Towards a Diagnosis of Our Times Nikolai Genov, 2025-09-30 This monograph offers a critical diagnosis of the current epoch marked by globalization de globalization and re globalization Arguing that the concept of society gives way to that of globalization as an explanatory core the author shows how constructivist ideas open the way to four new conceptualizations of global trends upgrading the rationality of organizations individualization spread of instrumental activism and homogenization of culture RISC Each trend is presented by two explanatory models The trend of upgrading rationality of organizations is exemplified by analyses of the volatile rationality of industrial organizations and the tensions of regional integration Individualization is dealt with by comparing the development and impact of leaders in Asia and the individualization in the present day war Commercialization together with consumerism is analyzed as a component of the global trend of instrumental activism The homogenization of culture is dealt with through discussions on the dynamic relations of values and norms and the controversial development of social science knowledge The creative approach to global processes is finalized in a discussion on tensions and conflicts in each trend and in their interplay As such it develops a new analytical framework while identifying action fields and activities which reproduce stability and change in contemporary global society The intellectually refreshing critical and constructive ideas of this volume will attract researchers lecturers and upper level students with interests in sociological theory globalization the sociology of culture and the challenges facing contemporary civilization more broadly [The Crisis of Our Time](#) John Carvalho, 2014-07-14 Dr John Carvalho former Harvard academician and winner of the United States National Research Service Award is no stranger to the word crisis As a scientist scholar and statesman he has spent decades working on the front lines of biomedical and theoretical exploration global health and the worldwide human rights movement The Crisis of Our Time is the astonishing partial memoir and discourse regarding his life s career and philosophy concerning the planet s most pressing problems Written in a way accessible to everyone Carvalho beginning with his passionate poetic and provocative first chapter challenges us to discover that the disastrous external crises of our lives emanate from the unity of our conscious and subconscious experiences Indeed the great troubles afflicting humanity war infectious disease economic recession terrorism family discord psychological trauma human rights violations dilemmas that appear unsolvable actually originate when without truthful self reflection we glorify mediocrity rather than strive to excel Employing cutting edge scientific information keen historical insight extensive cultural experience and profound philosophical analysis Carvalho dissects our crises to elucidate why they perpetuate In so doing he introduces his theory of causal circular systems to reveal how causes feed off and exacerbate effects which in turn reinforce those same causes Furthering his views he explores global health the example par excellence as well as economics political history planetary climate change and the most central crisis of all Being or Nothingness the fears of the Self the

dread of our mortality Ultimately this short but eye opening book creates epic meaning while using an artistic literary style that is virtually unseen in nonfiction Anyone who genuinely seeks excellence over mediocrity truth over falsity meaning over purposelessness and resolution over despair should read **Crisis** **The Restructuring of Capitalism in Our Time** William K. Tabb, 2012-01-03 Actions taken by the United States and other countries during the Great Recession focused on restoring the viability of major financial institutions while guaranteeing debt and stimulating growth Once the markets stabilized the United States enacted regulatory reforms that ultimately left basic economic structures unchanged At the same time the political class pursued austerity measures to curb the growing national debt Drawing on the economic theories of Keynes and Minsky and applying them to the modern evolution of American banking and finance William K Tabb offers a chilling prediction about future crises and the structural factors inhibiting true reform Tabb follows the rise of banking practices and financial motives in America over the past thirty years and the simultaneous growth of a shadow industry of hedge funds private equity firms and financial innovations such as derivatives He marks the shift from an American economy based primarily on the production of goods and nonfinancial services to one characterized by financialization then shows how these developments perspectives and approaches not only contributed to the recent financial crisis but also prevented the enactment of effective regulatory reform He incisively analyzes the damage that increasing unsustainable debt and excessive risk taking has done to our financial system and expands his critique to a discussion of world systems and globalization Revealing the willful blind spots of mainstream finance theory Tabb moves beyond an economic model reliant on debt expansion and dangerous levels of leverage proposing instead a social structure of accumulation that places economic justice over profit and more practically institutes an inclusive sustainable model for growth **A Life in Our Times** John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of Fortune when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time *The Affluent Society* *The New Industrial State* and *Economics and the Public Purpose* In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the

Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the steps of its author s astonishingly varied and useful life Mr Galbraith s vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal That serious business is also to set the record straight on what his books were about and how he evolved his theory of The Affluent Society and The New Industrial State as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt The New York Times As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith s smooth comic timing and his not always charitable wit James Fallows The New York Times Galbraith ranks with the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith Foreign Affairs Galbraith has assembled a well nigh complete record of what he has been up to professionally at least since leaving his family s Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin Christian Science Monitor Absorbing and irresistible The New Yorker An enjoyable book full of fun full of wisdom and full of rare insights into the history of our times The New Republic A delightfully teeming book Galbraith s comic voice is a distinctive and durable literary achievement Atlantic Monthly A highly perceptive commentary on all our yesterdays anecdotal amusing animated and above all illuminating John Barkham Reviews

The Words of Our Time John Shosky, 2012-05-08 This is a collection of the most influential speeches given since entering the new millennium It is a timely book capturing contemporary and powerful expressions of ideas and reasoning Global in perspective these speeches stand as unmediated and authentic testaments to the profound impact of great words and persuasive vision During this period our mindset and culture have changed reflecting the immense national and international changes the age has witnessed the global financial crisis the outbreak of international terrorism the rise of new wealth in the developing world austerity in Europe and the United States and new opportunities for investment and influence These speeches define our recent history and will be used by historians to understand us in the years and centuries to come

The Social Crisis of Our Time Wilhelm Röpke, "The Challenge of Our Time" Iris Dorreboom, 1991 Peace in Our Time Sir Austen Chamberlain, 1928 Marx for Our Times Daniel Bensaïd, 2002 Without denying the contradictory character of Marx s thought Daniel Bensaïd sets out to demonstrate that it was not a philosophy of the end of history an empirical sociology of

classes or a positive science of economics positing an inexorable progress towards an ineluctable communism. Instead, Marx's critique of political economy encompassed three great critiques of the scientific and political canons of its age: historical reason, sociological rationality, and scientific positivism, which make the thinker from the nineteenth century fully relevant to the twenty-first century of global capitalism. Indeed, we find here a post-postmodern Marx able to inhabit a contemporary world replete with contingency, emergency, and contradictory temporalities. Published in France on the eve of the strikes of 1995 that signalled a profound revolt against *la pensée unique*, Marx for Our Times is an invitation to rediscover our foremost contemporary Karl Marx.

The Tariff in Our Times Ida M. Tarbell, 2019-12-03 Ida M. Tarbell's *The Tariff in Our Times* presents a meticulous examination of tariff policies and their socio-economic ramifications in the early 20th-century United States. Employing a clear and persuasive prose style that merges rigorous research with accessible narrative, Tarbell adeptly illuminates the complex interplay between governmental decisions, business interests, and the American populace. Against the backdrop of burgeoning industrialization, her analysis reveals the multifaceted implications of tariffs, not merely as economic tools but as instruments that shape national identity and policy in a rapidly changing landscape. As a pioneering journalist and a formidable figure in the muckraking movement, Tarbell's insights are informed by her extensive background in investigative journalism and her commitment to social reform. Her firsthand experiences, including growing up in a Pennsylvania oil town affected by monopolistic practices, fueled her passion for uncovering systemic injustices. This personal connection to her subject matter imbues the text with both authenticity and urgency, making her arguments all the more compelling. I highly recommend *The Tariff in Our Times* to readers interested in economic history, social justice, and the evolution of American policy. Tarbell's engaging narrative not only offers a critical examination of that era's tariffs but also serves as a relevant commentary on contemporary economic issues, ensuring its lasting significance.

