Encyclopedia of American Literature Manly, Inc.,2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S **Southern Writers at Century's End** Jeffrey J. Folks,James A. Perkins,2021-12-14 Since the end of World War II the South has experienced a greater awareness of growth and of its accompanying tensions than other regions of the United States The rapid change that climaxed with the war in Vietnam the Cold War civil rights demonstrations and Watergate has forced the traditional South to come to terms with social upheaval As the essays collected in *Southern Writers at Century's End* point out southern writing since 1975 reflects the confusion and violence that have characterized late twentieth century public culture These essays consider the work of twenty one of the foremost southern writers whose most important fiction has appeared in the last quarter of this century As the region's contemporary writers have begun to gain a wide audience critics have begun to distinguish what Hugh Holman has called the fresh the vital and the new in southern literary culture *Southern Writers at Century's End* is the first volume to take an extensive look at the current generation of southern writers Authors considered include James Lee Burke Fred Chappell Robert Drake Andre Dubus Clyde Edgerton Richard Ford Kaye Gibbons John Grisham Barry Hannah Mary Hood Josephine Humphreys Randall Kenan Richard Marius Bobbie Ann Mason Cormac McCarthy Tim McLaurin T R Pearson Lee Smith Anne Tyler Alice Walker and James Wilcox Telling the Untold Story Steve Weinberg,1992 Author of his own controversial unauthorized biography of Armand Hammer Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and important new ways Trained as investigative journalists today's writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia Inquirer journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating New Yorker profile of the Miami Herald's inimitable police reporter Edna Buchanan The living of a life is more

difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers Telling the Untold Story is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits

Pretexts of Authority Kevin Dunn, 1994 *Pretexts of Authority* describes the Renaissance rhetoric of authorship and authority by examining the textual locus where this rhetoric appears in its most concentrated and complex form the preface In the process it shows how the notion of authorship changed in a shift of systems of authorization during the Renaissance a shift that coincides with the roots of the modern public sphere and with the change from religion to science and the public good as the intellectual court of appeal for legitimizing authorship The author focuses on prefatory materials to kinds of texts that most fully exemplify the problem of self authorization during the Renaissance First he examines Protestant prefaces notably Luther's preface to his collected works and Milton's antiprelatical tracts These works stand at the center of a rhetorical crisis having abrogated the authority of the Catholic church through an appeal to the conscience of the individual reformers found it necessary to forge a persona that could authorize their discourse without implying an authorizing will independent of God's At the same time these texts must attempt to close off means of authorization to potentially proliferating imitators The second group of prefaces the author examines is to scientific works notably those of Francis Bacon and Rene Descartes who faced problems analogous to those of the Protestant reformers in their attempts to set aside Aristotelian authority without seeming to establish a personal authority that interrupts the transparent impersonal discourse of scientific inquiry The book argues that in both sets of texts the rhetorical quandary can be resolved only through recourse to the nascent notion of common sense which allows an author to garner authority from an assumed bond with the audience Authors no longer need to posit a privileged and suspect relation with the master texts of Scripture and the Book of Nature but can instead assume the mutual intelligibility of their text This assumption is seen as the cause of the decline of the full blown prefatory practice of the Renaissance

The Voice of the Child in American Literature Mary Jane Hurst, 2014-07-15 We as adults are reflected in our children those in our literature as well as those in our families and so it is natural to want to examine their presence among us Children and child speech are important literary elements which merit careful critical analysis Surprisingly comprehensive studies of the child in American fiction have not been previously attempted and fictional child speech even that of individual characters has been almost totally ignored Nevertheless the language of fictional children warrants attention for several reasons First language and language acquisition are primary issues for children much as sexual development is primary issues for adolescents Second because vast linguistic efforts have been directed toward language acquisition research a broad base of concrete information exists with which to explore the topic And third language is a key which opens many doors An understanding of fictional children's language leads to discoveries about various critical

questions sociological and psychological as well as textual and stylistic This study examines the presentation of children and child language in American fiction by applying general linguistic principles as well as specific findings from child language acquisition research to children's speech in literary texts It clarifies sorts and assesses the representations of child speech in American fiction It tests on fictional discourse linguistic concepts heretofore applied exclusively to naturally occurring child language The aim is not to evaluate the degree of realism in writers' presentations of child language for that would be a simplistic and reductive enterprise Rather the overall object is to analyze fictional child language using linguistic methods

American Literature in Transition, 1990-2000 Stephen J. Burn, 2017-12-28 Written in the shadow of the approaching millennium American literature in the 1990s was beset by bleak announcements of the end of books the end of postmodernism and even the end of literature Yet as conservative critics marked the century's twilight hours by launching elegies for the conventional canon American writers proved the continuing vitality of their literature by reinvigorating inherited forms by adopting and adapting emerging technologies to narrative ends and by finding new voices that had remained outside that canon for too long By reading 1990s literature in a sequence of shifting contexts from independent presses to the AIDS crisis and from angelology to virtual reality *American Literature in Transition 1990-2000* provides the fullest map yet of the changing shape of a rich and diverse decade's literary production It offers new perspectives on the period's well known landmarks Toni Morrison Thomas Pynchon David Foster Wallace but also overdue recognition to writers such as Ana Castillo Evan Dara Steve Erickson and Carole Maso
