab world and an authoritarian state was adapted to growing pluralist pressures This book explains the forces which produced this change the vulnerabilities of the Nasir regime and Sadat's leadership It also analyses the post populist political order forged by Sadat concluding that the state underwent both a retraditionalisation and limited liberalisation while retaining its authoritarian essence Sadat's policies ended in peace and a burst of prosperity for some but at the cost of growing inequality and dependency This book is of interest as a study of political change and the clash of competing strategies of development in today's Third World Because the system Sadat built remains intact under Mubarak it is also a guide to the workings of the contemporary Egyptian political system

**Egyptian Politics Under Sadat** Raymond A. Jr Hinnebusch, 1988 Explains the forces that produced the remarkable transformation in Egypt after Nasir's death and analyzes its outcome

**Businessmen, Clientelism, and Authoritarianism in Egypt** Safinaz El Tarouty, 2016-04-29 After the ousting of former Egyptian President Hosni Mubarak in February 2011 much debate surrounded the reasons for the former regime's longevity and its collapse Here Safinaz El Tarouty provides an original contribution to the study of authoritarianism in Egypt by focusing on the role of businessmen in authoritarian survival As the regime intensified neoliberal economic reforms that led to social deprivation and frustration among increasing numbers of Egyptian citizens they co-opted businessmen in order to defuse challenges and buttress the regime constructing a new political economy of authoritarianism Extending the existing literature on clientelism El Tarouty creates a typology of regime businessmen relations to describe the multiple mechanisms of co-option in the context of economic liberalization Ultimately though these businessmen proved too narrow a constituency to provide legitimacy to the regime and in fact formed one of the reasons for its collapse

*The Building of Consensus in Egypt's Transition Process* Noha El-Mikawy, 1999 In this rich and thought provoking study Noha el Mikawy explores the changes that have been occurring in Egypt's political system over the past thirty years three very important decades in the country's transition from authoritarian rule to democracy By focussing on consensus building as analytically central to the transition process el Mikawy has picked up an original and very fruitful vein in the theoretical debate about the politics of transition and democracy Her account of the inner workings and ideological divisions among the country's major political parties provides a wealth of detail for the 1980s and early 1990s nowhere else to be found This book is likely to make a breakthrough in the conspiracy of silence hitherto affecting the inclusion of the Egyptian experience as an empirical reference point in the theoretical literature of transition

**The New Authoritarianism in the Middle East and North Africa** Stephen J. King, 2009-10-28 Stephen J King considers the reasons that international and domestic efforts toward democratization have failed to take hold in the Arab world Focusing on Egypt

Tunisia Syria and Algeria he suggests that a complex set of variables characterizes authoritarian rule and helps to explain both its dynamism and its persistence King addresses but moves beyond how religion and the strongly patriarchal culture influence state structure policy configuration ruling coalitions and legitimization and privatization strategies He shows how the transformation of authoritarianism has taken place amid shifting social relations and political institutions and how these changes have affected the lives of millions Ultimately King s forward thinking analysis offers a way to enhance the prospects for democracy in the Middle East and North Africa

**The 1967 Arab-Israeli War** Avi Shlaim, William Roger Louis, 2012-02-13 The June 1967 war was a watershed in the history of the modern Middle East In six days the Israelis defeated the Egyptian Syrian and Jordanian armies seizing large portions of their territories Two veteran scholars of the Middle East bring together some of the most knowledgeable experts in their fields to reassess the origins and the legacies of the war Each chapter takes a different perspective from the vantage point of a different participant those that actually took part in the war and also the world powers that played important roles behind the scenes Their conclusions make for sober reading At the heart of the story was the incompetence of the Egyptian leadership and the rivalry between various Arab players who were deeply suspicious of each other s motives Israel on the other side gained a resounding victory for which despite previous assessments to the contrary there was no master plan

*The Routledge Handbook to the Middle East and North African State and States System* Raymond Hinnebusch, Jasmine Gani, 2019-11-08 Conflict and instability are built into the very fabric of the Middle East and North African MENA state and states system yet both states and states system have displayed remarkable resilience How can we explain this This handbook explores the main debates theoretical approaches and accumulated empirical research by prominent scholars in the field providing an essential context for scholars pursuing research on the MENA state and states system Contributions are grouped into four key themes Historical contexts state building and politics in MENA State actors societal context and popular activism Trans state politics the political economy and identity contexts The international politics of MENA The 26 chapters examine the evolution of the state and states system before and after independence and take the 2011 Arab uprisings as a pivotal moment that intensified trends already embedded in the system exposing the deep features of state and system specifically their built in vulnerability and their ability to survive This handbook provides comprehensive coverage of the history and role of the state in the MENA region It offers a key resource for all researchers and students interested in international relations and the Middle East and North Africa

