Handbook of Research on Gender and Economic Life Deborah M. Figart,Tonia L. Warnecke,2013-01-01 The excellent list of themes and chapters in this volume reflects the maturity reached by feminist economics in its different dimensions Based on the notion of social provisioning for all as the basic objective of economics they represent a challenge to conventional economic thought and they show the importance of understanding theory institutions empirical work and policy from a gender perspective The global perspective provided through themes and authors is a very useful contribution to the literature Lourdes Bener a Cornell University US Standard economics has a narrow and distorted vision of what the economy is and how it works Gender scholars are on the forefront of developing better more encompassing models of human provisioning for well being This volume presents a wonderful sampling of these new theoretical and empirical developments Paula England New York University US This is an impressive collection that delves deeply and broadly into the myriad ways that gender shapes and alters economic lives and illuminates complex facets of the economic and social provisioning process across the globe The chapters by an exciting variety of researchers policy analysts and practitioners from numerous fields present a consistent and persuasive vision of economic well being as critical to the flourishing of all people Myra H Strober Stanford University US In the aftermath of global economic downturn it has never been more important to understand how gender relates to economic life and well being This interdisciplinary collection of original research details key areas of intersection provides a comprehensive overview of the current state of research and proposes avenues for further investigation The Handbook illuminates complex facets of the economic and social provisioning process across the globe The contributors academics policy analysts and practitioners from wide ranging areas of expertise discuss the methodological approaches to and analytical tools for conducting research on the

gender dimension of economic life They also provide analyses of major issues facing both developed and developing countries Topics explored include civil society discrimination informal work working time central bank policy health education food security poverty migration environmental activism and the financial crisis Economists sociologists and political scientists will find this book to be an invaluable research tool as will academics researchers and students with an interest in economics particularly feminist economics gender studies and global studies

Economic Analysis of Mental Health in China

Xuezheng Qin,Chee-Ruey Hsieh,2023-08-08 This book uses an economic approach to analyze the socioeconomic causes and consequences of mental health disorders in China with a special focus on mental depression Based on a nationally representative dataset we first investigate the prevalence and distribution of depression and depressive symptoms among China s adult population and then use several econometric methods to estimate the multi dimensional disease burden of the mental disorder such as its direct medical costs its indirect economic costs and its hidden costs on social trust and life satisfaction In addition we specifically address the socioeconomic determinants of mental health by examining how the relative and absolute economic status may determine people s mental depression Lastly we propose an analytical framework to evaluate the four major hurdles that cause the treatment gaps of mental health care and discuss the policy options to overcome such hurdles and to address the unmet mental healthcare needs in China and other developing countries The book may facilitate our understanding on the complex determinants and implications of the rising prevalence of mental health disorders in developing countries like China In addition to the students teachers and researchers in the fields of health economics and public health the book may also be of interest to health policy makers and non government agencies who are concerned with addressing the global mental healthcare challenges using economic policy tools
