The Conceptual frameworks on Quality of Life Dr. Kasturi Shukla,2022-01-18 Anything that has to do with people anywhere across the globe has surely

**The Quality of Life** Richard Kraut, 2018-08-23 The Quality of Life Aristotle Revised presents a philosophical theory about the constituents of human well being The principal idea is that what Aristotle calls external goods wealth reputation power have at most an indirect bearing on the quality of our lives Starting with Aristotle s thoughts about this topic Kraut increasingly modifies and occasionally rejects that stance He argues that the way in which we experience the world is what well being consists in A good internal life comprises in part pleasure but far more valuable is the quality of our emotional intellectual social and perceptual experiences These offer the potential for a richer and deeper quality of life than that which is available to many other animals A good human life is immeasurably better than that of a simple creature that feels only the pleasures of nourishment even if it felt pleasure for millions of years human life would be superior In opposition to contemporary discussions of well being

which often appeal to a thought experiment devised by Robert Nozick. Kraut concludes that the quality of our lives consists entirely in the quality of our experiences. While others hold that we must live in the real world to live well and that one's interior life has little or no value on its own, Kraut's interpretation of this thought experiment supports the opposite conclusion.
