Economic Policy and Inflation in the Sixties American Enterprise Institute for Public Policy Research, Philip Gagan, 1972-01-01 *Monthly Labor Review*, 1973 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **The United States and Germany in the Era of the Cold War, 1945-1990** Detlef Junker, Philipp Gassert, Wilfried Mausbach, David B. Morris, 2004-05-17 Publisher Description [The Unraveling of America](#) Allen J. Matusow, 2009 In a book that William E Leuchtenburg writing in the Atlantic called a work of considerable power Allen Matusow documents the rise and fall of 1960s liberalism He offers deft treatments of the major topics anticommunism civil rights Great Society programs the counterculture making the most throughout of his subject s tremendous narrative potential Matusow s preface to the new edition explains the sometimes critical tone of his study *The Unraveling of America* he says was intended as a cautionary tale for liberals in the hope that when their hour struck again they might perhaps be fortified against past error Now that they have another chance a look back at the 1960s might serve them well *Economic Policy and Inflation in the Sixties* William Fellner, 1972 [How States Pay for Wars](#) Rosella Cappella Zielinski, 2016-07 Armies fight battles states fight wars To focus solely on armies is to neglect the broader story of victory and defeat Military power stems from an economic base and without wealth soldiers cannot be paid weapons cannot be procured and food cannot be bought War finance is among the most consequential decisions any state makes how a state finances a war affects not only its success on the battlefield but also its economic stability and its leadership tenure In *How States Pay for Wars* Rosella Cappella Zielinski clarifies several critical dynamics lying at the nexus of financial and military policy Cappella Zielinski has built a custom database on war funding over the past two centuries and she combines those data with qualitative analyses of Truman s financing of the Korean War Johnson s financing of the Vietnam War British financing of World War II and the Crimean War and Russian and Japanese financing of the Russo Japanese War She argues that leaders who attempt to maximize their power at home and state power abroad are in a constant balancing act as they try to win wars while remaining in office As a result of political risks they prefer war finance policies that meet the needs of the war effort within the constraints of the capacity of the state **Managing the British Economy in the 1960s: A Treasury Perspective** Sir Alec Cairncross, 2016-07-27 In *Managing the British Economy in the 1960s* Sir Alec Cairncross who was Economic Adviser to HMG in 1961 64 and Head of the newly created Government Economic Service in 1964 69 tells the inside story of the making of economic policy under four Chancellors of the Exchequer between 1960 and 1970 first under a Conservative government then under a Labour government He describes how the Treasury dealt with a whole succession of crises and experimented with many new departures of policy over the decade for example the efforts to engage in long term planning form a workable incomes policy make use of new taxes for new purposes and enter the European Community In parallel with the 1990s the story is dominated by the effort to avoid devaluation followed by the struggle to

Economic Events, Ideas, and Policies George L. Perry, James Tobin, 2010-12-01 In November 1999 the Brookings Institution and Yale University jointly sponsored a conference to reconsider the national economic policies of the 1960s and the theories that influenced them in light of subsequent events in the economy and of developments in economic theory and research This volume contains the papers and comments of the participants The 1960s were years of difficult challenges to U S policymakers and of important initiatives to meet them The economic doldrums at the start of the decade gave way to strong expansion and prosperity which however ended with excessive inflation The decade that followed was the most turbulent of the postwar period with global shock waves from oil prices two deep recessions and historic changes in the international financial system Both policymaking and economic thinking have evolved since the 1960s The papers gathered in this volume examine the economics of the 1960s as the starting point in this evolution Several of the contributors to this volume were involved in policymaking in the 1960s Their papers provide firsthand insights to the analyses and priorities of that period and a prelude to examination of subsequent ideas and policies Younger scholars represented in the volume bring different perspectives All participants have been active in economic research since the 1960s collectively they represent a wide range of expertise in economic analysis This volume is dedicated to the memory of Arthur Okun a major figure in economics and economic policy throughout the Kennedy Johnson era at Yale at the Council on Economic Advisers and at Brookings He served as chairman of the council and chief economic adviser to President Johnson At Brookings he and George Perry founded the Brookings Panel on Economic Activity and its journal Brookings Papers on Economic Activity
