*Utilitarianism, Institutions, and Justice* James Wood Bailey, 1997 Far from recommending cruel acts utilitarianism understood this way actually runs congruent to our basic

moral intuitions      **Aristotle's "Nicomachean Ethics"** Otfried Höffe, 2010-10-07 Anyone interested in theories of moral or human practice will find in Aristotle's *Nicomachean Ethics* one of the few basic models relevant through to today. At the centre of his analysis both sober and cautious are such concepts as happiness, virtue, choice, prudence, incontinence, pleasure and friendship. Aristotle's arguments are by no means of merely historical interest but continue to exert a key influence on present-day ethical debate. The thirteen contributions in this volume present the foundations of Aristotle's investigation along with the modern background of its reception      *Farmers in a Changing World*, 1940      **Beyond Price** J. David Velleman, 2015-10-08 In nine lively essays bioethicist J. David Velleman challenges the prevailing consensus about assisted suicide and reproductive technology, articulating an original approach to the ethics of creating and ending human lives. He argues that assistance in dying is appropriate only at the point where talk of suicide is not, and he raises moral objections to anonymous donor conception. In their place Velleman champions a morality of valuing personhood over happiness in making end-of-life decisions and respecting the personhood of future children in making decisions about procreation. These controversial views are defended with philosophical rigor while remaining accessible to the general reader. Written over Velleman's 30 years of undergraduate teaching in bioethics, the essays have never before been collected and made available to a non-academic audience. They will open new lines of debate on issues of intense public interest      *Virtue Ethics* Nafsika Athanassoulis, 2012-12-06 What is virtue? And how can we lead moral lives? Exploring how contemporary moral philosophy has led to a revival of interest in the concepts of virtue, character and flourishing, this is an accessible and critical introduction to virtue ethics. Comprising three parts, the first part examines the work of key contemporary thinkers such as Elizabeth Anscombe and Bernard Williams in calling for a change of direction in moral philosophy and adopting a different approach to answering questions such as 'How should I live my life?' The second part develops a detailed account of Aristotelian eudaimonistic virtue ethics, which considers the virtuous agent to be an ideal and highlights the importance of moral perception and practical wisdom. In the final part Athanassoulis explores new challenges to virtue ethics from psychology, discusses the practical implications of educating for the virtues and finally considers the neo-Kantian response to virtue ethics. *Virtue Ethics* also includes chapter summaries and guides to further reading throughout to help readers explore, understand and develop a critical perspective towards this important school of contemporary ethical thought      **The Spirit of Methodism** Henry Bett, 2016-08-18      *Political Neutrality* Roberto Merrill, Daniel Weinstock, 2014-07-31 The topic of neutrality on the good is linked rather closely to the ideal of political liberalism as formulated by John Rawls. Here internationally renowned authors in several cases among the most prominent names to be found in contemporary political theory present a collection of ten essays on the idea of liberal neutrality      **Coming of Age in Times of Uncertainty** Harry Blatterer, 2007 Adulthood is taken for granted. It connotes the end of childhood, the resolution to the storm and stress period of adolescence. This conception is strongly entrenched in the sociology of youth and the sociology of the life course as well as

in the policy arena At the same time adulthood itself remains unarticulated journey s end remains conceptually fixed and theoretically uncontested Adulthood then is both central to the social imagination and neglected as an area of sociological investigation something that has been noted by sociologists over the last four decades Going beyond the overwhelmingly psychological literature this book draws on original qualitative research and theories of social recognition and thus presents a first step towards filling an important gap in our understanding of the meaning of adulthood pub desc **Mass Moralizing** Phil Hopkins,2015-04-02 Mass Moralizing Marketing and Moral Storytelling examines the narratives of today s brand marketing which largely focuses on creating an emotional attachment to a brand rather than directly promoting a product s qualities or features Phil Hopkins explores these narratives influence on how we think about ourselves and our moral possibilities our cultural ideas about morality and our relations to each other He closely studies the relationship between three interrelated dynamics the power of narrative in the construction of identity and world the truth telling pretenses of mass marketing and the growth of moralizing as the primary moral discourse practice in contemporary consumer culture Mass Moralizing scrutinizes the way marketing speaks to us in explicitly moralistic terms significantly influencing how we think about ourselves and our moral possibilities [Pitbull - Mr. Worldwide](#) C. Duthel,2012-03-05 Pitbull was born to Cuban parents who made him recite the works of poet Jos Mart He encountered problems early in his career as a rapper because he was blue eyed white and Cuban American He was also influenced by the Miami bass genre of hip hop music and has cited Celia Cruz and Willy Chirino as sources of inspiration for his music [Summa Theologica \(All Complete & Unabridged 3 Parts + Supplement & Appendix + interactive links and annotations\)](#) Thomas Aquinas,2013-08-20 This carefully crafted ebook Summa Theologica All Complete Unabridged 3 Parts Supplement Appendix interactive links and annotations is formatted for your eReader with a functional and detailed table of contents This ebook is the best known work of Thomas Aquinas c 1225 1274 Although unfinished the Summa is one of the classics of the history of philosophy and one of the most influential works of Western literature It is intended as an instructional guide for moderate theologians and a compendium of all of the main theological teachings of the Catholic Church It presents the reasoning for almost all points of Christian theology in the West The Summa Theologica is divided into three parts and each of these three parts contains numerous subdivisions Part 1 deals primarily with God and comprises discussions of 119 questions concerning the existence and nature of God the Creation angels the work of the six days of Creation the essence and nature of man and divine government Part 2 deals with man and includes discussions of 303 questions concerning the purpose of man habits types of law vices and virtues prudence and justice fortitude and temperance graces and the religious versus the secular life Part 3 deals with Christ and comprises discussions of 90 questions concerning the Incarnation the Sacraments and the Resurrection Some editions of the Summa Theologica include a Supplement comprising discussions of an additional 99 questions concerning a wide variety of loosely related issues such as excommunication indulgences confession marriage purgatory and

