Economic Principles The Masters And Mavericks Of Modern Economics:

Economic Principles David Warsh, 2010-06-15 For nearly ten years readers of the Sunday Boston Globe and newspapers around America have delighted in David Warsh's column *Economic Principals*. This collection shows why. Taken as a whole, Warsh's writings amount to a vast and colorful group portrait of the personalities who dominate modern economics from the luminaries to unknown soldiers to eccentrics who add sparkle to the tapestry. Partly a history of controversies in economics, partly an essay on the evolution of the field, *Economic Principals* offers a glimpse of one of the most important stories of our time: the metamorphosis of a priestly class of moral philosophers into the mathematical mandarins of today whose ideas are reshaping society even as they reveal its workings in ever more subtle detail. Warsh first recounts the rise of the economic paradigm deftly treating the rediscovery of Adam Smith and the centrality of markets. He then turns to the generation of economists for whom the Nobel Prize was created in 1969: the men who forged the modern field in a few years during and after World War II. Some like Paul Samuelson and Milton Friedman are well known to the public; others like Trygve Haavelmo and George Dantzig are less quickly recognized. But all have interesting stories which Warsh brings to light. Tracing the high-tech revolution to the current generation, he sketches younger scholars such as Jeffrey Sachs, Martin Feldstein, and others less popularly known who rule the field today. Marking the most powerful applications of modern economics, Warsh explains how the ingenious rocket scientists of Wall Street are creating new markets and the business school wizards and leading corporate executives are reinventing the organization. Finally, in exploring the implications of modern economics, Warsh introduces us to scholars operating on the boundaries of the field from Jane Jacobs to Noam Chomsky and to the critics like Donald McCloskey and Robert Reich who have brought a bit of moral philosophy back into the economist's brave new world. At every step, Warsh maps the field with the journalist's eye for detail. Readers will see why he is considered one of the most consistently stimulating economic journalists in America today.

[Alexander The Great's Art Of Strategy](#) Partha Bose, 2004-05 An Invaluable Guide To Strategy Alexander The Great 356-323 Bc Was Arguably The Greatest Military Strategist, Tactician And Ruler In World History. By The Time Of His Death, Aged Thirty-Three, His Armies Had Conquered Virtually The Entire Known World From The Shores Of The Mediterranean To The Foothills Of India. His Achievements Have Inspired And Influenced A Great Number Of Past And Current Military, Political And Business Leaders. This Book Provides The Wisdom And Secrets Of This Great Empire Builder, Demonstrating How They Can Be Applied To Conquer Today's Challenges. Blending Insights From His Years Of Business Experience With His Lifelong Study Of Alexander, Partha Bose interweaves a gripping biography with compelling analyses of the strategies, tactics and leadership approaches of successful institutions including Dell, GE, Honda, Ikea, The Harvard Law School and The East India Company, and individuals such as Elizabeth I, Winston Churchill, Abraham Lincoln, Franklin D. Roosevelt, Bernard Montgomery, Gandhi, Jack Welch and Lou Gerstner.

[Essays in the History of Economics](#) William Henderson, Kirk D. Johnson, Marianne F. Johnson, Warren J.

Samuels,2004-05-20 Under the impressive editorship of Warren Samuels et al this book addresses the state of the history of economic thought today A relevant and important contribution to economics that will develop an unsurprising number of fans

Economic Thought Since Keynes Michel Beaud,Gilles Dostaler,2005-09-27 Economic Thought Since Keynes provides a concise overview of changing economic thought in the latter part of the twentieth century Offering a concise biography of 150 influential economists since Keynes it is an invaluable reference tool *A Contemporary Historiography of Economics* Till D ppe,E. Roy Weintraub,2018-10-03 In recent years the focus of historians of economic thought has changed to also include the ideas and practices of contemporary economists This has opened up new questions regarding the utilization of sources choice of method narrative styles and ethical issues as well as a new awareness of the historian s place role and task This book brings together leading contributors to provide for the first time a methodological overview of the historiography of economics Emphasising the quality of the scholarship of recent decades the book seeks to provide research tools for future historians of economic thought as well as to any historians of social science with an interest in historiographic issues

