*A History of the Gothic Revival* Charles Locke Eastlake, 1872      **Gothic Revival a & I** Chris Brooks, 1999-06-21 The first comprehensive book on the whole scope of the Gothic Revival      **A.W.N. Pugin** Augustus Welby Northmore Pugin, Megan Aldrich, Megan Brewster Aldrich, Paul Atterbury, Barry Bergdoll, Margaret H. Floyd, Bard Graduate Center for Studies in the Decorative Arts, 1995-01-01 Pub for Bard Grad Ctr for Studies in Decorative Arts NY Exhibition catalog      The Gothic Revival and American Church Architecture Phoebe B. Stanton, 1997-05-28 This illustrated account of the impact of the English Gothic revival on American church architecture in the mid nineteenth century finds that this fundamentally conservative movement provided the foundation for a new influential aesthetic With meticulous research and carefully chosen illustrations Phoebe Stanton here explores the influence of the English Gothic revival on American church architecture in the mid nineteenth century arguing that this fundamentally conservative movement provided a foundation for a new aesthetic Examining the writings of the movement s leading proponents as well as a variety of important buildings Stanton offers a comprehensive survey of the architectural principles and models that became most influential in America She also confirms the importance of the Cambridge Camden Society which provided the theoretical atmosphere and practical examples that helped to establish new standards of excellence in American architecture      Gothic Revival Architecture Trevor Yorke, 2017-06-29 From the Houses of Parliament to the Midland Hotel at St Pancras and Strawberry Hill House Gothic Revival buildings are some of the most distinctive structures found in Britain Far from a copy of medieval buildings it was a style full of colour and invention in which its exponents created a daring new approach to design Throwing out the old Classical rule book Gothic Revival architects like Pugin and George Gilbert Scott designed buildings which were asymmetrical in form and visually expressive of their function The movement went beyond just bricks and mortar and had a strong moral code the influence of which was still felt into the 20th century In this illustrated book Trevor Yorke tells the story of the Gothic Revival from its origins in the whimsical fancies of the Georgian Period through to its High Victorian climax      **A History of the Gothic Revival** Charles Locke Eastlake, 1872      **A History of the Gothic Revival: an Attempt to Show how the Taste for Mediæval Architecture ... Has Been Encouraged and Developed** Charles Locke Eastlake, 1872      *The Cambridge Movement* James F. White, 2004-10-08 For over a hundred years Anglican church buildings in every part of the world were dominated by a single idea of what churches should look like and how they should be arranged inside Only since Vatican II has the dominance of this idea been finally overthrown Thousands of churches still reflect the architectural dogmas of the Cambridge Camden Society Millions of worshippers still imbibe the theology so effectively promoted by this group through its powerful influence on the arrangement of church interiors and the style of such buildings And many of these architectural images of what is the nature of the Church itself have proved to be the most stubborn resisters of Vatican II reforms The Cambridge Camden Society was so successful in changing the outward aspects

of Anglican worship because it had specific ideas as to how churches should be arranged The Society's infatuation with a certain period of gothic architecture and with the whole medieval cultus brought about drastic changes in worship according to the Book of Common Prayer without changing a single letter of the prayer book itself The members of the Society led the way not only in the revival of medieval architecture but also of vestments and ceremonial Though much of the Cambridge Camden theology reflects that of the Oxford Movement Dr White shows both parallels and contrasts between the aims of Oxford tractarians and Cambridge ecclesiologists Architecture proved to be every bit as effective a form of propaganda as tracts and a good deal more permanent The public at first hostile eventually became receptive to the ideals of the Cambridge Movement The measure of the Movement's success is seen in almost all Anglican and many Protestant churches built or remodelled between 1840 and the 1960s This is a valuable contribution to nineteenth century studies especially to the visual history of the period

