Eighteenth Century Criminal Transportation:

Eighteenth-Century Criminal Transportation G. Morgan, P. Rushton, 2003-12-18 This is the first major study of the convict in the Atlantic world of the eighteenth century. It concentrates on the diverse characters of the transported men, women and children and their fate in the colonies, exploring at the local level the contrasts in sentencing, shipping and settlement of convicts in America. The central myths about transportation prevalent in the eighteenth century, particularly that most felons returned are examined in the context of the burgeoning print culture of criminal biographies and newspaper stories. In addition, the exchange of representations between the two sides of the Atlantic and the changing American reaction to convicts are placed within the growing transatlantic debate on transportation before the American Revolution. Above all, the realities of escape of convicts running away and returning to England are subject to systematic investigation for the first time.

Small Things in the Eighteenth Century Chloe Wigston Smith, Beth Fowkes Tobin, 2022-09-29 Playful, useful decorative revolutionary small things possess a rich array of meanings from the ordinary to the extraordinary.

Prosecuting Homicide in Eighteenth-Century Law and Practice Drew D. Gray, 2020-02-19 This volume uses four case studies, all with strong London connections, to analyze homicide law and the pardoning process in eighteenth-century England. Each reveals evidence of how attempts were made to negotiate a path through the justice system to avoid conviction and so avoid a sentence of hanging. This approach allows a deep examination of the workings of the justice system using social and cultural history methodologies. The cases explore wider areas of social and cultural history in the period, such as the role of policing agents, attitudes towards sexuality and prostitution, press reporting and popular conceptions of honorable behavior. They also allow an engagement with what has been identified as the gradual erosion of individual agency within the law and the concomitant rise of the state. Investigating the nature of the pardoning process shows how important it was to have friends in high places and also uncovers ways in which the legal system was susceptible to accusations of corruption. Readers will find an illuminating view of eighteenth-century London through a legal lens.

Banishment in the Early Atlantic World Gwenda Morgan, Peter Rushton, 2013-08-15 This book places banishment in the early Atlantic world in its legal, political and social context.

Nineteenth-Century Crime and Punishment Victor Bailey, 2021-07-25 This four-volume collection looks at the essential issues concerning crime and punishment in the long nineteenth century. Through the presentation of primary source documents, it explores the development of a modern pattern of crime and a modern system of penal policy and practice, illustrating the shift from eighteenth-century patterns of crime, including the clash between rural custom and law and punishment, unsystematic, selective, public and body-centred, to nineteenth-century patterns of crime, urban, increasing and a metaphor for social instability and moral decay, before a remarkable late-century crime decline and punishment reform, minded, soul-centred, penetrative, uniform and private in application. The first two volumes focus on crime itself and illustrate the role of the criminal courts, the rise and fall of crime, the causes of crime as understood by

contemporary investigators the police ways of knowing the criminal the role of moral panics and the definition of the criminal classes and habitual offenders The final two volumes explore means of punishment and look at the shift from public and bodily punishments to transportation the rise of the penitentiary the convict prison system and the late century decline in the prison population and loss of faith in the prison

Baltic Iron in the Atlantic World in the Eighteenth Century Chris Evans, Göran Rydén, 2007-08-31 The eighteenth century is often viewed as the heroic age of the British iron industry a time of triumphant technological progress In fact it was an age of thwarted ambition when the take up of new technologies proved frustratingly slow The eighteenth century was more accurately the

age of Baltic iron Swedish and Russian iron surged onto the British market meeting the demand that British ironmasters could not satisfy This was of epochal importance Swedish iron allowed British steel makers and hardware manufacturers to dominate Atlantic markets In turn the rhythms of Atlantic commerce resounded through peasant communities in Sweden Baltic iron in the Atlantic world captures this moment In doing so it internationalises Swedish history in a radical way and presses an oceanic perspective on the traditionally insular view of the rise of heavy industry in Britain

MacMillan, 2011-11-07 Drawing on recent trends in both Atlantic and center periphery literature this book examines the relationship between the English crown monarch privy council and ancillary bodies and its Atlantic colonies under the early Stuart monarchs James I and Charles I circa 1603 1642 *Wicked Ladies* Gregory J. Durston, 2014-08-11 In recent years much has been published on women crime and justice in English history However for a variety of reasons particularly the ready availability of source material for the capital such research has tended to have an overwhelmingly Metropolitan focus This book aims to redress the balance for the long eighteenth century by concentrating on women from outside the London area Although vitally important to the wider country the Metropolis always contained a small minority of the country s female offenders and defendants albeit a significantly higher percentage of the latter than its share of the national population The capital also had a rather different criminal justice and policing system to that found in the rest of the country at this time The book focuses on women s experiences in provincial England as both the perpetrators of various crimes and as suspects or defendants in the country s criminal justice system The areas considered range from the West Country to the Scottish Border and the offences examined include all of the major crimes such as murder and theft as well as some more arcane forms of deviance including arson and coining The factors that prompted women to offend their likelihood of exposure when they did so and their treatment before the courts and in the penal system are all considered in detail In particular the book examines the gendered differences found in female crime when compared to that of their male counterparts and how women s experiences of the era s justice system differed from those of men It also compares provincial women to those found in the Metropolis in these respects Extensive use is made of primary sources in portraying the lives of female criminals from Kent to Cumberland while comparison is also made with women from other parts of the British Isles and beyond so that the respective roles of structural determinants and national culture in crime and justice can be considered
