Perfect Parents Christina Hardyment,1995 The best way to counteract the anxiety induced by reading too many baby care books is to take a detached look at the staggering range of advice mothers have been given over the last two and a half centuries Christina Hardyment provides a much needed new perspective on the whole perplexing business showing that not only has the advice given always been subject to the prevailing fashions and to the personal quirks of their authors but also that the books have had a hand in provoking the anxieties they set out to quell It s all here from James B Watson s admonitions about physical contact Never hug and kiss them Never let them sit in your lap If you must kiss them once on the forehead when they say goodnight Shake hands with them in the morning to Jean Liedloff s insistence that babies should be kept physically attached to their mothers until they positively struggle to get away the exhortations the warnings the assurances on everything from the breast to the potty Perfect Parents is an absolutely superb slice of social history extraordinary riveting hair raising funny and ultimately wonderfully reassuring

Voice for Mothers Linda Bryder, 2003 The Plunket Society founded in 1907 has been heralded as New Zealand's most successful and famous voluntary organisation. Run by women for women, it played a vital role in the care of mothers and babies for most of the twentieth century, becoming a national and international icon. This comprehensive history of Plunket covers three broad themes: the relationship between the voluntary sector and the State in the provision of welfare; the development of paediatrics; and the relationship between health providers and their clients, the mothers. Bryder stresses in particular infant health and welfare, the political pressures applied by the government and medical profession, the influence of the remarkable women who shaped the fortunes of the society, and its diminishing impact in recent years. She also compares New Zealand's experience with other countries like Australia and Britain and outlines the philosophy behind the organisation.

Peter Pan's Shadows in the Literary Imagination Kirsten Stirling, 2011-12-21 This book is a literary analysis of J.M. Barrie's Peter Pan in all its different versions: key rewritings, dramatisations, prequels and sequels, and includes a synthesis of the main critical interpretations of the text over its history. A comprehensive and intelligent study of the Peter Pan phenomenon, this study discusses the book's complicated textual history, exploring its origins in the Harlequinade theatrical tradition and British pantomime in the nineteenth century. Stirling investigates potential textual and extra-textual sources for Peter Pan, the critical tendency to seek sources in Barrie's own biography, and the proliferation of prequels and sequels, aiming to explain, contextualize or close off Barrie's exploration of the imagination. The sources considered include Dave Barry and Ridley Pearson's *Starcatchers* trilogy, R. G. Loisel's six-part Peter Pan graphic novel in French (1990-2004), Andrew Birkin's *The Lost Boys* series, the films *Hook* (1991), *Peter Pan* (2003) and *Finding Neverland* (2004), and Geraldine McCaughrean's official sequel *Peter Pan in Scarlet* (2006) among others.

Edwardian Devon 1900-1914 David Parker, 2016-08-04 A century ago Britain was locked in a devastating worldwide conflict that would change every aspect of society. This book explores life in Devon between 1900 and 1914, offering a revealing glimpse of a world now long vanished before war broke out. Devon was no backwater: its railways and shipping were busy bringing tourists in and sending vast quantities of produce out. It was, though, a county of contrasts and change. Farming had reinvented itself after the late Victorian depression, but villages were in decline, churches and chapels were full, but religion bitterly divided communities. The wealthy enjoyed extravagant lifestyles on great estates, but their authority was under attack. Devon's upper middle and lower class schools perfectly reflected the Edwardian social hierarchy, but as the county's elections revealed, society was being torn asunder by bitter controversies over exactly who should have the vote, rule the country, and control the Empire. It was a worrying time overseas too. Great Britain's supremacy was increasingly challenged, and the warships in Devon's harbours and army manoeuvres on the moors drew many comments as the storm clouds began to gather over Europe. Using mainly contemporary sources, this engaging book
