Goths In The Crimea:

The Goths in the Crimea Aleksandr Aleksandrovich Vasil'ev, 1936 **The Goths in the Crimea** Alexander A. Vasilev, 1978-10-01 The Goths in the Crimea Aleksandr Aleksandrovich Vasil'ev, Mediaeval Academy of America, 2006

The Goths in the Crimea Aleksandr Aleksandrovič Vasil'ev, 1936 **The Goths in the Crimea** Aleksandr Aleksandrovitch Vasilev, 1936 The Well Spring of the Goths Ingemar Nordgren, 2004 The Goths a rumored people first known by history around the river Vistula in present Poland was the people that more than other contributed to the fall of the Roman Empire It was however also the Goths who preserved the Roman culture against other Germanic tribes Earlier it has been generally assumed the Goths originated in Scandinavia but during the 20th c many scholars have grown skeptical The author has using both Classical and Nordic sources and supplementary sciences made probable there is an intimate connection between the Goths and the Nordic countries Consequently it is quite possible that at least part of the Goths have a Nordic origin The book rests on the basic hypothesis that the Goths are not a people but a number of tribes and peoples united through a common religious cultic origin The old dispute concerning the relationship between Svear and Gautar also gets quite a new meaning The book is interdisciplinary and embraces history religion arts linguistics and archaeology In 1999 Ingemar Nordgren received his Ph D at Odense University Denmark The book builds to a considerable extent on his dissertation but has been updated and partly rewritten with brand new material The Colonies of Genoa in the Black Sea Region Evgeny Khvalkov, 2017-07-28 This book focuses on the network of the Genoese colonies in the Black Sea area and their diverse multi ethnic societies It raises the problems of continuity of the colonial patterns reveals the importance of the formation of the late medieval early modern colonialism the urban demography and the functioning of the polyethnic entangled society of Caffa in its interaction with the outer world It offers a novel interpretation of the functioning of this late medieval colonial polyethnic society and rejects the widely accepted narrative portraying the whole history of Caffa of the fifteenth century as a period of constant decline and depopulation **The Ostrogoths from the Migration Period to the Sixth Century** S. J. B. Barnish, Federico Marazzi, 2007 The Ostrogoths appropriated the remnants of the Roman empire in Italy Spain southern Gaul and the north west Balkans In this title studies illuminate the evolution of medieval Europe from Roman civilisation moderated by Germanic outsiders **'A Seditious and Sinister Tribe'** Donald Rayfield, 2024-08-19 With implications for the war in Ukraine a surprising history of the Crimean Tatars from the fifteenth century to the present day The Crimean Tatars were the Turkic speaking native peoples of Crimea who established a powerful khanate in the 1440s which remained in power until 1783 In this the first history in English of this khanate for over one hundred years eminent scholar Donald Rayfield shows that this misunderstood and much feared nation was in fact a flourishing state with a vibrant literary culture religious tolerance a sophisticated constitution and a prosperous economy Rayfield's book describes the establishment of the khanate its reign and its eventual fall concluding with a vivid portrayal of the ruthless suppression of the

Tatars first by Russia and then the Soviet Union and the final effectively genocidal invasion under Vladimir Putin This vibrant and ultimately tragic chronicle is essential reading for anyone interested in the background of the current war in Ukraine

The Crimean Tatars Brian Williams, 2021-11-22 Taking as its starting point the ethnogenesis of this ethnic group during the Mongol period 13th century this volume traces their history through Islam the Ottoman and the Russian Empires 15th and 17th century The author discusses how Islam Russian colonial policies and indigenous national movements shaped the collective identity of this victimized ethnic group Part two deals with the role of forced migration during the Russian colonial period Soviet nation building policies and ethnic cleansing in shaping this people's modern national identity This work therefore also has wider applications for those dealing with the construction of diasporic identities Taking a comparative approach it traces the formation of Crimean Tatar diasporas in the Ottoman Balkans Republican Turkey and Soviet Central Asia from 1944 A theme which emerges through the work is the gradual construction of the Crimea as a national homeland by its indigenous Tatar population It ends with a discussion of the post Soviet repatriation of the Crimean Tatars to their Russified homeland and the social and identity problems involved

National-Socialist Archaeology in Europe and its Legacies Martijn Eickhoff, Daniel Modl, Katie Meheux, Erwin Nuijten, 2023-08-14 This edited volume is dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures
