Ego And Its Own:

The Ego and His Own Max Stirner, 2019-11-19 In *The Ego and His Own* Max Stirner presents a provocative exploration of individualism and the nature of the self challenging established philosophical doctrines. Written in the mid 19th century this seminal work is characterized by its passionate rhetoric and unique style blending fierce critique with a muscular prose. Stirner posits that the individual is the ultimate authority dismissing collective ideologies in favor of personal autonomy. His existential philosophy resonates within the context of German idealism and Romanticism offering an alternative vision that positions the ego at the center of existence unrestrained by societal norms or moral imperatives. Max Stirner born Johann Caspar Schmidt in 1806 was influenced by the intellectual currents of his time including Hegelianism and Feuerbach's humanism. His provocative views were often met with criticism yet they paved the way for modern anarchist and existential thought. Stirner's emphasis on the self as the primary concern reflects his own experiences in an era marked by political turmoil and social upheaval shaping his revolutionary approach to philosophy and life. For readers seeking to deepen their understanding of individualist thought and its implications for modern society *The Ego and His Own* is a compelling and essential read. Stirner's radical emphasis on self ownership and freedom invites profound introspection making this text not only a historical artifact but a contemporary manifesto for those advocating for personal liberation.

The Ego and Its Own Max Stirner, 2020-11-30 *The Ego and Its Own* is an 1844 work by Max Stirner. It presents a radically nominalist and individualist critique of on the one hand Christianity nationalism and traditional morality and on the other humanism utilitarianism liberalism and much of the then burgeoning socialist movement advocating instead an amoral although importantly not inherently immoral or antisocial egoism. Ego emphasizes oneness as self description past fixed conceptions of the Self and Other through the recognition of power relations and self discovery of mind. Johann Kaspar Schmidt 1806-1856 also known as Max Stirner was a German philosopher who is often considered as one of the pioneers in anarchism nihilism existentialism and postmodernism and one of the many people who Karl Marx wrote an entire book on just to publicly criticize/denounce.

The Ego and Its Own Max Stirner, 2019-06-17 Originally published in German in 1844 philosopher Max Stirner's *The Ego and Its Own* is an important and influential work that harshly criticizes Christianity and nationalism as well as the emerging movements of liberalism and socialism. Stirner's work is viewed by historians as essential to the development of modern theories of anarchism existentialism and nihilism. Stirner viewed with contempt the enslavement of the mind of the individual by the rigid dogma of religion and nationalism. These ideas robbed the individual of free thought and autonomy and prevented people from realizing their true potential. The solution to this enslavement and control is the application of an egoism that rejects all religious rules laws of the state traditional morality the concerns of family and friends and even one's own desires. Stirner argues that people must seek true freedom in the form of a new social structure that is essentially temporary and where no one is subjected to the self interest of anyone else. This enduring and spirited

defense of individual freedom against the control of the state and church remains required reading for students of politics and for all who value personal liberty This edition is printed on premium acid free paper and follows the translation of Steven T Byington

It presents a radically nominalist and individualist critique of, on the one hand, Christianity, nationalism, and traditional morality, and on the other, humanism, utilitarianism, liberalism, and much of the then-burgeoning socialist movement, advocating instead an amoral, although importantly not inherently immoral or antisocial, egoism. Stirner believed that there was no objective social reality independent of the individual; social classes, the state, the masses, and humanity are abstractions and therefore need not be considered seriously. He wrote of a finite empirical ego which he saw as the motive force of every human action. Writing chiefly for working-class readers, he taught that all persons are capable of the self-awareness that would make them egoists or true individuals. Max Stirner, in his book *The Ego and His Own* (1845), recommended instead of social reform a ruthless individualism that should seek satisfaction by any means and at whatever risk. The Ego and Its Place in the World Charles Gray Shaw, 1913 **The Ego and His Own** Max Stirner, 2013-07-01 Fifty years sooner or later can make little difference in the case of a book so revolutionary as this It saw the light when a so called revolutionary movement was preparing in men's minds which agitation was however only a disturbance due to desires to participate in government and to govern and to be governed in a manner different to that which prevails The revolutionists of 1848 were bewitched with an idea They were not at all the masters of ideas Most of those who since that time have prided themselves upon being revolutionists have been and are likewise but the bondmen of an idea that of the different lodgment of authority The temptation is of course present to attempt an explanation of the central thought of this work but such an effort appears to be unnecessary to one who has the volume in his hand The author's care in illustrating his meaning shows that he realized how prone the possessed man is to misunderstand whatever is not moulded according to the fashions in thinking The author's learning was considerable his command of words and ideas may never be excelled by another and he judged it needful to develop his argument in manifold ways So those who enter into the spirit of it will scarcely hope to impress others with the same conclusion in a more summary manner Or if one might deem that possible after reading Stirner still one cannot think that it could be done so surely The author has made certain work of it even though he has to wait for his public but still the reception of the book by its critics amply proves the truth of the saying that one can give another arguments but not understanding The system makers and system believers thus far cannot get it out of their heads that any discourse about the nature of an ego must turn upon the common characteristics of egos to make a systematic scheme of what they share as a generality The critics inquire what kind of man the author is talking about They repeat the question What does he believe in They fail to grasp the purport of the recorded answer I believe in myself which is attributed to a common soldier long before the time of Stirner They ask What is the principle of the self conscious egoist the Einzige To this perplexity Stirner says Change the question put who instead of what and an answer can then be given by naming him
