Egyptian Origins In Words:

Egyptian Origins in Words Gerald Massey, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Egyptian Origin of the Book of Revelation John H. C. Pippy, 2011-12-27 This in depth treatise presents conclusive evidence for an extremely close relationship between ancient Egyptian religious beliefs and the Book of Revelation Practically all characters scenes and series of scenes found in Revelation have parallels in mainstream Egyptian sources including the Book of the Dead the Amduat Book of Gates Book of Aker Books of the Heavens and others Parallel characters include Egypt s Apophis as Revelation s Satan while situations and activities in scenes include the judgment scene and singers by a lake of fire Parallel sequences of scenes include those found in the 2nd to 12th Divisions of the Book of Gates and most of Revelation s Chapters 15 21 Allusions to the Book of Dead are common Finally a key conclusion the entire structure of the Book of Revelation can be accounted for in the organization of text and paintings on the walls and ceilings of the tomb of Ramesses VI in Egypt s Valley of the Kings Fully referenced to enable critical review See revorigin com *History in English Words* Owen Barfield, 2023-09-03 Excerpt If somebody showed us a document which he said was an unpublished letter of Dr Johnson s and on reading it through we came across the word telephone we should be fairly justified in sending him about his business The fact that there was no such thing as a telephone until many years after Johnson s death would leave no doubt whatever in our minds that the letter was not written by him If we cared to go farther we could say with equal certainty that the letter was written since the beginning of the nineteenth century when the telephone was invented Now suppose that there had been nothing about telephones in the letter but that it had contained an account of a thunder storm If in describing the stillness just before the storm broke the writer had said that the atmosphere was electric we could still be fairly positive that he was not Dr Johnson But this time it would not be because the thing of which the letter spoke had no existence in Johnson s day No doubt the heavens during a storm a hundred and fifty years ago were exactly as highly charged with electricity as they are to day but if we look up the word electric in the Oxford Dictionary we find that in Johnson s time it simply was not used in that way Thus in his own dictionary it is defined as A property in some bodies whereby when rubbed so as to grow warm they draw little bits of paper or such like substances to them *Ancient Egyptian Roots of Christianity, Expanded 2nd Edition* Moustafa Gadalla, 2016-12-02 Egyptian roots of Christianity both historically and spiritually This book reveals the Ancient Egyptian roots of Christianity both historically and spiritually This Expanded Version of the book consists of three parts to coincide with the terms of trinity The first part demonstrates that the major biblical ancestors of the biblical Jesus are all Ancient Egyptian prominent characters The second part demonstrates that the accounts of the historical Jesus are based

entirely on the life and death of the Egyptian Pharaoh Twt Tut Ankh Amen The third part demonstrates that the Jesus of Faith and the Christian tenets are all Egyptian in origin such as the essence of the teachings message the creation of the universe and man according to the Book of Genesis as well as the religious holidays The very thing that is now called the Christian religion was already in existence in Ancient Egypt long before the adoption of the New Testament The British Egyptologist Sir E A Wallis Budge wrote in his book *The Gods of the Egyptians* 1969 The new religion Christianity which was preached there by St Mark and his immediate followers in all essentials so closely resembled that which was the outcome of the worship of Osiris Isis and Horus The similarities noted by Budge and everyone who has compared the Egyptian Osiris Isis Horus allegory to the Gospel story are striking Both accounts are practically the same e g the supernatural conception the divine birth the struggles against the enemy in the wilderness and the resurrection from the dead to eternal life The main difference between the two versions is that the Gospel tale is considered historical and the Osiris Isis Horus cycle is an allegory The spiritual message of the Ancient Egyptian Osiris Isis Horus allegory and the Christian revelation is exactly the same The British scholar A N Wilson pointed out in his book *Jesus The Jesus of History and the Christ of Faith* are two separate beings with very different stories It is difficult enough to reconstruct the first and in the attempt we are likely to do irreparable harm to the second This book will demonstrate that the Jesus of History the Jesus of Faith and the tenets of Christianity are all Ancient Egyptian This will be done without causing any irreparable harm as per A N Wilson's concern for two main reasons Firstly the truth must be told Secondly explaining Christian tenets via their original Ancient Egyptian contexts will enhance the idealism of Christianity This Expanded Version of the book consists of three parts to coincide with the terms of trinity the Three that are Two that are One The first part demonstrates that the major biblical ancestors of the biblical Jesus are all Ancient Egyptian prominent individuals The second part demonstrates that the accounts of the historical Jesus are based entirely on the life and death of the Egyptian Pharaoh Twt Tut Ankh Amen The third part demonstrates that the Jesus of Faith and the Christian tenets are all Egyptian in origin such as the essence of the teachings message the creation of the universe and man according to the Book of Genesis as well as the religious holidays There is an undeniable irony and a profound deep undeniable truth in Hosea's prophetic saying Out of Egypt have I called my Son A deep irony indeed Let us open our minds and review the available evidence For the truth is a composite of different and complementary pieces of a puzzle Let us put the pieces in the right location time and order

