Tracking the Weretiger Patrick Newman, 2012-09-26 Drawing on dramatic accounts by European colonials and on detailed studies by folklorists and anthropologists this work explores intriguing age old Asian beliefs and claims that man eating tigers and little tigers or leopards alike were in various ways supernatural It is a serious work based on extensive research written in a lively style Fundamental to the book is the evocation of a long vanished world When a man eater struck in colonial times people typically said it was a demon sent by a deity or even the deity itself in animal form punishing transgressors and being guided by its victims angry spirits Colonials typically dismissed this as superstitious nonsense but given traditional ideas about the close links between people tigers and the spirit world it is quite understandable Other man eaters were said to be shapeshifting black magicians The result is a rich fund of tales from India and the Malay world in particular and while some people undoubtedly believed them others took advantage of man eaters to persecute minorities as the supposed true culprits The book explores the prejudices behind these witch hunts and also considers Asian weretiger and wereleopard lore in a wider context finding common features with the more familiar werewolves of medieval Europe in particular

Guideline Sentencing ,1992 **Knowing Victims** Rebecca Stringer, 2014-06-20 Knowing Victims explores the theme of victimhood in contemporary feminism and politics It focuses on popular and scholarly constructions of feminism as victim feminism an ideology of passive victimhood that denies women s agency and provides the first comprehensive analysis of the debate about this ideology which has unfolded among feminists since the 1980s The book critically examines a movement away from the language of victimhood across a wide array of discourses and the neoliberal replacement of the concept of structural oppression with the concept of personal responsibility In derogating the notion of victim neoliberalism promotes a conception of victimization as subjective rather than social a state of mind rather than a worldly situation Drawing upon Nietzsche Lyotard rape crisis feminism and feminist philosophy Stringer situates feminist politicizations of rape interpersonal violence economic inequality and welfare reform as key sites of resistance to the victim blaming logic of neoliberalism She suggests that although recent feminist critiques of victim feminism have critically diagnosed the anti victim movement they have not positively defended victim politics Stringer argues that a conception of the victim as an agentic bearer of knowledge and an understanding of resentment as a generative force

for social change provides a potent counter to the negative construction of victimhood characteristic of the neoliberal era. This accessible and insightful analysis of feminism, neoliberalism, and the social construction of victimhood will be of great interest to researchers and students in the disciplines of gender and women's studies, psychology, sociology, politics, and philosophy.

San Antonio Express-News: "An inventive mix of suspense, whimsy, and uplift." The Washington Post: "Heartfelt and provocative, a wonderfully rich and entertaining story." Chicago Sun-Times.

Bullying, Peer Harassment, and Victimization in the Schools Joseph Zins, Maurice Elias, 2013-04-15. Bullying and harassment threaten academic achievement and mental health in our schools. Look beyond your work with individual students to address these problems in their larger context. This book presents enlightening empirical studies and reviews of the literature on peer harassment, bullying, and victimization. Designed to expand our knowledge and understanding of these topics, *Bullying, Peer Harassment, and Victimization in the Schools: The Next Generation of Prevention* documents the widespread nature of the phenomena both inside and outside the United States, identifies risk and protective factors, and provides practitioners with specific evidence-based guidelines for effective preventive action. From the editors: "The problem of bullying, peer harassment, and victimization is a serious one in our schools. It greatly affects the climate for learning and productivity and the emotional health of students and staff. This book presents empirical data and theoretical and legal case reviews to show how pervasive and serious these problems are and how they threaten both academic achievement and mental health within many of our schools. Taking a longitudinal and developmental perspective, the authors begin to outline the next generation of research in this field that will shape knowledge and practice."