The Financial Crisis of Our Time Robert W. Kolb, 2011-01-28 In 2006, residential real estate prices peaked and started to fall, then threatened the world's financial institutions in 2007 and confronted the global economy with disaster in 2008. In the past few years, millions of people have lost very substantial portions of their wealth. And while the markets have rebounded considerably, they are still far from a full recovery. Now, professional economists, policy experts, public intellectuals, and the public at large are all struggling to understand the crisis that has engulfed us. In *The Financial Crisis of Our Time*, Robert W. Kolb provides an essential, comprehensive review of the context within which these events unfolded, arguing that while the crisis had no single cause, housing finance played a central role and that to understand what happened, one must comprehend the mechanism by which the housing industry came into crisis. Kolb offers a history of the housing finance system as it developed throughout the twentieth century and especially in the period from 1990 to 2006, showing how the originate-to-distribute model of mortgage financing presented market participants with a clockwork of perverse incentives. In this system, various participants, simply by pursuing their narrow personal interests, participated in an elaborate mechanism that led to disaster. The book then

gives a narrative of the crisis as it developed and analyzes all of the participants in the housing market from the home buyers to investors in collateralized debt obligations CDOs At each step the book explains in a nontechnical manner the essential relationships among the market participants and zeroes in on the incentives facing each party The book also includes an extensive glossary and a detailed authoritative timeline of the subprime financial crisis Offering a unique look at the participants and incentives within the housing finance industry and its role in the biggest financial catastrophe in recent history Robert W Kolb provides one of the most comprehensive and illuminating accounts of the events that will be studied for decades to come as the financial crisis of our time Ethics for our Times M.V. Nadkarni,2011-06-22 Mahatma Gandhi

holds an eminent position in the history of ethics and its application to contemporary concerns This book brings together in one harmonious whole three systems of thoughts on ethics Indian Western and Gandhian It shows how Gandhi drawing from the other two traditions made a creative contribution of his own in making ethics richer and more relevant than ever before

The Distemper of our Times Peter C. Newman,1978-01-15 It is impossible to appreciate Canada in the mid and late 1960s without reading *The Distemper of Our Times* Newman s skilful selection of evidence his grasp of personality and the flair and pace of his writing style bring the disparate events of that turbulent era into a cogent narrative that will retain its drama and urgency for future generations The Dilemma of Our Times (Works of Harold J. Laski) Harold J.

Laski,2014-10-24 This book originally published in 1952 unfinished and perhaps imperfect is the last book of one of the most acute political thinkers of the twentieth century Laski s earlier optimism about a swing to the Left was beginning to be reversed and in this volume he saw the defects of his previous optimistic surveys which in his opinion still had value but needed to be brought up to date and consequently he began to write an additional chapter which was never completed It remains a valuable last word of an author who for thirty years was respected and listened to on the topic of civilisation s survival through change *A Lesson for Our Times* C. Philip Skardon,2010-03-19 Even though it has faded in the minds of

most the Cold War was the dominant happening in the second half of the 20th Century The underlying cause was the Soviet Unions expansionism which was driven by imperialist ambition overlaid with ideology Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations and especially the United States because of its strength and democratic tradition These forces vied in the Hungary Suez Crisis of 1956 as not before or after when 200 000 Soviet troops intervened in Hungary to put down the revolution and the attendant Uprising and acting contrary to Western interests Britain and France invaded the Canal Zone and the Israelis the Sinai raising the crisis to a point of extreme danger as the East West confrontation nearly burst its bounds Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace and the Russians not deterred from invading Western Europe by threat of U S nuclear retaliation it seemed possible that the world would experience a general war with nuclear weapons as a major component *A Lesson for Our Times* focuses on this

possibility While it is about the steps taken by the United States to prevent the worst from occurring immediately it is also about what was done to prevent a similar crisis from occurring in the future To say that these actions were unique and effective is true but not enough They were also unprecedented in the history of the nation and surely the world as well as proof that the peace keeping system devised after World War II would function as intended if undergirded and augmented by U S prestige and wherewithal Here then was Hungary Suez in its totality More should be known about the crisis for these reasons alone This book seeks to meet that need while filling a large gap in the understanding of the Cold War It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive in a word when American diplomacy was at its zenith

Economic Policy in Our Time: Country studies: United States, by O. Eckstein. United Kingdom, by F. Blackaby. Norway, by J. Faaland ,1964 *Time in Our Times*