Lost Voices of Egypt Mfon Edie, 2011-09-26

By offering some insights into a key area of West Africa this book attempts to take the wonders of Ancient Egypt out of the realm of myths and folklore The credit for the longevity of Ancient Egyptian traditions belongs to their erstwhile scribes who managed to keep extensive records of Egypt's history and achievements over an exceptionally long period The Anang Efik and Ibibio people also deserve recognition for maintaining a spoken language that has not changed very much from that spoken by the Ancient Egyptians at the various stages of their development and for perpetuating a very unique culture that allows

for the uncomplicated linkage of these two worlds By studying this ancient language and culture we can pose some formidable questions about our present questions that shape our understanding of the genesis of the three main Middle Eastern religious movements and that help explain the evolution of modern science The fact that other venerated civilizations including the Semites Persians and Greeks represented Egyptian words inaccurately does not warrant perpetuating such corruption as this would rob those words of their true essence Much as the corrupted English words Ikobi inokobi would not sound familiar to an English speaker as the words To be or not to be neither do words like miri kem or osiris represent the Ancient Egyptian muara ekim and ase respectively Page 56 re men kimi In Efik these corrupted words should read as uyo mn ekim meaning black voices voices of those who are black Up until the earlier period of the present day Copts Egyptians referred to themselves as such mn ekim In a similar vein the present day speakers of this language including the Efik Ibibio Anang rn Etinan Uyo Nsit Ibun Itu Ikt Abasi ft Ediene Eket Abak Ikt Aran Ikt Ub Oku Itam Muaa iba are described in similar fashion i e mn so and so In this case mn is used in a generic manner as opposed to nu which has particular relevance to family or ancestors

The sources and primeval facts of Egyptian history Christian Karl Josias Freiherr von Bunsen, 1867 *Deus Ordiri Fundamentum* Richard E. Ford, 2024-10-17 There is a unifying Pattern that underlies much if not all of science which manifests itself in the measures of dimension i e time distance volume mass and of those measures that derive from them This Pattern arises from a simple geometric progression based on the numbers 2 and 3 *Deus Ordiri Fundamentum* God Begins Lays the Order of the Foundation traces this Pattern through much of modern science including astronomy physics geodesy metrology cartography etc and arrives at the almost inescapable conclusion that mankind did not devise this system since it is all too perfect rather it was given to him by the Creator of the cosmos *Deus Ordiri Fundamentum* then proceeds to examine several world renowned ancient monuments and documents a startling sophistication of knowledge embedded in them that embodies many of the measures from the Pattern These monuments were specifically designed and built to memorialize much of this vast knowledge the collected inheritance of a sophisticated civilization Number and Geometry were central to this process And finally *Deus Ordiri Fundamentum* examines six carved stelae in the Step Pyramid complex of Saqqara Egypt and finds that they hold mankind's deepest held beliefs and understandings regarding the origins and manifestations of time and the other dimensions that are the framework of our perceived reality

