Gorbachev's New Thinking on Terrorism Galia Golan, 1990-01-19. Galia Golan's concise but richly detailed monograph gives us the first look at Soviet policy toward terrorism under Gorbachev. Drawing on a wide array of Soviet sources, Dr. Golan traces the evolution in Soviet attitudes toward terrorism and support for movements of national liberation from Brezhnev to Gorbachev. She focuses specifically on the change in Soviet public positions toward a more explicit condemnation of terrorist acts. The debate is likely to continue over whether changing public positions reflect an actual shift in Soviet behavior, but Golan's book helps to frame that debate. All those who are interested in evaluating Soviet new thinking on an important global and regional issue should read this book. Dennis B. Ross, Director, Policy Planning Staff, U.S. Department of State. This book examines the reevaluation of Soviet foreign policy under Gorbachev, known as the new thinking. This new foreign policy has produced a new Soviet attitude and apparently different behavior toward terrorism. In the past, terrorism was officially condemned either as a method employed by imperialist or capitalist regimes against an oppressed population or as an illegitimate offshoot of armed struggle having nothing in common with genuine liberation struggles. Under Gorbachev, there is a reduction in Soviet aid to many groups using terrorism and a call for political solutions to ongoing conflicts. The latest volume in The Washington Papers series, *Gorbachev's New Thinking on Terrorism*, will be of special interest to political scientists, Soviet specialists, or anyone interested in terrorism today. With a foreword by Walter Laqueur, this book begins with a detailed background study of Soviet attitudes toward terrorism, demonstrating the changes in Gorbachev's approach to the problem. Galia Golan, Darwin professor of Soviet and East European Studies at the Hebrew University of Jerusalem, defines the differences between Gorbachev's rhetoric and the reality of the new thinking as the book explores reports and rumors of Soviet involvement in Pakistan and the Philippines. The book concludes with a look at current Soviet policy toward terrorist groups traditionally backed by the Soviet Union. *Whitaker's Book List*, 1991. *Disarmament, Economic Conversion, and Management of Peace* Manas Chatterji, Linda Rennie Forcey, 1992-03-23. This important volume tackles the potential problems of international military disarmament. Distinguished scholars across several disciplines discuss possible negative economic and social consequences, including unemployment, conversion costs, and the related hampered growth of research and development associated with the conversion from a military industrial economy to a civilian complex. The authors present techniques for managing sectoral and regional economic imbalances and conclude that disarmament would ultimately release resources for foreign aid to close the gap between the world's haves and have-nots. Divided into three parts: Models of Disarmament and Conflict Analysis; Economic Conversion and Management of Peace, this volume addresses specific topics such as techniques of management, conflict factors affecting military expenditures, new prospects

for an East West relationship American strategic policy and NATO defense expenditure and economic conversion Third World arms production and regional conflict in the wake of superpower convergence These analyses and discussions will be of particular interest to scholars of Peace Studies Political Science Economics Sociology and Military Studies □□□□□□□□□□□□□□□□