FRICION—The Untapped Force That Can Be Your Most Powerful Advantage Roger Dooley,2019-05-17 NAMED A BEST BUSINESS BOOK OF 2019 by strategy business Annually 4 6 trillion of merchandise is left in abandoned e commerce shopping carts Every year the U S economy loses 3 trillion dollars in productivity due to excess bureaucracy Red tape and over complicated licenses have contributed to China s GDP exceeding India s by 82 trillion over the span of just three decades If you re a business leader these statistics should give you nightmares According to science based marketing and business expert Roger Dooley they illustrate the real and growing threat of friction which he defines as the unnecessary expenditure of time effort or money in performing a task In today s high speed customer empowered world the levels of swiftness and efficiency of business transactions will determine ultimate success or failure In this groundbreaking guide Dooley helps you spot the inevitable points of friction in your organization and he provides the tools and insight you need to eliminate them By truly understanding the impact friction can have you ll be able to establish positive habits and eliminate negative ones all with the end result of building a company that s the envy of your industry Friction takes you step by step through the process of Empowering frank conversations Guiding individual and team behaviors Getting ahead of friction Optimizing the customer experience Building a frictionless corporate culture Combining scientific research with real life examples of leaders who have conquered business friction Dooley teaches you how to identify roadblocks alter them for the benefit of both business and customer and create positive lasting change If you re in a leadership position now is the time to declare war on friction before your competitors do Stamp out ridiculous rules pointless procedures and meaningless meetings Become a relentless advocate for the customer and for minimizing customer effort Lubricate every point of friction and make your company run like a well oiled machine Friction provides the know how you need to lead your company to industry dominance Ronald H. Coase Steven G. Medema,2016-07-27 Ronald Coase has been one of the most influential

economists of his generation Although his work deals with foundation concepts of the discipline his ideas have been subject to a variety of usage often in conjunction with ideological baggage In this remarkable study of the man and his work Steven Medema presents a careful judicious and nonideological examination of Coase s ideas challenging their misleading common interpretation and revealing their true revolutionary potential Professor W J Samuels Michigan State University Steven Medema s achievement is remarkable with great fairness he introduces us to Coase s way of thinking and with great clarity helps us to see the continuity in Coase s work Medema has written an excellent book about one of the great economists of this century Professor T Eggertsson University of Iceland and Indiana University This book presents a systematic analysis of the contributions to economics made by Ronald Coase the recipient of the 1991 Nobel Prize in economics Throughout his career Coase has brought his own particular approach to the economic analysis of the firm pricing and costs externalities the economic role of government and economic method This book analyses Coase s seminal contributions to economics as well as the challenge that his work poses to conventional economic analysis The Chicago School Johan Van

Overtveldt,2009-03-01 This admirably detailed and thoroughly welcome history provides a fascinating examination of a pivotal moment in the evolution of economic theory The Economist When Richard Nixon said We are all Keynesians now in 1971 few could have predicted that the next three decades would result in a complete transformation of the global economic landscape The transformation was led by a small relatively obscure group within the University of Chicago s business school and its departments of economics and political science These thinkers including Milton Friedman Gary Becker George Stigler Robert Lucas and others revolutionized economic orthodoxy in the second half of the 20th century dominated the Nobel Prizes awarded in economics and changed how business is done around the world Written by a leading European economic thinker The Chicago School is the first in depth look at how this remarkable group came together Exhaustively detailed it provides a close recounting of the decade by decade progress of the Chicago School s evolution As such it s an essential contribution to the intellectual history of our time **Democracy in Chains** Nancy MacLean,2017-06-13 Winner of the

Lillian Smith Book Award Winner of the Los Angeles Times Book Prize Finalist for the National Book Award The Nation s Most Valuable Book A vibrant intellectual history of the radical right The Atlantic This sixty year campaign to make libertarianism mainstream and eventually take the government itself is at the heart of Democracy in Chains If you re worried about what all this means for America s future you should be NPR An explosive expos of the right s relentless campaign to eliminate unions suppress voting privatize public education stop action on climate change and alter the Constitution Now Updated With A New Preface Behind today s headlines of billionaires taking over our government is a secretive political establishment with long deep and troubling roots The capitalist radical right has been working not simply to change who rules but to fundamentally alter the rules of democratic governance But billionaires did not launch this movement a white intellectual in the embattled Jim Crow South did Democracy in Chains names its true architect the Nobel Prize winning

political economist James McGill Buchanan and dissects the operation he and his colleagues designed over six decades to alter every branch of government to disempower the majority In a brilliant and engrossing narrative Nancy MacLean shows how Buchanan forged his ideas about government in a last gasp attempt to preserve the white elite s power in the wake of Brown v Board of Education In response to the widening of American democracy he developed a brilliant if diabolical plan to undermine the ability of the majority to use its numbers to level the playing field between the rich and powerful and the rest of us Corporate donors and their right wing foundations were only too eager to support Buchanan s work in teaching others how to divide America into makers and takers And when a multibillionaire on a messianic mission to rewrite the social contract of the modern world Charles Koch discovered Buchanan he created a vast relentless and multi armed machine to carry out Buchanan s strategy Without Buchanan s ideas and Koch s money the libertarian right would not have succeeded in its stealth takeover of the Republican Party as a delivery mechanism Now with Mike Pence as Vice President the cause has a longtime loyalist in the White House not to mention a phalanx of Republicans in the House the Senate a majority of state governments and the courts all carrying out the plan That plan includes harsher laws to undermine unions privatizing everything from schools to health care and Social Security and keeping as many of us as possible from voting Based on ten years of unique research Democracy in Chains tells a chilling story of right wing academics and big money run amok This revelatory work of scholarship is also a call to arms to protect the achievements of twentieth century American self government

