Institutions and Economic Theory Eirik G. Furubotn, Rudolf Richter, 2005-10-21 This second edition assesses some of the major refinements extensions and useful applications that have developed in neoinstitutionalist thought in recent years More attention is given to the overlap between the New Institutional Economics and developments in economic history and political science In addition to updated references new material includes analysis of parallel developments in the field of economic sociology and its attacks on representatives of the NIE as well as an explanation of the institution as an equilibrium of game approach Already an international best seller Institutions and Economic Theory is essential reading for economists and students attracted to the NIE approach Scholars from such disciplines as political science sociology and law will find the work useful as the NIE continues to gain wide academic acceptance A useful glossary for students is included Eirik Furubotn is Honorary Professor of Economics Co Director of the Center for New Institutional Economics University of Saarland Germany and Research Fellow Private Enterprise Research Center Texas A M University Rudolph Richter is Professor Emeritus of Economics and Director of the Center for New Institutional Economics University of Saarland Germany

Elinor Ostrom and the Bloomington School Jayme Lemke, Vlad Tarko, 2021-08-04 Elinor Ostrom was the first female winner of the Nobel Prize in economics and her achievement has generated renewed interest in the Bloomington School research program in institutional economics and political economy These essays showcase Ostrom s extensive and lasting influence throughout economics and the wider social sciences Contributors contextualize the Bloomington School within schools of economic thought and show how Ostrom s distinct methodology has been used in policy making and governance Case studies illustrate the value of civic involvement within public policy a method pioneered by Ostrom and the Bloomington School Elinor Ostrom and the Bloomington School provides a valuable resource for those keen to understand Ostrom s approach especially when applied to policy making and wider use in the social sciences Readers new to the Bloomington School will be introduced to its central areas of research while those already familiar with the school will appreciate its subtle connections to other disciplines and research agendas

The New Institutional Economic History of Douglass C. North Matthijs Krul, 2018-08-28 This book offers a comprehensive assessment of Douglass North s contribution to economics and the social sciences by examining the origins and structure of his New Institutional Economic History NIEH Informed by contemporary debates in the philosophy of economics Krul describes the evolution of North s theory from mainstream economics to an increasingly heterodox form of New Institutionalism He also examines what North s original aims were in developing the NIEH research programme and how well it has achieved these aims By exploring major themes in North s NIEH with an emphasis on the final stage of his theory Krul sheds new light on the strengths and weaknesses of North s work He also discusses the

implications of this critical interpretation for the New Institutionalism in economics and other fields of social science

Evolving Approaches to the Economics of Public Policy Jean Kimmel, 2016-11-15 For policymakers economics is a useful tool in the development and evaluation of public policy And like many sciences economics is evolving to become more interdisciplinary in its approach Today economic theory is often used in conjunction with insights gleaned from psychology and sociology to create a more inclusive real world approach to implementing public policy In this book five award winning economists tackle a diverse range of topics and show how applied economics has evolved to give policymakers a more nuanced approach to policy development The award winning economists included in this volume are Erica Field Nancy Folbre Avner Grief David M Kreps and Michael J Piore and the topics they discuss include microfinance human capital societal institutions worker motivation and workplace regulation

The Economic Structure of International Law Joel P. Trachtman, 2008-11 The Economic Structure of International Law presents a rationalist analysis of the structure of international law It employs social scientific techniques to develop an understanding of the role of law in international society In doing so it delves into the question of compliance and reveals the real world circumstances under which states might adhere to or violate international law Joel P Trachtman explores such topics as treaty making and jurisdiction the rise stability and efficiency of custom the establishment of international organizations and the structure and role of international legal dispute settlement At the core of the book lies the question of the allocation of legal power to states The Economic Structure of International Law presents policymakers and scholars with an over arching analytical model of international law one that demonstrates the potential of international law but also explains how policymakers should choose among different international legal structures

The International Economic Law Revolution and the Right to Regulate Joel P. Trachtman, 2006 A collection of 13 previously published articles

Economics As a Science of Human Behaviour Bruno S. Frey, 2013-06-29 This book champions the view that economics is a social science and that moreover it may serve as a new paradigm for the social sciences Economics is taken to be part of those sciences which deal with actual problems of society by providing insights improving our understanding and suggesting solutions I am aware that the way problems are addressed here has little in common with economics as it is generally understood today most economists make strong efforts to imitate the exact sciences Economics tends to become a branch of applied mathematics the majority of all publications in professional journals and books are full of axioms lemmas and proofs and they are much concerned with purely formal deductions Often when the results are translated into verbal language or when they are applied empirically disappointingly little of interest remains The book wants to show that another type of economics exists which is surprisingly little known This type of economics has its own particular point of view It centres on a concept of man or a model of human behaviour which differs from those normally used in other social sciences such as sociology political science law or psychology I do not however claim that economics is the only legitimate social science On the vii viii PREFACE contrary economics can provide useful

insights only in collaboration with the other social sciences an aspect which has been disregarded by mathematically oriented economics *Developing Property Rights Theory* Shaoan Huang,2023-11-08 This book aims to interpret China's property rights reform since 1978 on theory level Property rights reform is no doubt the essential for economic system reform which led to China's economic miracle in the past 40 years Neither modern property rights theory nor Marxism can explain all issues around Chinese complex economic system reform The book sheds light on the theory development through comparative study and China focused research Law and Economic Performance in the Roman World ,2022-09-26 This

book offers critical analyses of the dynamic relation between legal regulations institutions and economic performance in the Roman world It studies how law and legal thought affected economic development and vice versa Inspired by New Institutional Economics scholars the past decades used ancient law to explain economic growth There was however no natural selection process directing legal changes towards macro economic efficiency Ancient rulers and jurists modified institutions to serve or safeguard particular interests political social or economic Nevertheless both economic performance and legal scholarship peaked at unprecedented levels These were momentous historical developments How were they related

humanization of industrial technologies the transition from Industry 4.0 ecosystems to Industry 5.0 the achievement of sustainability in the process of digital transition assessing the impact of industrial digital transformation on society and the environment regional practices for digital transformation digital transformation strategies of industrial enterprises HR strategies for the digital transition of industry among others Due to the scientific pluralism of the topics covered the book is valuable to economists researchers and managers in industry and finance

The New Institutional Economics and Development M.K. Nabli, Jeffrey B. Nugent, 2014-11-28 The New Institutional Economics NIE and its two main branches namely the theory of transaction cost and contractual choice on the one hand and that of collective action on the other broaden the analytical framework of mainstream economics In doing so the NIE attempts to explain the institutional phenomena which although almost universally recognised as important have previously eluded the group of economists This book is concerned with the NIE and its possible application to Development Economics It has two specific objectives The first is to show the relevance and assess the applicability of the principles and insights of the NIE to the analysis of the problems of the LDCs The second is to provide another set of applications and empirical investigations of the NIE By combining the relevant theoretical background with applications the book is self contained and presented in such a way as to be accessible to each of the following types of reader 1 development economists and practitioners 2 readers interested in institutions and the NIE 3 regional specialists in North Africa and in countries such as Tunisia and 4 those interested in political economy

An Agenda for Economic Reform in Korea Kenneth Judd, Young-Ki Lee, 2013-11-01 An Agenda for Economic Reform in Korea looks at Korea's economic problems from the perspective of the American experience with economic reforms and sheds new light on the problems of economic reform facing nations all over the world The authors examine such issues as corporate governance social welfare labor relations and other pressing challenges and suggest a new vision for the Korean economy

Recent Developments in Institutional Economics Geoffrey Martin Hodgson, 2003 The re emergence of institutional economics in the final quarter of the twentieth century is one of the most important and fruitful developments in social science In bringing together some of the most significant previously published papers by leading scholars in the field this authoritative collection explores the major changes in the new and old institutional economics the developments of new approaches and the extension of applications to new areas which have taken place since the early 1990s This volume is a definitive collection of readings showing both changes in the research agenda and new developments at the cutting edge It is an ideal reference source for students and researchers in the fields of economics sociology business and other related disciplines

The Four Paradigms in Economics Kavous Ardalan, 2025-10-02 In The Four Paradigms in Economics Theories Concepts and Analytical Tools Kavous Ardalan demonstrates how these four paradigms explain any economics phenomenon differently and therefore together they provide a broader and deeper understanding of the economic phenomenon under consideration The main theme of The Four Paradigms of Economics is that social theory can usefully be conceived in terms of

these four key paradigms functionalist interpretive radical humanist and radical structuralist The four paradigms are founded upon different assumptions about the nature of social science and society and therefore provide different explanations of any phenomenon The book also looks at the major prevailing schools of thought in economics Neo Classical Economics New Institutional Economics Behavioral Economics Austrian Economics Post Keynesian Economics Institutional Economics Social Economics Radical Economics and Marxist Economics from the point of view of the four paradigms and locates them within the four paradigm framework
