Psychosocial Approaches to Peace-Building in Colombia Stella Sacipa-Rodriguez,Maritza Montero,2014-03-24 This edited volume summarizes the work of a research group called Social Bonds and Cultures of Peace that accompanies and supports victims of socio political violence in Colombia The individual chapters focus on the ongoing violence in the Colombian context a complex and dynamic area in which various groups drug traffickers national armed forces guerrilla fighters self defence groups have been engaged in organized violence for more than 60 years Emphasis is placed on the psychological consequences of violence and various forms of psychosocial support that psychologists have been providing to the victims of violence Central to their work is the notion of accompanying those who have been victims of violence listening to them engaging them in dialogue and working together to strengthen the resources of victims The recovery of individual and collective memories of atrocities is discussed as an important avenue for healing and for the empowerment of individuals and groups The solidarity among victims creates opportunities at the grassroots level to pursue truth reveal perpetrators of violence seek public acknowledgment and attain social justice For perpetrators of violence and members of armed groups the book addresses a host of psychosocial issues related to disarming demobilizing and reintegrating former combatants including children into society Throughout the book in the spirit of peace psychology the researchers are engaged in a form of praxis that is cognizant of the wider geohistorical context within which victims and perpetrators are embedded and the dialectical relationship between micro and macro level events and change Researchers in Latin American studies peace psychology social justice and transitional justice will find this volume to be an excellent resource Human Rights Policies in Chile Silvia Borzutzky,2017-06-01 This book analyses Chile s truth and justice policies implemented between 1990 and 2013 The book s central assumption is that human rights policies are a form of public policy and consequently they are the product of compromises among different political actors Because of their political nature these incomplete truth and justice policies instead of satisfying the victims demands and providing a mechanism for closure and reconciliation generate new demands and new policies and actions However these new policies and actions are partially satisfactory to those pursuing justice and the truth and unacceptable to those trying to protect the impunity structure built by General Pinochet and his supporters Thus while the 40th anniversary of the violent military coup that brought General Pinochet to power serves as a milestone with which to end this policy analysis Chile s human rights historical drama is unfinished and likely to generate new demands for truth and justice policies Por la razón o la fuerza Marcos Roitman,2019-07-12 No ha habido rincón del

planeta que en las últimas cinco décadas haya sido más castigado por los golpes de Estado que el continente Latinoamericano. Los golpes que han contado con la promoción y el aval de Estados Unidos. Durante estos cincuenta años los modos en que se ha depuesto a la democracia se han transformado radicalmente. Hoy las técnicas son mucho más refinadas. Los golpes se ejecutan desde los despachos de los poderes industriales y financieros con la connivencia de jueces y Policía con la aprobación de instituciones ajenas a las urnas. Desde el derrocamiento de Arbenz en Guatemala pasando por la toma del Palacio de la Moneda y la muerte del presidente Allende en Chile hasta la autoproclamación de Guaidó en Venezuela con el respaldo de Estados Unidos y sus aliados. Por la razón o la fuerza ofrece el descarnado relato de los golpes y ataques a la democracia en América Latina. En el Marcos Roitman, uno de los más perspicaces analistas de la realidad política latinoamericana, nos invita a revisar la historia y memoria de los golpes de Estado, las dictaduras y las resistencias para arrojar luz sobre un presente marcado hoy como ayer por militares políticos e intereses comerciales que siguen abriendo las venas de América Latina.

The Routledge International Handbook of Feminisms in Social Work Carolyn Noble, Shahana Rasool, Linda Harms-Smith, Gianinna Muñoz-Arce, Donna Baines, 2024-06-03. This handbook highlights innovative and affect-driven feminist dialogues that inspire social work practice, education and research across the globe. The editors have gathered the many at times silenced feminist voices and their allies together in this book which reflects current and contested feminist landscapes through 52 chapters from leading feminist social work scholars from the many branches and movements of feminist thought and practice. The breadth and width of this collection encompasses work from diverse socio-political contexts across the globe including Central and South America, Africa, Asia, the Middle East, Europe, North America, Aotearoa, New Zealand and Australia. The book is divided into six parts as follows: Decoloniality, Indigeneity and Radical Theorising, Feminist Social Work in Fields of Practice, Academy and Feminist Research, The Politics of Care, Allyship, Profeminisms and Queer Perspectives, Social Movements, Engaging with the Environment and the More than Human. The above sections present the diverse feminisms that have influenced social work which provides a range of engaging, informative and thought-provoking chapters. These chapters highlight that feminists still face the battle of working towards ending gender-based violence, discrimination, exploitation and oppression and therefore it is urgent that we feature the many contemporary examples of activism, resistance, best practice and opportunities to emphasise the different ways feminisms remain central to social work knowledge and practice. It will be of interest to all scholars and students of social work and related disciplinary areas including the social and human sciences, global and social politics and policy, human rights, environmental and sustainability programmes, citizenship and women's studies.

