Bureau of the Census,1976 Economic Analysis for Hydropower Project Relicensing ,1998 Solar Energy Update ,1981 Fuzzy Engineering Economics with Applications Cengiz Kahraman,2008-09-20 Fuzzy set approaches are suitable to use when the modeling of human knowledge is necessary and when human evaluations are needed Fuzzy set theory is recognized as an important problem modeling and solution technique It has been studied extensively over the past 40 years Most of the early interest in fuzzy set theory pertained to representing uncertainty in human cognitive processes Fuzzy set theory is now applied to problems in engineering business medical and related health sciences and the natural sciences This book handles the fuzzy cases of classical engineering economics topics It contains 15 original research and application chapters including different topics of fuzzy engineering economics When no probabilities are available for states of nature decisions are given under uncertainty Fuzzy sets are a good tool for the operation research analyst facing uncertainty and subjectivity The main purpose of the first chapter is to present the role and importance of fuzzy sets in the economic decision making problem with the literature review of the most recent advances

**Analysis of Socio-Economic Conditions** Gianni Betti,Achille Lemmi,2021-03-30 Showcasing fuzzy set theory this book highlights the enormous potential of fuzzy logic in helping to analyse the complexity of a wide range of socio economic patterns and behaviour The contributions to this volume explore the most up to date fuzzy set methods for the measurement of socio economic phenomena in a multidimensional and or dynamic perspective Thus far fuzzy set theory has primarily been utilised in the social sciences in the field of poverty measurement These chapters examine the latest work in this area while also exploring further applications including social exclusion the labour market educational mismatch sustainability quality of life and violence against women The authors demonstrate that real world situations are often characterised by imprecision uncertainty and vagueness which cannot be properly described by the classical set theory which uses a simple true false binary logic By contrast fuzzy set theory has been shown to be a powerful tool for describing the multidimensionality and complexity of social phenomena This book will be of significant interest to economists statisticians and sociologists utilising quantitative methods to explore socio economic phenomena

**Joint Ventures and EU Competition Law** Luís Morais,2014-07-18 This book examines the treatment of joint ventures JVs in EU Competition Law and at the same time provides a comparison with US law It starts with an analysis of the rather elusive concept of JV encompassing both concentrative JVs subject to merger control and non concentrative JVs Although focused on possible definitions of joint ventures in terms of competition law it also includes a broader perspective going beyond competition law on the different legal models of structuring cooperation links between undertakings At the

core of the book is an attempt to build an analytical model for the assessment of JVs in terms of antitrust law especially as regards Article 101 of the TFEU The analytical model used proposes a set of sequential analytical levels taking into account structural factors and specific factors related to the main constituent elements of the functional programmes of JVs The model is applied to a substantive assessment of four main types of JVs identified on the basis of their prevailing economic function research and development JVs production JVs commercialization JVs and purchasing JVs Also covered are particular situations of joint ownership of undertakings falling short of joint control In the concluding part of the book recent developments in JV antitrust law are put into context within the wider reform of EU Competition Law The book is also comprehensively updated with the latest developments concerning the reform of the EU framework of horizontal cooperation between undertakings that took place at the end of 2010