A Short Course in International Economics Jeffrey E. Curry,2009 **Forecasting Travel in Urban America** Konstantinos Chatzis,2023-07-11 A history of urban travel demand modeling UTDM and its enormous influence on American life from the 1920s to the present For better and worse the automobile has been an integral part of the American way of life for decades Its ascendance would have been far less spectacular however had engineers and planners not devised urban travel demand modeling UTDM This book tells the story of this irreplaceable engineering tool that has helped cities accommodate continuous rise in traffic from the 1950s on Beginning with UTDM s origins as a method to help plan new infrastructure Konstantinos Chatzis follows its trajectory through new generations of models that helped make optimal use of existing capacity and examines related policy instruments including the recent use of intelligent transportation systems Chatzis investigates these models as evolving entities involving humans and nonhumans that were shaped through a specific production process In surveying the various generations of UTDM he delves into various means of production from tabulating machines to software packages and travel survey methods from personal interviews to GPS tracking devices and smartphones used to obtain critical information He also looks at the individuals who have collectively built a distinct UTDM social world by displaying specialized knowledge developing specific skills and performing various tasks and functions and by communicating interacting and even competing with one another Original and refreshingly accessible Forecasting Travel in Urban America offers the first detailed history behind the thinkers and processes that impact the lives of millions of city

dwellers every day **Microeconomic Principles & Policies** Ryan C. Amacher,1995 **Law as Reproduction and Revolution** Bryant G. Garth,2021-09-28 A free open access ebook is available upon publication Learn more at www.luminosoa.org This sweeping book details the extent to which the legal revolution emanating from the US has transformed legal hierarchies of power across the globe while also analyzing the conjoined global histories of law and social change from the Middle Ages to today It examines the global proliferation of large corporate law firms a US invention along with US legal education approaches geared toward those corporate law firms This neoliberal inspired revolution attacks complacent legal oligarchies in the name of America inspired modernism Drawing on the combined histories of the legal profession imperial transformations and the enduring and conservative role of cosmopolitan elites at the top of legal hierarchies the book details case studies in India Hong Kong South Korea Japan and China to explain how interconnected legal histories are stories of both revolution and reproduction Theoretically and methodologically ambitious it offers a wholly new approach to studying interrelated fields across time and geographies **New Horizons for Policy Practice** Richard Hoefer,2013-09-13 This book provides fresh perspectives on the state of policy practice Leading scholars explore such vital conceptual topics such as how to impact social justice what the strengths based perspective means to policy practitioners and how to bridge the all too common gap between community organizing and direct practice in social work Other esteemed academics address topics including how to use technology to impact social justice what the impacts of the recent changes in the United States Supreme Court will be how to conceptualize the impact of ex prisoners re entry into society and how to better include marginalized populations in the policy practice The volume closes with two pieces relating to students using service learning to increase knowledge of macro interventions and integrating social capital analysis into policy practice Each topic is thoroughly covered by experts using the latest scholarly material available The reader will come away with a new perspective on the many areas where social work is involved needed and effective in making positive change in the world This book was published as a special issue of the Journal of Policy Practice *Ebook: International Economics* Appleyard ; Fie,2016-09-16 Ebook International Economics **Invisible Hands** Kim Phillips-fein,2009-01-13 Invisible Hands tells the story of how a small group of American businessmen succeeded in building a political movement Long before the culture wars of the 1960s sparked the Republican backlash against cultural liberalism these high powered individuals actively resisted New Deal economics and sought to educate and organize their peers Kim Phillips Fein recounts the little known efforts of men such as W C Mullendore Leonard Read and Jasper Crane drawing on meticulous research and narrative gifts to craft a compelling history of the role of big and small business in American politics and a blueprint for anyone who wants insight into the way that money has been used to create political change **Harvard Business School Core Collection** Baker Library,1999 *The Academy of Management Review* Academy of Management,1993 **Academy of Management Journal** Academy of Management,1992 Aug 1957 has first section Proceedings of the Academy of Management 1956 [Across the Board](#)
