Multilingual Digital Storytelling Jim Anderson, Vicky Macleroy, 2016-03-02 Classrooms are increasingly multicultural in their social composition and students are increasingly connected through digital media to local and global networks. However, pedagogy has failed to take full advantage of the opportunities these resources represent. Multilingual Digital Storytelling draws attention to the interfaces between learner engagement, creativity and critical digital literacy as well as addressing the multilingual within the multiliteracies framework. Addressing a significant gap in the field of multiliteracies by focusing on multilingualism, this book explores new digital spaces for language learning and methods of extending understandings of youth literacy in an increasingly interconnected world. Drawing on innovative and multi-site research projects based in mainstream and community schools in London and overseas, this book discusses how young people become engaged creatively and critically with literacy by demonstrating how digital storytelling can be used as a tool for language development. The book begins by considering linguistic, cultural, cognitive and social dimensions of language learning from a theoretical perspective, whilst the second part focuses on practical case studies that reflect and illustrate these theoretical principles. Offering a powerful new perspective on multiliteracies pedagogy, Multilingual Digital Storytelling will appeal to researchers and academics in the fields of education, applied linguistics, sociology and youth and community studies. It will also be an invaluable resource for teachers, teacher educators, curriculum planners and policymakers. Liberating

Language Education Vally Lytra, Cristina Ros i Solé, Jim Anderson, Vicky Macleroy, 2022-02-04 This book responds to a growing body of work in sociolinguistics and applied linguistics that places an emphasis on situated descriptions of language education practices and illuminates how these descriptions are enmeshed with local institutional and wider social forces. It engages with new ways of understanding language that expand its meaning by including other semiotic resources and meaning-making practices and bring to the fore its messiness and unpredictability. The chapters illustrate how a translingual and transcultural orientation to language and language pedagogy can provide a point of entry to reimagining what language education might look like under conditions of heightened linguistic and cultural diversity and increased linguistic and social inequalities. The book unites an international group of contributors presenting state-of-the-art empirical studies drawing on a wide range of local contexts and spaces from linguistically and culturally heterogeneous mainstream and HE classrooms to complementary community school and informal language learning contexts. **Education and Society in the Middle East**
