Consumer Choice in Historical Archaeology S.M. SpencerWood,2013-06-29 Historical archaeology has made great strides during the last two decades Early archaeological reports were dominated by descriptions of features and artifacts while research on artifacts was concentrated on studies of topology technology and chronology Site reports from the 1960s and 1970s commonly expressed faith in the potential artifacts had for aiding in the identifying socioeconomic status differences and for understanding the relationships between the social classes in terms of their material culture An emphasis was placed on the presence or absence of porcelain or teaware as an indication of social status These were typical features in site reports written just a few years ago During this same period advances were being made in the study of food bone as archaeologists moved away from bone counts to minimal animal counts and then on to the costs of various cuts of meat Within the last five years our ability to address questions of the relationship between material culture and socioeconomic status has greatly expanded The essays in this volume present efforts toward measuring expenditure and consumption patterns represented by commonly recovered artifacts and food bone These patterns of consumption are examined in conjunction with evidence from documentary sources that provide information on occupations wealth levels and ethnic affiliations of those that did the consuming One of the refreshing aspects of these papers is that the authors are not afraid of documents and their use of them is not limited to a role of confirmation **Interdisciplinary Investigations of the Boott**

Mills, Lowell, Massachusetts Mary Carolyn Beaudry,Stephen A. Mrozowski,1989 *Interdisciplinary Investigations of the Boott Mills, Lowell, Massachusetts: The boarding house system as a way of life* Mary Carolyn Beaudry,Stephen A.

Mrozowski,1987 International Handbook of Historical Archaeology Teresita Majewski,David Gaimster,2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only

artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today

On the Periphery of the Periphery Samuel Sweitz, 2011-11-17 This book examines from an archaeological perspective the social and economic changes that took place in Yucatán Mexico beginning in the 18th century as the region became increasingly articulated within global networks of exchange Of particular interest is the formation and ultimate supremacy of the hacienda system in Yucatán and the effect that new forms of capitalist organized production had on native Maya social organization Household archaeology and spatial analysis conducted on the grounds of the former Hacienda San Juan Bautista Tabi provides the data for analyzing the results of this change on the daily lives and existence of those individuals incorporated within the hacienda system The use of archaeological excavation to place the lives of local individuals within the context of larger global processes makes this book a worthy contribution to the study of archaeology

The Archaeology of French and Indian War Frontier Forts Lawrence E. Babits, Stephanie Gandulla, 2013-11-19 Fort Ticonderoga the allegedly impenetrable star fort at the southern end of Lake Champlain is famous for its role in the French and Indian War But many other one of a kind forts were instrumental in staking out the early American colonial frontier On the 250th anniversary of this often overlooked conflict this volume musters an impressive range of scholars who tackle the lesser known but nonetheless historically significant sites from barracks to bastions Civilian provincial or imperial the fortifications covered in this book range from South Carolina's Fort Prince George to Fort Frontenac in Ontario and to Fort de Chartres in Illinois These forts were built during the first serious arms race on the continent as Europeans and colonists

struggled to control the lucrative fur trade routes of the northern boundary The contributors to this volume reveal how the French and British adapted their fortification techniques to the special needs of the North American frontier By exploring the unique structures that guarded the borderlands this book reveals much about the underlying economies and dynamics of the broader conflict that defined a critical period of the American experience *Northwest Anthropological Research Notes* Roderick Sprague, Deward E. Walker, Jr., An Annotated Bibliography of Overseas Chinese History and Archaeology Dixie E Ehrenreich Priscilla Wegars Jonathan Horn and Karen E Smith Abstracts of Papers Presented at the 37th Annual Northwest Anthropological Conference 21-23 March 1984 Spokane Washington Terrestrial Oriented Sites in a Marine Environment Along the Southern Oregon Coast Richard E Ross A Check List of Columbia Basin Project Papers Roderick Sprague

Archeological Investigations at the Narbonne House Geoffrey P. Moran, Edward F. Zimmer, Anne E. Yentsch, 1982 The Conference on Historic Site Archaeology Papers Stanley A. South, 1978 Documentary Archaeology in the New World Mary C. Beaudry, 1988 It outlines a fresh approach to the archaeological study of the historic cultures of North America **The Line of Forts** Michael D. Coe, 2006 A fascinating analysis of artifacts that illuminates relationships among the English, French, and Indians at a critical moment in American history Archeological Collections Management at Adams National Historic Site, Massachusetts Darcie A. MacMahon, 1991 Wild Frenchmen and Frenchified Indians Sophie White, 2013-01-14 Based on a sweeping range of archival, visual, and material evidence *Wild Frenchmen and Frenchified Indians* examines perceptions of Indians in French colonial Louisiana and demonstrates that material culture, especially dress, was central to the elaboration of discourses about race At the heart of France's seventeenth-century plans for colonizing New France was a formal policy: Frenchification. Intended to turn Indians into Catholic subjects of the king, it also carried with it the belief that Indians could become French through religion, language, and culture. This fluid and mutable conception of identity carried a risk: while Indians had the potential to become French, the French could themselves be transformed into Indians. French officials had effectively admitted defeat of their policy by the time Louisiana became a province of New France in 1682. But it was here in Upper Louisiana that proponents of French-Indian intermarriage finally claimed some success with Frenchification. For supporters, proof of the policy's success lay in the appearance and material possessions of Indian wives and daughters of Frenchmen. Through a sophisticated interdisciplinary approach to the material sources, *Wild Frenchmen and Frenchified Indians* offers a distinctive and original reading of the contours and chronology of racialization in early America. While focused on Louisiana, the methodological model offered in this innovative book shows that dress can take center stage in the investigation of colonial societies for the process of colonization was built on encounters mediated by appearance. **La Belle** James E. Bruse, Amy A. Borgens, Bradford M. Jones, Eric D. Ray, 2017-03-03 In 1995, Texas Historical Commission underwater archaeologists discovered the wreck of La Salle's *La Belle*, remnant of an ill-fated French attempt to establish a colony at the mouth of the Mississippi River that landed instead along today's Matagorda Bay in Texas.

During 1996 1997 the Commission uncovered the ship's remains under the direction of archaeologist James E Bruseth and employing a team of archaeologists and volunteers. Amid the shallow waters of Matagorda Bay a steel cofferdam was constructed around the site creating one of the most complex nautical archaeological excavations ever attempted in North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land. The ship's hold was discovered full of everything the would be colonists would need to establish themselves in the New World: more than 1.8 million artifacts were recovered from the site. More than two decades in the making due to the immensity of the find and the complexity of cataloging and conserving the artifacts, this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century.