El genocidio como práctica social Daniel Feierstein, 2022-05-30. En El genocidio como práctica social se articulan dos genocidios de modo original: el ejecutado por el nazismo entre 1933 y 1945 con sus diferentes modalidades, objetivos y momentos; y el ocurrido en la Argentina entre 1974 y 1983, antes de y durante la última dictadura militar. La elección de ambos hechos históricos determina una trama narrativa y argumentativa no explicitada.

con anterioridad en el abordaje de las prácticas genocidas de la segunda mitad del siglo xx Daniel Feierstein considera que ambos procesos no fueron sucesos excepcionales en la historia contemporánea productos de meros arrebatos o el retorno del salvajismo y la irracionalidad sino ejemplos de peculiares tecnologías de poder Como tales no se limitaron al aniquilamiento de colectivos humanos también fueron capaces de reorganizar las relaciones sociales hegemónicas mediante la construcción de una otredad negativa el hostigamiento el aislamiento el debilitamiento sistémico el aniquilamiento material y la realización simbólica Luego de legitimar el uso del término genocidio para el caso argentino el autor propone una nueva tipología de las prácticas sociales genocidas y prueba la continuidad entre el nazismo primer genocidio reorganizador y el autodenominado Proceso de Reorganización Nacional A partir de testimonios de sobrevivientes de ambas experiencias analiza el dispositivo fundamental de la práctica social genocida el campo de concentración y sus consecuencias sobre las víctimas directas y sobre el conjunto de la sociedad Así en la Argentina de los años ochenta y noventa la desconfianza hacia el otro la ausencia de reciprocidad el terror y el escepticismo para adoptar posiciones críticas fueron los modos sociales hegemónicos Sin una fuerte transformación de nuestros procesos de construcción identitaria concluye Feierstein sin una reformulación de los límites de nuestra responsabilidad ante el otro sin entender que somos parte inescindible de las prácticas sociales que se desarrollan en las sociedades en las que habitamos y por lo tanto responsables morales por sus efectos no es viable la posibilidad de desterrar al genocidio

TIEMPOS DE OSCURIDAD Marcos Roitman Rosenmann, 2017-10-04 Cuarenta años después del derrocamiento del gobierno de Salvador Allende en Chile la versión tradicional de golpe de Estado en América Latina ha pasado a mejor vida En el futuro será difícil ver carros de combate en las calles y aviones lanzando sus misiles a palacios presidenciales Hoy la técnica del golpe de Estado es practicada desde los despachos del poder industrial y financiero con la connivencia del parlamento o del poder judicial Son los llamados golpes constitucionales o golpes de mercado Sin embargo no fue así durante la Guerra Fría Desde mediados del siglo xx los gobiernos democráticos populares y antiimperialistas de América Latina sufrieron un ataque tras otro a sus derechos y libertades Avalados y promocionados desde los EEUU los golpes de Estado se sucedieron Las fuerzas armadas amparadas por la doctrina de la seguridad nacional asesinaron y torturaron impunemente buscando eliminar al subversivo comunista al enemigo interior que socavaba el orden y los intereses establecidos Este ensayo es un descarnado relato del anticomunismo en América Latina Es un texto que obliga a revisitar el pasado de un continente sangrado por militares políticos e intereses comerciales un continente que ha batallado y batalla entre la libertad y la opresión

Guerras civiles Vilma Liliana Franco Restrepo, 2008 *Forgiveness and Reconciliation* Ani Kalayjian, Raymond F. Paloutzian, 2009-07-21 We all long for peace within ourselves families communities countries and throughout the world We wonder what we can do about the multitude of conflicts currently wreaking havoc across the globe and the continuous reports of violence in communities as well as within families Most of the time we contemplate solutions beyond our reach and overlook a powerful tool that is at our disposal forgiveness As a

genocide survivor I know something about it As the genocide unfolded in Rwanda in 1994 I was devastated by what I believed to be the inevitable deaths of my loved ones The news that my parents and my seven siblings had indeed been killed was simply unbearable Anger and bitterness became my daily companions Likewise I continued to wonder how the Hutus and Tutsis in Rwanda could possibly reconcile after one of the most horrendous genocides of the 20th century It was not until I came to understand the notion of forgiveness that I was able to see the light at the end of the tunnel Common wisdom suggests that forgiveness comes after a perpetrator makes a genuine apology This wisdom informs us that in the aftermath of a wrongdoing the offender must acknowledge the wrong he or she has done express remorse express an apology commit to never repeating said harm and make reparations to the extent possible

