*Eija-Liisa Ahtila: Fantasized Persons and Taped Conversations*, 2002      **Fantasized persons and taped conversations**  
Eija-Liisa Ahtila, 2002 Artwork by Eija Liisa Ahtila Edited by Maria Hirvi Text by Taru Elfving Nicholas Serota Kaja Silverman  
Kari Yli Annala Daniel Birnbaum Tuula Karjalainen      *Women, Art, and Society (Sixth) (World of Art)* Whitney  
Chadwick, 2020-09-08 A new edition of the groundbreaking book by Whitney Chadwick maps the complete history of women  
artists from the Middle Ages and the Renaissance to today Art historian Whitney Chadwick's acclaimed bestselling study  
challenges the assumption that great women artists are exceptions to the rule who transcended their gender to produce  
major works of art While introducing some of the many women since the Middle Ages whose contributions to visual culture  
have often been neglected Chadwick's survey reexamines the works themselves and the ways in which they have been  
perceived as marginal often in direct reference to gender In her discussion of feminism and its influence on such a  
reappraisal she also addresses the closely related issues of ethnicity class and sexuality This revised edition features a  
completely redesigned interior and full color illustrations With a new preface and epilogue from this emerging authority on  
the history of women artists curator and professor Flavia Frigeri this revised edition continues the project of charting the  
evolution of feminist art history and pedagogy revealing how artists have responded to new strategies of feminism for the  
current moment      *Carnal Aesthetics* Marta Zarzycka, Bettina Papenburg, 2012-12-18 Art today is an increasingly  
multifaceted phenomenon encompassing transgressive works that intervene in war and ecological disasters in inequalities  
and revolutionary changes in technology Carnal Aesthetics is a fascinating new examination of this aspect of contemporary  
visual culture Employing recent theories of transgressive body imagery trauma affect and sensation it provides a fresh look  
at the meeting point between the politics of representation and the politics of perception through the prismatic lens of  
feminist theory Acclaimed scholars analyse a wide range of seminal case studies coming from different media digital  
photography painting video film and multimedia art They explore here a number of transgressive movements that  
significantly reconfigure the relationship between the body and the image Unlike other books on the complex relationship  
between politics and aesthetics Carnal Aesthetics seeks to provide a novel approach to art and culture by challenging the  
primacy of vision and by injecting an intersectional perspective into the fields of visual studies film and media studies as well  
as trauma studies It is a significant contribution across these dynamic fields of exploration for scholars who deal with the  
socio political nature of contemporary visual culture in their work      **Thinking in Film** Mieke Bal, 2013-12-05 What is a  
moving image and how does it move us In Thinking in Film celebrated theorist Mieke Bal engages in an exploration part  
dialogue part voyage with the video installations of Finnish artist Eija Liisa Ahtila to understand movement as artistic  
practice and as affect Through fifteen years of Ahtila's practice including such seminal works as *The Annunciation Where Is*  
*Where* and *The House* Bal searches for the places where theoretical and artistic practices intersect to create radical spaces

in which genuinely democratic acts are performed Bringing together different understandings of figure from form to character Bal examines the syntax of the exhibition and its ability to bring together installations the work itself the physical and ontological thresholds of the installation space and the use of narrative and genre The double meaning of movement in Bal's unique thought catalyses an understanding of video installation work as inherently plural heterogeneous and possessed of revolutionary political potential The video image as an art form illuminates the question of what an image is and the installation binds viewers to their own interactions with the space In this context Bal argues that the intersection between movement and space creates an openness to difference and doubt By thinking in art we find ideas not illustrated by but actualized in artworks Bal practices this theory in action to demonstrate how the video installation can move us to think beyond ordinary boundaries and venture into new spaces There is no act more radical than figuring a vision of the other as film allows art to do Thinking In Film is Mieke Bal's incisive innovative best as she opens up the miraculous political potential of the condensed art of the moving image

**In(ter)discipline** Gillian Beer, Beate Perrey, Malcolm Bowie, 2017-12-02 Interdisciplinarity has dynamised the Modern Humanities like no other recent academic trend Yet this presents serious challenges involving both translation and affect how can we transmit facts and interpretations sense and sensations between disciplines between different artistic media between cultures between the private and the public sphere What are the advantages the difficulties and risks Another challenge concerns language if single disciplines have produced their own technologies of reading and writing this book examines and breaks the routine to propose alternative languages Some of the most distinctive voices in criticism both established and upcoming from literature music the visual arts psychoanalysis and philosophy amongst others show here their commitment to comparative thinking The challenge has been to reach beyond the jargon and the epistemological constraints of individual disciplines while remaining coherent and incisive The outcome successfully reveals new links between different forms of cultural expression Gillian Beer English Literature Science Writing Malcolm Bowie French Literature Psychoanalysis and Beate Perrey Music Poetry Psychoanalysis are the instigators of the interdisciplinary research project New Languages for Criticism Cross Currents and Resistances which since 2002 has been under the auspices of CRASSH the Centre for Research in the Arts Social Sciences and Humanities at the University of Cambridge

**Screens** Kate Mondloch, 2013-11-30 Media screens film video and computer screens have increasingly pervaded both artistic production and everyday life since the 1960s Yet the nature of viewing artworks made from these media along with their subjective effects remains largely unexplored Screens addresses this gap offering a historical and theoretical framework for understanding screen reliant installation art and the spectatorship it evokes Examining a range of installations created over the past fifty years that investigate the rich terrain between the sculptural and the cinematic including works by artists such as Eija Liisa Ahtila Doug

Aitken Peter Campus Dan Graham VALIE EXPORT Bruce Nauman and Michael Snow Kate Mondloch traces the construction of screen spectatorship in art from the seminal film and video installations of the 1960s and 1970s to the new media artworks of today's digital culture Mondloch identifies a momentous shift in contemporary art that challenges key premises of spectatorship brought about by technological objects that literally and metaphorically filter the subject's field of vision As a result she proposes that contemporary viewers are quite literally screen subjects and offers the unique critical leverage of art as an alternative way to understand media culture and contemporary visuality The ...
