The Middle East, Abstracts and Index, 1979 **The Middle East** Glenn Earl Perry, 1983 Reflecting today's most recent findings this enlightening book presents an even handed survey of Middle Eastern history from the rise of Islam to the present day beginning with a substantial account of the early centuries and then concentrating primarily on the modern post 1914 decades It provides concise readable and balanced coverage of Egypt the Fertile Crescent the Arabian Peninsula Turkey and Iran and offers ten detailed maps and a useful bibliography of selected works to broaden readers understanding Deals with the whole Middle Eastern region within particular periods rather than on a topical or country by country basis allowing readers to see the events in each country at any point in relation to what is happening in other parts of the Middle East Offers a world historical perspective emphasizing the relationship of the Middle East to other regions and civilizations particularly with the West Highlights from the Third Edition include a new section dealing with events from 1991 to 1996 an examination of the controversy over Orientalism an updated bibliography new glossary of terms many relating specifically to Islam and an appendix which fully explains the Pillars of Islam and Jihad For historians anthropologists and those in business and government **The Modern Middle East** Emory C. Bogle, 1996 Examines the tumultuous history of the Middle East from 1800 to 1958 It integrates developments all over the region into a comprehensible narrative that enables readers to see the connection between significant historical events and the effects particular developments had upon one another It covers such areas as the Ottoman Empire the Russo Turkish War of 1877 the British occupation of Egypt Lebanon's religious diversity the beginning of the Turkish Nationalist Movement Palestine cultural unity under Islam Arab nationalism Iraq's rejection of Western affiliation Saudi Arabia's new wealth and prominence and the Ottoman Empire For Middle Eastern historians **Egypt in the Arab World** A. I. Dawisha, 1976 **Books Out-of-print**, 1986 *Books in Print*, 1979 **The End of the British Empire in the Middle East, 1952–1971** Wm. Roger Louis, 2025-02-20 The quarter century after the end of the Second World War and the transfer of power in India in 1947 marked the slow and turbulent dissolution of the British Empire in the Middle East Seeking to capture the period in its full complexity and contradictions acclaimed historian Wm Roger Louis here provides a through going account of the British Empire's gradual decline Unpicking the overlapping motivations of those across Britain the US and the Middle East the book demonstrates how and why enthusiasm for the British involvement in the region waned the chaotic ways in which the withdrawal unfolded and the importance of these events for understanding the region today The book explores the period in full detail from the overthrow of the Musaddiq government in Iran the Egyptian Revolution Sudan's independence and the events of the pivotal year of 1955 that set the stage for the Suez crisis the following year through the pivotal Suez crisis of 1956 itself to the crises of 1957 the Iraqi Revolution of 1958 and the 1967 Arab Israeli war and concluding with the collapse of the British position in Aden and the decision to withdraw from the Gulf a process completed by the end of 1971 This panoramic and comprehensive history draws

on six decades work in archives across Europe the Middle East and the US including those from governmental archives and private papers and in multiple languages complemented by a considerable body of oral history testimony much of it acquired by the author through conversations with contemporary British politicians and officials In so doing the book sheds new light onto the nature and complexity of the British Empire in its final days and the importance of understanding this history today
