The Emergence of León-Castile c.1065-1500 James J. Todesca,2016-03-23 To many medieval Europeans north of the Pyrenees the Iberian Kingdom of Le n Castile was remote and unfamiliar In many ways such perceptions linger today and the fact that Le n Castile is mentioned at all in current textbooks is the result of efforts begun by scholars some forty years ago Joseph F O Callaghan was part of a small group of English speaking medievalists who banded together at conferences in the early 1970s to share their knowledge of Spain O Callaghan s general A History of Medieval Spain 1975 introduced a generation of English speaking medievalists to Iberia Still much of the new scholarly interest over the past decades has been directed toward the Kingdom of Aragon Catalonia with its exceptionally well preserved archives The Emergence of Le n Castile brings together the current research of O Callaghan s colleagues students and friends The essays focus on the politics law and economy of Le n Castile from its first great leap forward in the eleventh century to the civil strife of the fifteenth No other volume in English allows the reader to trace the institutional development of the kingdom with this chronological breadth At the same time the volume integrates the Leonese experience into the wider discussions of lordship and power While Le n Castile s culture was certainly its own the kingdom shared in and influenced the institutional and economic development of its fellow Christian kingdoms both in Spain and north of the Pyrenees The kings of Le n and Castile were among the first European rulers to invite townsmen to their assemblies At the same time they attempted to regulate their economy through sumptuary legislation and wage and price freezes And their centuries long colonization southwards influenced the Germanic expansion across the Elbe the English drive into Wales and Ireland and the Latin settlement in the Crusader states In conclusion this collection underlines the fact that Le n Castile was not an isolated backwater but a
