Special and Differential Treatment Reform in the WTO Aniekani Ukpe,2024-06-28 This book proposes a new approach to differentiating between developing countries in the context of special and differential treatment SDT in the World Trade Organisation Offering unique insights into SDT reform in the WTO the book proposes the method of differentiated differentiation and demonstrates its operationalization using the WTO Customs Valuation Agreement Through identifying key indicators to categorize constraints faced by developing countries the book establishes objective criteria to depoliticize access to SDT Promoting a case by case approach the book also employs a statistics based score procedure to

determine a threshold for graduating countries out of SDT Through flexible tracking and evidence based arguments the book provides a transitional method of reform which maintains full compliance with WTO members obligations The book will be of importance to academics and students of international law especially those with an interest in international trade law and the WTO as well as legal professionals and policymakers *Just World* Fabian Globalisation Group,2005-05 The Fabian Society with over a century of experience in making strategic policy relevant interventions makes the case in *Just World* for a middle way between unsustainable unfettered free market capitalism and the utopian anti globalization position of many left and green political movements This manifesto identifies practical policy proposals and goals around a wide agenda of key issues democracy and accountability in global governance fair and sustainable trade investment and a stable global financial system the global redistribution of income security and peace and culture and community **Assessing Prospective Trade Policy** Oliver Morrissey,2010-09-30 This volume assesses economic partnership agreements between the EU and Africa the Caribbean and the Pacific focusing on specific concerns such as legal commitments adjustment costs impacts on poverty and food security and regulatory reforms Renewing Development in Sub-Saharan Africa Deryke Belshaw,the late Arthur Ian Livingstone,2005-06-29 *Renewing Development in Sub Saharan Africa* reviews the debates and brings together specialist contributions to provide a clear guide to the major complexities of African development They lay the foundation for designing a range of individual country specific policy sets in which the strategic components are prioritized according to each country s constraints and opportunities The emphasis of the book is on the identification of effective strategies that will enable individual countries to most effectively exploit their growth opportunities and to meet poverty reducing and other key equity objectives **Financialisation and Poverty Alleviation in Ghana** Francis Boateng Frimpong,2021-11-22 The neoliberal policy response to the crisis in Ghana did not succeed in reversing the economic decline in both the medium and long term In fact quite the opposite rather than undoing the economic decline Frimpong argues that the policy prescriptions further weakened the country s ability to develop This is because the policies intentionally and unintentionally encouraged factors that destabilised the possibility of the real productive assets to earn commensurate returns to facilitate the flow of capital to the real sectors to ensure the survival of industrial enterprises Rising profit in the financial sector incentivised financial capitalist to divert capital into financial assets at the expense of productive investment further decelerating the pace of real capital accumulation in the country **Liberalization, Financial Instability and Economic Development** Yılmaz Akyüz,2014-05-01 Weighing up the costs and benefits of economic interdependence in a finance driven world this book argues that globalization understood and promoted as absolute freedom for all forms of capital has been oversold to the Global South and that the South should be as selective about globalization as the North Liberalization Financial Instability and Economic Development challenges the orthodoxy on the link between financial deepening and economic growth as well as that between the efficiency of financial markets and the benefits of liberalization Ultimately the author urges developing

countries to control capital flows and asset bubbles preventing financial fragility and crises and recommends regional policy options for managing capital flows and exchange rates

Urban Growth in Emerging Economies Gordon McGranahan, George Martine, 2014-04-29 Along with globalization urban transitions have been central in the southward shift in economic power towards the newly emerging economies As this book shows however these transitions have not been painless and it is important for the rest of the urbanizing world to learn from the mistakes It examines the role of urbanization and urban growth in the emerging economies taking the BRICS countries Brazil Russia India China and South Africa as case studies Their different approaches towards urbanization have shaped their historical development paths and assisted or constrained their futures Several of the BRICS bear heavy burdens from past failures to accommodate urban growth inclusively and efficiently and many other urbanizing countries in Asia and Africa are in danger of replicating their mistakes The overriding lesson of the book is that cities and nations must anticipate urbanization and accommodate urban growth pro actively so as not to be left with an enduring legacy of inequalities and lost opportunities This book is aimed at students and researchers in urban studies and development studies It will also be of interest to policy advisors concerned with urbanization and the role of cities in a country s development
