Cook, 2013-03-21 A half century ago Egypt under nasser became the putative leader of the Arab world and a beacon for developing nations Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption During that time its economy declined into near shambles a severely overpopulated Cairo fell into disrepair and it produced scores of violent Islamic extremists In The struggle for Egypt now with a new epilogue on the post Mubarak era noted regional specialist Steven A Cook provides a sweeping and incisive account of how this parlous state of affairs came to be why the revolution occurred and where Egypt might be headed next From p 4 of cover **Monthly Catalog of United States Government Publications**, 1998 **Index of Administrative Publications** United States. extremism community engagement and rehabilitation should be integrated into government planning Unless governments take the lead and work with community leaders societies will be threatened by the existing and emerging wave of ideologically motivated violence Government and community leaders should develop whole of government and whole of nation approaches to dismantle transnational threats To contain isolate and eliminate the evolving threat the Middle Eastern states should shift from security cooperation to collaboration and partnership **Monthly Catalogue, United States**
