The Natural History of Edward Lear, New Edition Robert McCracken

Peck, 2021-04-13 Edward Lear is well known as the brilliant writer of nonsense poetry children's books and travel books who

popularized the limerick and wrote verses such as The Owl and the Pussycat But few people are aware that Lear was one of the most talented and accomplished painters of natural history subjects in the nineteenth century and worked with British scientists collectors and publishers to make Britain the nexus for scientific investigation and its circulation One of the best ornithological artists of his generation Lear published his first book a monograph on the parrot family at age 18 and established a format that would be followed by decades by such publishers as John Gould with whom he worked closely and often anonymously Over his career Lear produced a multitude of drawings of birds and mammals from around the world for scientific publications public institutions and individual patrons not just of English species but of birds and mammals from Australia New Zealand and the Americas He is also the Lear in the name of the rare species Lear s Macaw In this book Peck has assembled the first comprehensive view of this important part of Lear s career Featuring over 200 illustrations and a foreword by Sir David Attenborough the book also examines the influence Lear had on modern artists such as Walton Ford and Tony Foster This new edition includes a new chapter that addresses Lear s continued fascination with wildlife and the natural world after giving up his career as a scientific illustrator and his fascination with domestic pets from his own beloved cat which he cartooned repeatedly to the portraits of dogs owned by his family and friends alongside thirteen never before published illustrations including fully finished watercolors rough preliminary sketches and whimsical cartoons

Edward Lear Edward Lear, 2001 Utterly delightful to read aloud and for parent and child to share Edward Lear s humorous verses shine with irrepressible joy and rhythm Filled with exuberantly nonsensical made up words like Scroobius Pip and pobble that tickle the funny bone his work gives free rein to youthful imaginations What better to foster a love of poetry than the immediately appealing The Owl and the Pussy Cat with its effortless rhymes songlike beat and charming animal characters Or The Quangle Wangle s Hat which tells the tale of a creature who warmly welcomes everyone and so makes everyone cheerful In Dingle Bank even some young and mischievous boys punished by their schoolmaster make the best of their situation and succeed in having a good time Bright and fanciful paintings all as wildly energetic and unrestrained as the language itself add to the enjoyment 20 examples of Lear s finest poems will entice children over and over again and as always this acclaimed series features fascinating biographical information introductions to each verse and full annotations that define difficult vocabulary

Edward Lear James Williams, James Atherton Williams, 2018 James Williams s account the first book length critical study of the poet since the 1980s sets out to re introduce Lear and to accord him his proper place as a major Victorian figure of continuing appeal and relevance and especially as a poet of beauty comedy and profound ingenuity

Inventing Edward Lear Sara Lodge, 2018-11-30 Inventing Edward Lear is an exceptional valuable original study presenting new materials on aspects of Lear s life and work Jenny Uglow author of Mr Lear and The Lunar Men Edward Lear wrote some of the best loved poems in English including The Owl and the Pussycat but the father of nonsense was far more than a poet He was a naturalist a brilliant landscape painter an experimental travel writer and an accomplished composer

Sara Lodge presents the fullest account yet of Lear's passionate engagement in the intellectual, social and cultural life of his times. Lear had a difficult start in life. He was epileptic, asthmatic and depressive but even as a child a consummate performer who projected himself into others' affections. He became, by John James Audubon's estimate, one of the greatest ornithological artists of the age. Queen Victoria, an admirer, chose him to be her painting teacher. He popularized the limerick, set Tennyson's verse to music and opened fresh doors for children and adults to share fantasies of magical escape. Lodge draws on diaries, letters and new archival sources to paint a vivid picture of Lear that explores his musical influences, his religious nonconformity, his relationship with the Pre-Raphaelite movement and the connections between his scientific and artistic work. He invented himself as a character: awkward but funny, absurdly sympathetic. In Lodge's hands, Lear emerges as a dynamic and irreverent polymath whose conversation continues to draw us in. *Inventing Edward Lear* is an original and moving account of one of the most intriguing and creative of all Victorians. **Rhythms of Feeling in Edward Lear, T. S. Eliot, and Stevie Smith**

Jasmine Jagger, 2022. Rich with unpublished material and detailed insight, *Rhythms of Feeling* offers a new reading of three of the most celebrated poets: Edward Lear, T. S. Eliot and Stevie Smith. Tracing exciting lines of interplay, affinity and influence between these writers for the first time, the book shifts the terms of critical debate on Lear, Eliot and Smith and subtly reorients the traditional account of the genealogies of Modernism. Going beyond a biographically framed close reading or a more general analysis framed by affect theory, the volume traces these poets' affective rhythms, fits tears, nerves to consider the way that poetics the mental and physical process of writing and reading and the ebbs and flows of their emotional weather might be in dialogue. Attentive, acute and often forensic, the book broadens its reach to contemporary writers and medical accounts of creativity and cognition. Alongside deep critical study, this volume seeks to bring emotional intelligence to criticism, finding ways of speaking lucidly and humanely about emotional and physical states that defy lucidity and stretch our sense of the human.
