**The Road to the Two Sudans** Souad Ali, Richard

Lobban,2014-03-17 Parallel with the previous volume of conference papers in 2008 Sudan s Wars and Peace Agreements most of these selected and thematic articles were originally presented as papers at the 31st meeting of the Sudan Studies Association SSA at Arizona State University in 2012 Since that time the Comprehensive Peace Agreement of 2005 provided for the self determination referendum of 2011 that resulted in the independence of the new Republic of South Sudan The previous book presaged this present volume as the perhaps inevitable outcome of endless conflicts with no serious effort to make unity attractive As this book goes to press the new Republic of South Sudan is itself wracked with violent conflict The hopes to build a new democratic and civil society in the south from the many inherited problems have now devolved to dysfunction itself Reading this book will realistically help in understanding these Roads taken The editors and authors have created a multi faceted account which reveals the complex foundations of these conflicts between north and south and recently within the south itself While Khartoum struggles onward with the Islamist project regional conflicts and grave economic problems Juba stumbles with corruption armed rebellion and a grave humanitarian crisis The half full glass of dreams of social and economic development supported by oil revenue has been replaced by a glass half empty with new varieties of political dysfunction in which both nations have grave problems in security and economic stability in a generally troubled regional neighborhood *Egypt and the Eastern Mediterranean World* Jelle Bruning,Janneke H. Radwan,2024-08-01 The Nubians the largest ethnic community in Egypt saw their ancestral homelands disappear beneath the waters of the Nile from the dawn of the 20th century through to 1964 The massive displacement of this population has been the subject of numerous literary works by Nubian writers who seek to save their heritage from oblivion and to preserve their Nubian collective memory Despite the renewal of socio political interest in Nubia in post 2011 Egypt the authors of **Voices from Nubia** all non Nubian Egyptians claim that art in general and literature in particular remain the domain in which the problematics of what has been called the Nubian Question can be primarily vocalized Only through a thorough reading and analysis of the literary output of Egyptian Nubians can the complexities of Nubia its people and culture can find full expression The rich literary heritage of contemporary Nubian literature allows for a multiplicity of critiques that makes possible a reading of this literature that crosses the borderlines between literature history geography politics gender and ethnicity The diversity of themes and tropes in **Voices from Nubia** reflects a hallmark of Nubian literary output which is generally marked by a common feeling of solidarity around the Nubian cause The array of critical studies included in the volume s eight chapters covers a multiplicity of approaches cultural postcolonial ecofeminist and critical race theory **Voices from Nubia** constitutes an attempt to go beyond the dichotomy between the activist Nubian writer who views the Nubian

Question as a human rights issue and Arab Egyptian nationalists who consider the discussion of Nubians as a distinct ethnic group or minority a threat to societal cohesion and national security The editors conclude the book with interviews with three Egyptian Nubian writers belonging to different generations and expressing different positions with regards to the Nubian Question It is thus hoped that this book will introduce the English speaking reader to the rich tradition of contemporary Nubian literature from Egypt written in Arabic On the other hand the book also forces the Egyptian Arab reader to question some of the most cherished assumptions and ingrained ideas about the nature of culture history and identity As such *Voices from Nubia* has far reaching implications for how we think about the diverse nature of our societies and nations **Scarabs,**
