**Happiness** Randy

Alcorn,2024-06 Christians are supposed to be happy In fact we are supposed to radiate joy peace and contentment that is so unmistakable and so attractive that others are naturally drawn to us because they want what we have And yet in today's culture the vast majority of Christians are perceived as angry judgmental people who don't seem to derive any joy from life whatsoever So why aren't we happy Unfortunately many Christians are taught early on that God doesn't want us to be happy he wants us to be holy In fact many Christians are laboring under the false notion that God himself is not happy But nothing could be further from the truth God does want us to be happy The Bible is filled with verses that prove that ours is a happy joy filled God who not only loves celebrations but also desperately wants his children to be happy Why else would He go to the lengths He did to ensure our eternal happiness in His presence We know that we will experience unimaginable joy and happiness in Heaven but that doesn't mean we can't also experience joy and happiness here on earth In Happiness noted theologian Randy Alcorn dispels centuries of misconceptions about happiness and provides indisputable proof that God not only wants us to be happy He commands it The most definitive study on the subject of happiness to date this book is a paradigm shifting wake up call for the church and Christians everywhere

**Toward a Science of Translating?** Stefan Felber, 2025-03-27 Eugene A Nida is one of the pioneers and founders of modern translation theory coining the terms dynamic equivalence and formal equivalence and energetically promoting the former though in his latter years preferring the term functional equivalence Originally formulated for the Bible Translation efforts amongst people groups without the Bible Nida's theories of translation have also been widely influential in Translation Studies making this presentation of Eugene A Nida's life 1914-2011 and assessment of his works especially timely and significant Stefan Felber is a German Old Testament scholar former seminary professor and author of the German only *Wesen und Würde des Wortes Biblisch theologische Grundlagen für das Verständnis von Sprache und Kommunikation* The Nature and Dignity of the Word Biblical Theological Foundations for Understanding Language and Communication in *Zwischen Babel und Jerusalem Aspekte von Sprache und Übersetzung* among other works As such he is uniquely qualified to offer this fair minded and masterful yet critical evaluation of Nida's model of translation doing so from a rich variety of disciplines including exegesis theology philology and philosophies of language Whether one agrees or disagrees with either Nida or Felber I highly recommend this rigorous and wide ranging exposition for advancing informed dialogue and promoting further understanding and advances in Translation Studies Professor Tom McCormick Tyndale University College Toronto

Although the theory of Dynamic or Functional Equivalence was the most widely used method in global Bible translation after the Second World War there has been no comprehensive study of its foundations and how it was developed by Eugene Nida Filling this gap is one of the great merits of Felber's study Felber while showing great respect for Nida critically evaluates Dynamic Equivalence from various perspectives exegetical theological philosophical and linguistic This multi dimensional nuanced approach provides the reader with thought provoking and helpful insights that further the discussion in important ways Felber's study is a must read for all who deal with language and translation in theology and the church in Bible translation and mission Prof Dr Markus Zehnder Internationale Hochschule Bad Liebenzell Evangelische theologische Fakultät Leuven Ansgarskolen Kristiansand

Stefan Felber's *Toward a Science of Translating* is a landmark study in Biblical Translation Theory focussing on Eugene Nida 1914-2011 who for many years was a central figure in the American Bible Society and the United Bible Societies Nida has been described as probably the world's leading scholar on translation and his theory of Dynamic or Functional Equivalence provided a leading paradigm for Bible translators for decades In this thorough analysis of his work and its reception Felber highlights a number of weaknesses as well as some strengths affiliated with

Nida's theory promoting translation theory based on reader oriented thought for thought patterns rather than traditional source oriented analysis of textual form and content Felber's evaluation raises a critical question Are facets of the biblical text pertaining to biblical language and hermeneutics theology and the transcendent downplayed in Nida's addressee oriented approach to translation I hope this book will be widely read by translators biblical scholars and others interested in translation of the Bible Dr Tomas Bokedal Associate Professor of New Testament and Early Christianity NLA University College Norway Docent of New Testament Exegesis Lund University Sweden      *Psalms* David E.