The Egyptian Origin of Christianity Lisa Ann Bargeman, 2009-02-03 A breakthrough book affecting the scientific religious and literary communities *The Egyptian Origin of Christianity* is a comprehensive look at the history of religion through the Literary Canon As a culmination of years of research this book fills the gaps between modern and ancient religious thought providing us with the most valuable view of the Egyptian religion to date when compared with the Bible and other classic literature No other book has explored so well the origins of modern theology This is done not only in terms of language but also in terms of education cosmology physical symbolism and tradition As the first book to in a

scientific sound way challenge the ecumenical system The Egyptian Origin of Christianity represents the fulfillment of strategy that calls for a comprehensive shift in the way religion is presently understood For additional information please go to <http://ancientnile.co.uk/lb.html> I must admit that your ideas are very interesting more fascinating than I had anticipated I have read it with great interest You illustrate your ideas with the Egyptian texts The Egyptian Origin of Christianity can fill the scientific hole in this problem Dr Roman Szmurlo PhD and Professor of Ancient Theology and Coptic Language at Warsaw University Lisa Ann Bargeman s The Egyptian Origin Of Christianity offers an informative iconoclastic analytical survey of those non Biblical contributions to the concepts and ecumenical development of Christianity drawn from the Egyptian religious myths and rituals of antiquity The juxtaposing of texts from the Bible and from the Egyptian Book of the Dead the comparison of similarities between the story of Osiris and the story of Jesus the observations of cosmology physical symbolism and tradition are all revealed in startling and unexpected ways that will give serious students of both Egyptian and Christian metaphysics a great deal of food for thought and reflection Lisa Bargeman adheres to a very high standard of scholarship both in her presentation and in her interpretative commentary The Egyptian Origin Of Christianity is a welcome and much appreciated contribution to Metaphysical Studies Midwest Book Review s Small Press Bookwatch *Ancient Israel's History* Bill T. Arnold, Richard S. Hess, 2014-11-11 The history of Israel is a much debated topic in Old Testament studies On one side are minimalists who find little of historical value in the Hebrew Bible On the other side are those who assume the biblical text is a precise historical record Many serious students of the Bible find themselves between these two positions and would benefit from a careful exploration of issues in Israelite history This substantive history of Israel textbook values the Bible s historical contribution without overlooking critical issues and challenges Featuring the latest scholarship the book introduces students to the current state of research on issues relevant to the study of ancient Israel The editors and contributors all top biblical scholars and historians discuss historical evidence in a readable manner using both canonical and chronological lenses to explore Israelite history Illustrative items such as maps and images visually support the book s content Tables and sidebars are also included *Egyptian Romany* Moustafa Gadalla, 2017-03-16 Shows the intimate relationship between Egypt and Hispania archaeologically historically culturally ethnologically linguistically etc This book reveals the Ancient Egyptian roots of the Romany Gypsies and how they brought about the civilization and orientalizing of Hispania over the past 6 000 years The book also shows the intimate relationship between Egypt and Hispania archaeologically historically culturally ethnologically linguistically etc as a result of the immigration of the Egyptian Romany Gypsies to Iberia This Expanded Version of the book consists of 14 chapters Chapter one The Romany Gypsy Essence of Hispania sorts through the subject of the Gypsies and differentiates the Egyptian Romany from non Egyptian nomadic groups It highlights their Egyptian characteristics and their different related groups Chapter two Our Heavenly Mother shows how Ancient Egypt and Iberia share the intense love for the Virgin Mother known in Ancient Egypt as Isis and in Christianity as