**Democracy Challenged** Marina Ottaway, 2013-01-25 During the 1990s international democracy promotion efforts led to the establishment of numerous regimes that cannot be easily classified as either authoritarian or democratic They display characteristics of each in short they are semi authoritarian regimes These regimes pose a considerable challenge to U S policymakers because the superficial stability of many semi authoritarian regimes usually masks severe problems that need to be solved lest they lead to a future crisis Additionally these regimes call into question some of the ideas about democratic

transitions that underpin the democracy promotion strategies of the United States and other Western countries Despite their growing importance semi authoritarian regimes have not received systematic attention Marina Ottaway examines five countries Egypt Azerbaijan Venezuela Croatia and Senegal which highlight the distinctive features of semi authoritarianism and the special challenge each poses to policymakers She explains why the dominant approach to democracy promotion isn't effective in these countries and concludes by suggesting alternative policies Marina Ottaway is senior associate and codirector of the Democracy and Rule of Law Project at the Carnegie Endowment

**The Struggle for Egypt** Steven A. Cook, 2013-03-21 A half century ago Egypt under Nasser became the putative leader of the Arab world and a beacon for developing nations Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption During that time its economy declined into near shambles a severely overpopulated Cairo fell into disrepair and it produced scores of violent Islamic extremists In *The Struggle for Egypt* now with a new epilogue on the post Mubarak era noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be why the revolution occurred and where Egypt might be headed next From p 4 of cover

*The Globalization of Liberalism* E. Hovden, E. Keene, 2016-01-12 *The Globalization of Liberalism* demonstrates that liberalism is more deeply embedded in the structure of modern international political and economic order than is usually realised and that at present there is a contested process of the globalization of liberalism As well as exploring liberalism's usefulness for understanding how international relations work the contributors offer critical perspectives on the liberal structure of modern international society and places international liberalism into a global context by examining responses to liberalism in China India and the Middle East

**Islamists and Secularists in Egypt** Dina Shehata, 2009-12-04 In a detailed analysis of the continued survival of authoritarian governments in the Arab world this book uses Egypt as a case study to address the timely and complex issue of democratization in the Middle East This book examines how relations between different actors in the Egyptian opposition have contributed to the endurance of authoritarianism in Egypt over the past three decades The author argues that the longevity of the authoritarian government is not only a function of the strength and cohesion of the regime but is also related to the weaknesses and divisions between opposition groupings particularly between Islamists and non Islamists Looking at how such ideological differences and mobilizational asymmetries have impeded successful cooperation between different opposition groups and how this allows the authoritarian regime to successfully ensure its continued hegemony the author illustrates the extent to which opposition strategies profoundly affect successful transitions to democracy in the Arab world Highlighting the main obstacles to democratic political reform in the region the author provides important insights for the promotion of democracy in the region which will be a valuable addition to the literature on Middle Eastern politics and government

**Social Justice in Islam** Deina Abdelkader, 2000-01-01 Western theoretical approaches of modernization development social progress and interaction have failed to understand the dynamics of the Islamic revival

Deina Abdelkader in this seminal work argues that questions of social justice are indelibly tied to the phenomenon of contemporary Islamic resurgence as the quest for social justice is in fact motivated by the Shari'ah hence an integral part of Islamic life and weltanschauung. Using the two tools of maqasid and maslahah and through the examination of the dialectical link between fiqh and reality the author shows their indispensability as important methodological tools for the study of the social sciences and indeed of social phenomena.

**US Economic Aid in Egypt** Dina Jadallah, 2016-01-27 Economic aid is one of the cornerstones of the Egyptian American relationship and plays a significant role in promoting US policy objectives in the Middle East. Focusing on the latter half of Hosni Mubarak's rule, Dina Jadallah argues that through its aid policy the US has attempted to use a reforming and democratising narrative to transform Egypt into a stable market democracy that would be aligned with US interests in the region. This aim has been pursued in conjunction with one that promoted a comprehensive warm peace with Israel. By highlighting the opposition within Egypt to US aid, Jadallah analyses the key issues that came to the fore during the 2010-11 protests in the country and led to the downfall of Mubarak. Extending her analysis into the post-revolutionary period, the author provides interviews with regime insiders and prominent critics inside state institutions and outside who actively challenged the regime. This enables her to assess the different perceptions of US aid both under Mubarak and in the current political situation, contributing to an incisive analysis of modern Egypt and its relations with its superpower ally in the region.

**The Struggle for the State in Jordan** Jamie Allinson, 2015-01-05 Why do the states of the Arab world seem so unstable? Why do alliances between them and with outside powers change so suddenly? Jamie Allinson argues that the answer lies in the expansion of global capitalism in the Middle East. Drawing out the unexpected way in which Jordan's Bedouin tribes became allied to the British Empire in the twentieth century and the legacy of this for the British Empire in the twentieth century and the legacy of this for the international politics of the Middle East, he challenges the existing views of the region. Using the example of Jordan, this book traces the social bases of the struggles that produce the country's foreign relations in the latter half of the twentieth century to the reforms carried out under the Ottoman Empire and the processes of land settlement and state formation experiences under the British Mandate. By examining the attempts of Jordan to create foreign alliances during a time of upheaval and instability in the region, Allinson offers wider conclusions on the nature of interaction between state and society in the Middle East.

