Ein Einzig Volk Von Brudern:

Deuteronomy in the Making Diana Edelman, Kåre Berge, Philippe Guillaume, Benedetta Rossi, 2021-08-23 A number of long standing theories concerning the production of Deuteronomy are currently being revisited This volume takes a fresh look at the theory that there was an independent legal collection comprising chs 12-26 that subsequently was set within one or two narrative frames to yield the book with ongoing redactional changes Each contributor has been asked to focus on how the core might have functioned as a stand alone document or if exploring a theme or motif to take note of commonalities and differences within the core and frames that might shed light on the theory under review Some of the articles also revisit the theory of a northern origin of the core of the book while others challenge de Wette's equation of Deuteronomy with the scroll found during temple repairs under Josiah With Deuteronomistic studies in a state of flux this is a timely collection by a group of international scholars who use a range of methods and who in varying degrees work with or challenge older theories about the book's origin and growth to approach the central focus from many angles Readers will find multivalent evidence they can reflect over to decide where they stand on the issue of Deuteronomy as a framed legal core , **Deuteronomy and the Judaeen Diaspora** Ernest Nicholson, 2014-01-30 In *Deuteronomy and the Judaeen Diaspora* Ernest Nicholson challenges the widely accepted view that Deuteronomy was the book of the law described in 2 Kings 22:3 as the basis of king Josiah's cultic reformation in 621 BCE He argues that the notice in this narrative that Josiah abolished the rural local altars throughout Judah and supposedly relocated their priests to Jerusalem is based upon a misreading Rather he contends Deuteronomy derived from thinkers and writers who lived among the Judaeen exiles in Babylonia in the sixth century and in significant ways represents a break with pre-exilic Israelite religion occasioned by the urgent need to confront the challenges to national identity and cultural survival of the Judaeen Diaspora community Leading features of the book such as its zealous monolatry its self-presentation as scripture its concept of the relationship with God as covenanted choice its pervasive fear of religious encroachment its character as oppositional literature these and other themes of the book suggest such a provenance Issues arising include for example information from Babylonian sources some of it new about the Judaeen exiles how Israel is characterised in the book kingship evidence of the emergence of a body of prophetic scripture Two final chapters examine the Deuteronomistic History Joshua 2 Kings and show that contrary to some interpretations it is not historiography such as is represented by for example Herodotus Histories and that theodicy rather than an interest in the past as a field of critical study best describes its genre *The Maccabean Martyrs as Saviours of the Jewish People* Jan Willem van Henten, 2021-11-22 This volume deals with the presentation of the so-called Maccabean martyrs and the elder Razis in 2 and 4 Maccabees discussing the religious the political as well as the philosophical aspects of noble death in these writings It argues that the theme of martyrdom is a very important part of the self-image of the Jews as presented by the authors of both works Eleazar the anonymous mother with her seven sons and Razis should therefore be considered heroes of the Jewish

people The first part of the book discusses the sources and the second part deals with the descriptions of noble death This section of the book also offers extensive discussions of related non Jewish traditions which highlight the political patriotic dimension of noble death as described in 2 and 4 Maccabees *Archaeology of Mind in the Hebrew Bible / Archäologie alttestamentlichen Denkens* Andreas Wagner,Jürgen van Oorschot,Lars Allolio-Näcke,2023-04-27 Research into the Hebrew Bible Ancient Near East Philosophy and History have long considered whether thought in the cultural area of the ancient Middle East differs from that in the western Mediterranean The inclusion of neurobiology psychology brain research and evolutionary research will widen this horizon and allow new approaches This volume provides in depth insides into this Archaeology of Mind in 22 contributions *Quests for Freedom, Second Edition* Michael Welker,2019-04-02 This book is the result of intensive multiyear international and interdisciplinary cooperation From many perspectives the book s contributors address themes of freedom and slavery self determination and concepts of freedom God given and imprinted freedom freedom as an ethos of belonging and solidarity and relations between freedom human rights and theological orientation
