Greer,2023-11-28 An investigation of The Eye of Revelation a system of inner alchemy meant to awaken the subtle powers of the human body and mind This book examines in detail a short book often referred to as The Five Tibetans that was published in 1939 teaching a simple yet effective set of five exercises for health and longevity the Five Rites Certain dietary rules and lifestyle principles accompanied the Rites so did a Sixth Rite that worked the diaphragm muscles and redirected sexual energies and also a set of teachings about seven energy centers or vortices in the body though not the same as the well known seven chakras along the spine These vortices are among the most distinctive things about the system and are found in only a scattered handful of sources elsewhere It is by awakening the vortices to their normal rate of spin the book claims that the Rites achieve their effects John Michael Greer follows each of these threads back as far as possible to reveal something of the landscape of ideas and practices that gave rise to these remarkable exercises He then spins the threads back together putting the Five Rites in as much of their original context as he can and describing in detail the practice of the broader system in which the Rites have their place a system of inner alchemy meant to awaken certain subtle powers of the human body and mind The book also includes the complete original text of The Eye of Revelation **The Weiser Concise Guide to Aleister Crowley** Richard Kaczynski,2009-04-01 Shrouded in mystery and misunderstanding Aleister Crowley is one of the 20th century s most revered occult figures With The Weiser Concise Guide to Aleister Crowley readers are given a careful comprehensive overview of Crowley s life from poet to practicing magician as well as his life s work including the basic principles and rituals of his magical practices Set aside your preconceptions and dismiss the rumors Crowley was certainly a complex controversial and colorful man but the truth is far more interesting than the legend The Psychology of Yoga Georg Feuerstein,2014-01-14 Psychoanalysis itself and the lines of thought to which it gives rise said C G Jung are only a beginner s attempt compared to what is an immemorial art in the East by which he was referring to the millennia old study of the mind found in Yoga That tradition was hardly known in the West when the discipline of psychology arose in the nineteenth century but with the passing of time the common ground between Yoga and psychology has become ever more apparent Georg Feuerstein here uses a modern psychological perspective to explore the ways Hindu Buddhist and Jaina yogas have traditionally regarded the mind and how it works and shows how that understanding can enhance modern psychology in both theory and practice Fashion and Materiality Heike Jenss,Viola Hofmann,2019-10-17 Fashion is intimately tied to the material world With a focus on diverse cultural practices this book offers new insights into the dynamic relationships between fashion bodies and material culture In a series of original case studies both historical and contemporary the collection explores how fashion and clothing affect articulations of body and self experiences of time and place and the shaping of social and local global relationships With chapters from leading international scholars Fashion and Materiality takes the reader from the study of clothing and biography and an early modern foreign dress collection to Chinoiserie clothing in 18th century Europe and fast fashion production in today s China The book also examines fashion s

role in nation building and entanglements between fashion and migration across clothing donations for Syrian refugees in Germany and the circulation of refugee chic on international fashion runways Scrutinizing the dense connections between fashion clothing materiality and humanity the book shows how the material interacts forcefully with the personal and political