**Routledge Handbook of Citizenship in the Middle East and North Africa** Roel Meijer, James N. Sater, Zahra R. Babar, 2020-11-23 This comprehensive Handbook gives an overview of the political, social, economic and legal dimensions of citizenship in the Middle East and North Africa from the nineteenth century to the present. The terms citizen and citizenship are mostly used by researchers in an off-hand, self-evident manner. A citizen is assumed to have standard rights and duties that everyone enjoys. However, citizenship is a complex legal, social, economic, cultural, ethical and religious concept and practice. Since the rise of the modern bureaucratic state in each country of the Middle East and North Africa, citizenship has developed differently. In addition, rights are highly differentiated.

within one country ranging from privileged underprivileged and discriminated citizens to non citizens Through its dual nature as instrument of state control as well as a source of citizen rights and entitlements citizenship provides crucial insights into state citizen relations and the services the state provides as well as the way citizens respond to these actions This volume focuses on five themes that cover the crucial dimensions of citizenship in the region Historical trajectory of citizenship since the nineteenth century until independence Creation of citizenship from above by the state Different discourses of rights and forms of contestation developed by social movements and society Mechanisms of inclusion and exclusion Politics of citizenship nationality and migration Covering the main dimensions of citizenship this multidisciplinary book is a key resource for students and scholars interested in citizenship politics economics history migration and refugees in the Middle East and North Africa

*Good Governance and Civil-Security Relations* Ahmed Abd Rabou, 2020-09-24

Developing the traditional civil military relations approach to include security actors the book compares the style of civil security relations in both Egypt and Turkey The volume comprehends the competition between civilian actors and military and security actors to impose control over the political regimes in transition and how this is related to the issue of good governance and democratization The Egyptian and Turkish cases are viably comparable in terms of the status of civil security relations and level of civilian control specifically considering the different outcomes of the latest military putsches in both country 2013 in Egypt and 2016 in Turkey and the extended experiences of both countries with a strong military influence and presence in politics The different responses of the Egyptian and Turkish publics to the coup attempts invite an interesting comparison especially given that in both cases the public was the decisive factor in the success or failure of the coup Focusing on civil security relations within the broader context of good governance and democracy in Egypt and Turkey this book will be a key resource for students and scholars interested in political science specifically comparative government studies and Middle East studies

**The 1973 Arab-Israeli War** Galen Jackson, 2023-09-27 The October 1973 Middle East War transformed the region s politics and had a huge impact on the international political system as a whole Arguments about the causes effects and meaning of the war and about why it ran its course the way it did have played a key role in shaping the understanding of the Arab Israeli conflict of American policy in the Middle East and of many other major issues For the 50th anniversary of the war this book grapples with these issues in an objective way by using the mass of declassified material that has recently become available

*Egyptian Foreign Policy From Mubarak to Morsi* Nael Shama, 2013-10-30

*Egyptian Foreign Policy from Mubarak to Morsi* explores an area rarely touched upon by researchers the relationship between regime security and the national interest Concentrating on Egyptian foreign policy under President Hosni Mubarak this book analyses how it was used to bolster his internal hold on power In considering Egyptian foreign policy two central case studies are examined Firstly Egypt s reluctance to re establish diplomatic ties with Iran and secondly Egypt s response to the efforts of the Bush administration in promoting political reform in the Middle East When examining these case studies

the impact of different societal factors on decision making is taken into consideration highlighting the role of business groups and the security apparatus in foreign policy decision making Concluding with a discussion of Egypt's foreign policy in the first year of Mohamed Morsi's rule and arguing that it has departed little from Mubarak's policy this book is a vital resource for anyone interested in contemporary Egyptian politics Middle East Studies and International Relations more broadly

**Egyptians in Revolt** Adel Ghafar, 2016-10-04 Egyptians in Revolt investigates the political economy of the Egyptian labor and student movements Using elements of social movement theory within a broad political economy framework it assesses labor and student mobilizations in four eras of contemporary Egyptian history the pre 1952 era the Nasser era the Sadat era and the Mubarak era Egyptians in Revolt examines how both student and labor groups responded to the political economy pressures of the respective eras Within the context of social movement theory the book argues that political opportunities and threats have had a significant impact on both student and labor mobilizations In addition the book explores how the movements have at times been able to affect government policies However the argument is made that the inability of both groups to sustain momentum in the long term is due to cooptation efforts by established political forces and the absence of viable and enduring organizational structures that are autonomous of state control By combining analysis to include both labor and student movements Egyptians in Revolt is a valuable resource for understanding the Egyptian political economy and its impact on mobilizations It will therefore be of interest to students and scholars of Middle East Studies as well as those interested in social movement more broadly

*Foreign Policy as Nation Making* Reem Abou-El-Fadl, 2019 A comparison of Turkey's and Egypt's diverging foreign policies during the Cold War in light of their leaderships nation making projects
