Good Reasons and Persuasive Force Thomas M. Olshewsky,1983 **Giving Reasons** Lilian Bermejo Luque,2011-07-31 This book provides a new linguistic approach to Argumentation Theory Its main goal is to integrate the logical dialectical and rhetorical dimensions of argumentation in a model providing a unitary treatment of its justificatory and persuasive powers This model takes as its basis Speech Acts Theory in order to characterize argumentation as a second order speech act complex The result is a systematic and comprehensive theory of the interpretation analysis and evaluation of arguments This theory sheds light on the many faces of argumentative communication verbal and non verbal monological and dialogical literal and non literal ordinary and specialized The book takes into consideration the major current comprehensive accounts of good argumentation Perelman s New Rhetoric Pragma dialectics the ARG model the Epistemic Approach and shows that these accounts have fundamental weaknesses rooted in their instrumentalist conception of argumentation as an activity oriented to a goal external to itself Furthermore the author addresses some challenging meta theoretical questions such as the justification problem for Argumentation Theory models and the relationship between reasoning and arguing **The New Scholasticism** Edward Aloysius Pace,James Hugh Ryan,1984 Includes section Book Reviews The Philosopher's Index ,1985 Vols for 1969 include a section of abstracts *International Logic Review* ,1983 **International Philosophical Quarterly** ,1983 Forthcoming Books Rose Arny,1984-03 *Lincoln's Tragic Pragmatism* John Burt,2013-01-07 In their famous debates Lincoln and Douglas struggled with how to behave when an ethical conflict like slavery strained democracy s commitment to rule by both consent and principle What conscience demands and what it can persuade others to agree to are not always the same Ultimately this tragic limitation of liberalism led Lincoln to war

McKeon,2024 Arguments figure in our everyday practices of giving reasons For example we use arguments to advance reasons to explain why we believe or did something to justify our beliefs or actions to persuade others to do or to believe something and to advance reasons to worry or to fear that something is true This book is about our uses of arguments to advance their premises as reasons for believing their conclusions i e as reasons for believing that their conclusions are true What exactly is involved when you successfully use an argument to advance the premises as reasons for believing the conclusion Philosopher Matthew W McKeon suggests there is more involved than one might think