Mary Maria A shortened version of the story of Isis and Osiris is presented so as to draw parallels between the Ancient Egyptian Isis and the Virgin Mary The role of Mary Auset formed the basis for the matrilineal matriarchal societal framework This chapter also shows the role of the bull in Ancient Egypt and Iberia and that the practices of bullfights and running of the bulls in Iberia can only be found in Ancient Egypt since at least 5 000 years ago Chapter three Out of Egypt gives an overview of the major pitfalls in the common theories about the history of Iberia It highlights the false chronology and dating in most references It also highlights the incredible silence in most references about the role of the most populous wealthiest and prominent civilization in the ancient world namely Egypt It provides the accounts of early Egyptian immigration to other countries and accounts of some of their early settlements in Asia and Europe It also provides the general consensus on the population characteristics in Iberia and how the Ancient Egyptians of all nations in the world match these characteristics exactly Chapter four The Egyptian Hispanic Alloys describes the Ancient Egyptian knowledge of metallurgy and their ability to make numerous metallic alloys It will show how Ancient Egypt lacked certain minerals to make specific alloys such as electrum copper and bronze the high demand for metals in Egypt and how the fluctuation in the production of such goods in Ancient Egypt correlated to the rise and fall of mining activities in Iberia It also shows the Ancient Egyptian history of organization and management of large mining sites settlement fortifications etc Chapter five In the Beginning Almeria highlights the archaeological findings at the early settlements in several Iberian regions beginning at Almeria and correlates these activities in Iberia with Ancient Egypt to show unique similarities and affinities between Ancient Egypt in pre and early dynastic times and Iberia in all aspects of religion architecture farming metalworking etc Chapter six Masters of the Seas shows the supremacy of the Ancient Egypt ships their sizes types and functions It provides an overview of the Egyptian goods that were sought worldwide It identifies the patrons deities of travel and how they were adopted 100% by others such as the Phoenicians Chapter seven Merchants of the Seas evaluates the common theory about the role of the Phoenicians Punics in the history of Iberia by describing the archaeological and historical evidence in the Phoenicians homeland The evidence is overwhelming that Phoenicia was a vassal of Ancient Egypt and that the Phoenicians copied all aspects of the Ancient Egyptian culture It shows that Phoenicians were experienced seafarers and traders and nothing else The Phoenicians did not have the number of people or the talent for the farming art industry and building skills necessary to establish new settlements in Iberia or elsewhere Chapter eight Canopus and C diz A Tale of Two Harbors provides a clear history of C diz and its role as the western gateway to western Iberia northern Europe and the African continent It shows that the reported fishing and salting techniques as well as its famed dancers were duplicates of the same in Ancient Egypt It highlights the significance of the Canopus harbors Alexandria before Alexander as the center of commerce in the whole world for thousands of years It describes the role of the Egyptian Hercules Herakles at Egyptian harbors and how other countries imitated Egypt in this regard It shows the similarities between the C diz harbor with its temples and the harbor at Canopus with its temples

Chapter nine The Assyrian Devastation and Aftershocks correlates the rise of power of the Assyrians and later the Persians to the waves of mass migration from Ancient Egypt which coincided with the increase in population and the number of settlements in Iberia Chapter ten Romanticizing the Romans addresses the lack of merit of Romans influence in Iberia in all aspects of Iberian life such as culture government religion language society buildings etc Chapter eleven The Moors and the Egyptians addresses the falsehoods of credits given to the Moors Moslems Arabs It identifies the true origin of these invaders and how they were removed from the civilized aspects in Iberia such as farming housing gardens arts crafts etc and how all these aspects and activities were only found in Egypt before they appeared in Iberia It also shows the huge number of Egyptian settlers in the areas that are the best farmed in Iberia such as Algarve and Murcia Chapter twelve The Origin of the Hispanic Languages Dialects defines the role of the Ancient Egypt language as the mother of all Semitic languages as well as all other languages dialects in the Mediterranean Basin and beyond Chapter thirteen The Animated Religious Traditions shows how the people of both Egypt and the Iberian Peninsula share the same concept of Animism the power of saints religious pilgrimages festivals etc It also describes the role of Ancient Egypt in Priscillianism which was and continues to be widespread It also relates the fate of Priscillian to the pilgrimage and traditions at Santiago de Compostela It shows that the history and practices of confraternities in Catholic ruled Iberia and southern Italy coincide exactly with Sufi Orders in Islamized countries and that the fundamentals and practices of these mystical groups under Islamic and Christian rules are of Ancient Egyptian origin Chapter fourteen The Egyptian Hispanic Musical Heritage shows the intimacy between the Egyptians and Iberian heritage as it relates to music poetry song and dance It shows that the Ancient Egyptians not the Moors are the source of music singing dancing and poetry in the Iberian Peninsula It highlights the role of the Egyptian Romany as the performers of these activities in the Iberian Peninsula It describes the major celebratory musical activities in both Egypt and the Iberian Peninsula
