Douglas,2012-01-01 Using Charlotte North Carolina as a case study of the dynamics of racial change in the moderate South

Davison Douglas analyzes the desegregation of the city's public schools from the Supreme Court's 1954 *Brown v Board of Education* decision through the early 1970s when the city embarked upon the most ambitious school busing plan in the nation. In charting the path of racial change, Douglas considers the relative efficacy of the black community's use of public demonstrations and litigation to force desegregation. He also evaluates the role of the city's white business community, which was concerned with preserving Charlotte's image as a racially moderate city in facilitating racial gains. Charlotte's white leadership, anxious to avoid economically damaging racial conflict, engaged in early but decidedly token integration in the late 1950s and early 1960s in response to the black community's public protest and litigation efforts. The insistence in the late 1960s on widespread busing, however, posed integration demands of an entirely different magnitude. As Douglas shows, the city's white leaders initially resisted the call for busing but eventually relented because they recognized the importance of a stable school system to the city's continued prosperity.

Reading, Writing and Phonics Too Jim Wilsford, 2004. *Reading, Writing and Phonics Too* is a how-to teach reading and writing book for parents and teachers. Instructions for parents and teachers combine with hands-on lessons for their children. The parent teacher portion of the book provides instruction and illustrations plus coaching notes with each page of the 37 student lessons. The student lessons take children from the reading and writing readiness stage to where they are effective and enthusiastic readers and writers. Each of the 37 lessons has a lesson word which includes the sounds and letters necessary to build phonemic awareness and letter sound correspondence. The lesson words, letters, and sounds are introduced by the teacher. Mat the rat. Following Mat's introduction, the students learn to spell and sound the word. Each lesson embeds its lesson word in at least two stories or poems which are studied for reading comprehension. The lesson words also form the basis of a printing and handwriting activity. Finally, each lesson culminates with a composition activity based on the lesson word.

Fictions of Friendship in the Eighteenth-Century Novel Bryan Mangano, 2017-07-19 This book explores the reciprocal influence of friendship ideals and narrative forms in eighteenth century British fiction It examines how various novelists from Samuel Richardson to Mary Shelley drew upon classical and early modern conceptions of true amity as a model of collaborative pedagogy Analyzing authors their professional circumstances and their audiences the study shows how the rhetoric of friendship became a means of paying deference to the increasing power of readerships while it also served as a semi covert means to persuade resistant readers and confront aesthetic and moral debates head on The study contributes to an understanding of gender roles in the early history of the novel by disclosing the constant interplay between male and female models of amity It demonstrates that this gendered dialogue shaped the way novelists imagined character interiority reconciled with the commercial aspects of writing and engaged mixed sex audiences
