General Accounting Office,1985      Business Week ,1970      The New International Year Book ,1920      *Divisive integration. The triumph of failed ideas in Europe — revisited* Steffen Lehndorff,2014-04-01 This book is a follow up to the ETUI 2012 volume The triumph of failed ideas The focus of the book is the weight attributed to the different economic and social development paths in ten individual EU countries and their interaction with the austerity regime established at EU level which in fact is deepening the crisis rather than paving ways out of it The most dangerous implication of this policy approach is according to this study that it is driving countries apart misleadingly in the name of Europe hence the title of the book divisive integration The main message of the book is that a gradual recovery is possible only if there is a change of course in individual countries that then triggers reactions in the policies of other countries and perturbations at the EU level However these changes in individual countries is no longer feasible without a green light or at least toleration from the level of the European institutions