**Cities Built to Music** Michael Bright, 1984 In August of 1861 a congress was convened in Antwerp to consider why it was that the nineteenth century had adopted no distinctive architectural style as its own That such a meeting took place is of substantially greater importance than any business conducted and resolutions passed by the delegates for it suggests the profound dissatisfaction with the state of architecture in Europe that pervaded the continent at the time In England the chief critic of the motley assortment of disharmonious styles was A W N Pugin who in 1843 declared that architecture along with the other arts was passing through a transitional state the phrase was to recur over and over again throughout the century in a variety of contexts an aesthetic wasteland in which following the decay of the Renaissance an anarchic individualism fueled by a runaway eclecticism and a shoddy reliance on shams and disguises was ultimately to prevail Later in the same decade John Ruskin was to propose a stringent indeed a radical reform Professor Bright undertakes an etiological explanation of why the Gothic style was able to satisfy the artistic expectations of the Victorians He dismisses as only partly adequate the frequently offered answers the religious which points to the intimate relations between Revivalist architects and the Ecclesiologists and between Pugin and Roman Catholicism and the literary which relies on the immense popularity of the novels of Sir Walter Scott and the mania for all things medieval they inspired Rather he finds in the return to a style that was dominant before the Renaissance and in the rejection of the nineteenth century's earlier preference for the neoclassical a reflection in architecture of the generally troubled state of Victorian society so apparent in the other arts of the period Matthew Arnold's ignorant armies clash by night and Tennyson's Arthur saw not whom he fought in the dim weird battle of the west John Stuart Mills identifies as the first of the leading peculiarities of the present age that it is an age of transition Mankind have outgrown old institutions and old doctrines and have not acquired new ones Carlyle laments The Old has passed away but alas the New appears not in its stead Restlessness uncertainty and confusion abound and the idea is often repeated throughout the century that the momentum of change far from slowing to the settled condition from which new and universal values can emerge continues to accelerate at an alarming and vertiginous rate that cause Thomas Arnold

to comment that we have been living as it were the life of three hundred years in thirty and that left his son twenty years later Wandering between two worlds one dead The other powerless to be born For Matthew Arnold it was culture that would provide the unity the Scholar Gypsy s one aim one business one desire that was to be the cure for this strange disease of modern life With its sick hurry its divided aims It was unity too a singleness of aim of a devotion to and community of effort in the advancement of art that Sir George Gilbert Scott urged as its president on his colleagues in the Institute of British Architects For Pugin and a host of other artists and critics of art and society unity lay in revival of the Gothic Gothic Revival Megan Brewster Aldrich,1994 In this richly illustrated book Megan Aldrich traces the story of the Gothic Revival from its beginnings in the small experimental buildings of the eighteenth century to its ultimate phase in the lavish buildings of the late nineteenth century The book concentrates on the domestic forms of the style from its use in castles and country houses to its influence on villas and cottages from the old world to the New World This book is essential reading for all those interested in architecture and design It covers the influence of the Gothic style not only through the work of the great designers such as Burges Pugin Viollet le Duc and Wyatt but also through many lesser known figures The worldwide influence of the Gothic Revival is amply demonstrated in the large selection of illustrations showing wall floor and window treatments as well as furniture An invaluable source of ideas this book illustrates much new material and celebrates an important chapter in the history of design Gothic Revival Worldwide Timothy Brittain-Catlin,Jan De Maeyer,Martin Bressani ,2017-01-18 Pugin s global influence on church architecture and material reform The year 2012 marked the bicentenary of the gothic revival architect A W N Pugin His influence as a designer not only spread fast globally but also played a leading part in the transformation of material culture from the mid nineteenth century onwards Pugin s work has been comprehensively reevaluated over the last decade In this volume sixteen leading scholars from across the globe discuss Pugin s direct influence on church architecture and furnishing Beautifully illustrated with a large selection of new photography Gothic Revival Worldwide the successor to the volume Gothic Revival published in 2000 reveals how Pugin s ideas played a profound role in the changing face of material reform in church architecture as an expression of the evolving identity of the churches across the world from North America to Mongolia and the South Pacific Contributors Stephen Bann Bristol University Jessica Basciano University of St Thomas Houston G A Bremner University of Edinburgh Martin Bressani McGill University Montr al Karen Burns University of Melbourne Timothy Brittain Catlin University of Kent Peter Coffman Carleton University Ottawa Thomas Coomans KU Leuven Jan De Maeyer KU Leuven KADOC Candace Iron York University Toronto Stephen Kite Cardiff University Wales Alex Lawrey independent scholar Peter N Lindfield University of Stirling Cameron Macdonell Institute for the History and Theory of Architecture ETH Zurich M Stephen McNair Jr McNair Historic Preservation Gilles Maury cole Nationale Sup rieure d Architecture et de Paysage Lille Henrik Schoenefeldt University of Kent Richard A Sundt University of Oregon Malcolm Thurlby York University Toronto *The Gothic Revival* Kenneth Clark,1950
