in eighteenth-century Sweden (ca 1740-1790) Charlotta Wolff, 2009-01-16 Noble conceptions of politics in eighteenth century Sweden ca 1740 1790 is a study of how the Swedish nobility articulated its political ideals self images and loyalties during the Age of Liberty and under the rule of Gustav III This book takes a close look at the aristocracy s understanding of a free constitution and at the nobility s complex relationship with the monarchy Central themes are the old notion of mixed government classical republican conceptions of liberty and patriotism as well as noble thoughts on the rights and duties of the citizen including the right to rebellion against an unrighteous ruler The study is a conceptual analysis of public and private political statements made by members of the nobility such as Diet speeches and personal correspondence The book contributes to the large body of research on estate based identities and the transformation of political language in the second half of the eighteenth century by connecting Swedish political ideals and concepts to their European context

Enlightenment Volume 1 Peter Gay, 2013-06-26 The eighteenth century Enlightenment marks the beginning of the modern age when the scientific method and belief in reason and progress came to hold sway over the Western world In the twentieth century however the Enlightenment has often been judged harshly for its apparently simplistic optimism Here a master historian goes back to the sources to give us both a more sophisticated and intriguing view of the philosophes their world and their ideas *Selected Writings of an Eighteenth-Century Venetian Woman of Letters* Elisabetta Caminer Turra, 2007-11-01 Elisabetta Caminer Turra 1751 96 was one of the most prominent women in eighteenth century Italy and a central figure in the international Republic of Letters A journalist and publisher Caminer participated in important debates on capital punishment freedom of the press and the abuse of clerical power She also helped spread Enlightenment ideas into

Italy by promoting and publishing Voltaire's latest works and translating new European plays plays she herself directed to great applause on Venetian stages Bringing together Caminer's letters poems and journalistic writings nearly all published for the first time here *Selected Writings* offers readers an intellectual biography of this remarkable figure as well as a glimpse into her intimate correspondence with the most prominent thinkers of her day But more important *Selected Writings* provides insight into the passion that animated Caminer's fervent reflections on the complex and shifting condition of women in her society the same passion that pushed her to succeed in the male dominated literary professions *Jean-Baptiste Say* John Cunningham Wood, Steven Kates, 2000 Jean Baptiste Say 1767-1832 is remembered primarily for Say's Law one of the cornerstones of classical economics The success of his *Traite d'economie Politique* made Say the best known expositor of Adam Smith in Europe and America and he became France's first professor of political economy The set covers the following themes Say in the history of economics classical statements on Say's Law later statements on Say's Law the prelude to the General Theory the Keynesian Revolution and the attack on Say's Law Lange Say's Law and the demand for money modern reconstructions of Say's Law commentaries on classical views relating to Say's Law Retrieving the classical understanding of Say's Law

Encounters: The Creation of New Zealand Paul Moon, 2013-07-24 Throughout its human history New Zealand has been interpreted and experienced in often radically different ways Each wave of arrivals to its shores has left its own set of views of New Zealand on the country applying a new coat of mythology and understanding to the landscape usually without fully removing the one that lies beneath it *Encounters* is the wide ranging audacious and gripping story of New Zealand's changing national identity how it has emerged and evolved through generations In this genre busting book historian Paul Moon delves into how the many and conflicting ideas about New Zealand came into being Along the way he explores forgotten crevices of the nation's character and exposes some of the mythology of its past and present These include for example the earliest Maori myths and the mock sacredness of the All Blacks in the twenty first century the role of nostalgia in our national character both Maori and Pakeha whether the explorer Kupe existed the appeal of the Speight's Southern Man and ruminations on New Zealand art and landscape What results is an absorbing piece of scholarship an imaginative and exuberant epic that will challenge preconceptions about what it means to be a New Zealander and how our country is understood Lyrical breathtaking and provocative and illustrated with artworks throughout *Encounters* offers an extraordinary insight into the beginnings of our country

The Books that Made the European Enlightenment Gary Kates, 2022-08-11 In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced

fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large portion of the middling classes Kates also highlights how when and why some of these books were read in the European colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume

The Idea of Progress in Eighteenth-century Britain David Spadafora, James Spada, 1990-01-01 The idea of progress stood at the very center of the intellectual world of eighteenth century Britain closely linked to every major facet of the British Enlightenment as well as to the economic revolutions of the period Drawing on hundreds of eighteenth century books and pamphlets David Spadafora here provides the most extensive discussion ever written of this prevailing sense of historical optimism