Only then can the victim forgive and agree to never seek revenge *Amerindian Paths* Danilo Silva Guimarães, 2016-01-05 This book comes as part of a broader project the editor is developing aiming critically to articulate some theoretical and methodological issues of cultural psychology with the research and practical work of psychologists with Amerindian peoples

Collective Memory of Political Events James W. Pennebaker, Dario Paez, Bernard Rim, Dario Paez, 2013-06-17 Research in collective memory is a relatively new area capturing the interest of scholars in social psychology memory sociology and anthropology The core idea is that collective attitudes and behaviors are created and shared through common experiences and communication among a cohort of people For example people born between 1940 and 1960 are often defined via the JFK assassination and the Vietnam War Their parents typically experienced lesser impact from these events Papers about collective memory have appeared in the literature under different guises for the last hundred years Freud's Civilization and Its Discontents Jung's ideas on the collective unconscious and McDougall's speculation on the group mind posited that identity and action could be viewed as resulting from the shared development of a culture Halbwachs a French social psychologist 1877-1945 who was the first to write in detail about the nature of collective memory argued that basic memory processes were all social That is people remember only those events that they have repeated and elaborated in their discussions with others In the last several years there has been a resurgence of interest in this general topic because it addresses some fundamental questions about memory and social processes Work closely related to these questions deals with the nature of autobiographical memory traumatic experience and reconstructive memory and social sharing of memories This book brings together an international group of researchers who have been empirically studying some basic tenets of collective memory *El fuego, el agua y la historia* Carolina Kaufmann, 2020-12-28 En este libro la autora se ocupa una vez más de la memoria Sistematiza producciones archivos obras las incorpora a un listado en el que consigna sentidos y lugares donde cualquiera puede ir a buscar aquellos trozos de historia que permiten recomponer un traumático

La política criminal mediática Pozuelo Pérez, Laura, 2013-06-01 La pol tica criminal medi tica aborda algunas de las claves m s problem ticas que en los ltimos a os han marcado la pol tica criminal espa ola De manera

muy especial se examina la interacción disfuncional entre los operadores políticos y los medios de comunicación su influencia sobre la opinión pública y las dinámicas legislativas que esta relación puede producir En la obra se analiza por un lado la génesis y desarrollo de importantes reformas penales de gran calado que han sido impulsadas por esta simbiosis entre medios de comunicación y operadores políticos y que han sido adoptadas al margen de la realidad delincriminal en España En concreto se analizan tanto las modificaciones que ha experimentado la Ley Penal del Menor desde su promulgación en 2000 como las reformas introducidas en el Código Penal en 2003 cuyas consecuencias se pueden evaluar en profundidad a los diez años de su entrada en vigor Por otro lado se estudian los costes que se han acabado produciendo como consecuencia de esta política criminal mediática en especial en lo que respecta al abuso de la pena de prisión como principal instrumento para casi cualquier modalidad delictiva lo que repercute tanto en el aumento de la duración legal de las condenas como en su ulterior incremento material mediante la introducción de serias restricciones para acceder a las modalidades de cumplimiento de la pena en régimen de semilibertad o libertad condicional En especial esto último ha supuesto un grave obstáculo a que los condenados puedan acceder a algo tan esencial como es el régimen de adaptación progresiva y adecuada a la vida en libertad Los costes que todo esto genera no sólo repercuten en los propios penados sino mucho más allá en toda la sociedad

The Reparative Effects of Human Rights Trials Rosario Layus, 2017-08-07 Justice in domestic courts is one of the most prominent aims of victims seeking to obtain accountability for human rights violations It is however also one of the most difficult to achieve In many Latin American countries as well as elsewhere activists have put human rights prosecutions forward as a fundamental means to end impunity build democracy strengthen the rule of law and address victims rights But there is still little knowledge about what actually happens when these judicial mechanisms are effectively put to work Can prosecutions of mass human rights violations contribute to overcome the effects of state violence and impunity Can trials enable meaningful reparative changes for victims in their local contexts Analysing the human rights trials in Argentina established to prosecute those responsible for human rights violations during the military dictatorship this book addresses how and why domestic prosecutions can operate as a means for reparation and contribute to dealing with the damage caused by crimes against humanity Based on a series of interviews conducted with victims participating in these prosecutions as well as with lawyers prosecutors judges and other relevant actors in five provinces of Argentina this book will be of considerable interest to those studying and working in the interdisciplinary field of transitional justice and human rights The PhD thesis on which this book was based was awarded with the 2016 Doctoral Studies Award of the Philipps University of Marburg in Germany