the relations of the saints toward the damned Scholars believe that Rainaldo da Piperno a friend of Aquinas probably gathered the material in this supplement from a work that Aquinas had completed before he began working on the Summa Theologica It seeks to describe the relationship between God and man and to explain how man's reconciliation with the Divine is made possible at all through Christ To this end Aquinas cites proofs for the existence of God and outlines the activities and nature of God Approximately one half of the Summa Theologica then examines the nature and purpose of man Finally Aquinas devotes his attention to the nature of Christ and the role of the Sacraments in effecting a bridge between God and man Within these broad topical boundaries though Aquinas examines the nature of God and man in exquisite detail His examination includes questions of how angels act on bodies the union of body and soul the cause and remedies of anger cursing and the comparison of one sin with another Aquinas is attempting to offer a truly universal and rational view of all existence Thomas Aquinas O P 1225 1274 also Thomas of Aquin or Aquino was an Italian Dominican priest and an immensely influential philosopher and theologian in the tradition of scholasticism within which he is also known as the Doctor Angelicus Doctor Communis and Doctor Universalis He was the foremost classical proponent of natural theology and the father of Thomism His influence on Western thought is considerable and much of modern philosophy was conceived in development or refutation of his ideas particularly in the areas of ethics natural law metaphysics and political theory

Stuck Marc Sommers, 2012-02-01 Young people are transforming the global landscape As the human population today is younger and more urban than ever before prospects for achieving adulthood dwindle while urban migration soars Devastated by genocide hailed as a spectacular success and critiqued for its human rights record the Central African nation of Rwanda provides a compelling setting for grasping new challenges to the world's youth Spotighting failed masculinity urban desperation and forceful governance Marc Sommers tells the dramatic story of young Rwandans who are stuck striving against near impossible odds to become adults In Rwandan culture female youth must wait often in vain for male youth to build a house before they can marry Only then can male and female youth gain acceptance as adults However Rwanda's severe housing crisis means that most male youth are on a treadmill toward failure unable to build their house yet having no choice but to try What follows is too often tragic Rural youth face a future as failed adults while many who migrate to the capital fail to secure a stable life and turn fatalistic about contracting HIV AIDS Featuring insightful interviews with youth adults and government officials Stuck tells the story of an ambitious controlling government trying to govern an exceptionally young and poor population in a densely populated and rapidly urbanizing country This pioneering book sheds new light on the struggle to come of age and suggests new pathways toward the attainment of security development and coexistence in Africa and beyond Published in association with the United States Institute of Peace

**Values and Psychiatric Diagnosis** John Z. Sadler, 2005 In this work John Z Sadler examines the nature and significance for practice of the value content of psychiatric diagnostic classification

*Liberalism, Multiculturalism and Toleration* John Horton, 2016-07-27 The publication of Salman

Rushdie's novel *The Satanic Verses* has provoked fierce debate about the scope of toleration in a modern multicultural society. This volume explores the philosophical issues arising from this debate from a variety of points of view. It includes both general discussions of the relationship between liberalism, toleration and multiculturalism and several essays devoted specifically to the implications of the Rushdie affair for liberal political theory and its practical commitment to toleration.

**Encyclopedia of Ethics: P-W** Lawrence C. Becker, Charlotte B. Becker, 2001. A revised, expanded and updated edition with contributions by 325 renowned authorities in the field of ethics. All of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features.

*The Social Psychology of Disability* Dana Dunn, 2015. The book's overarching message is an important one. The experience of most people with disabilities is not what nondisabled persons anticipate; contrary to the latter's beliefs and expectations, the former can lead full and normal lives. Thus *The Social Psychology of Disability* is designed to counter stereotypical or biased perspectives aimed at an often overlooked minority group.
