**Economic Change in China, c.1800-1950** Philip Richardson, 1999-11-18 This book is the first attempt to focus on the long term process of economic change in pre Communist China It examines the extent to which China had become a modern economy by 1950 and analyzes the origins of some of the modern features in the traditional economy With maps tables and bibliography to guide the student this concise study will provide an invaluable introduction to crucial aspects of Chinese history

**The Oxford Handbook of Africa and Economics** Célestin Monga, Justin Yifu Lin, 2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this handbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa's contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists

**China and the Birth of Globalization in the 16th Century** Dennis O. Flynn, Arturo Giráldez, 2024-10-28 Including 11 essays published over the last 15 years this volume by Dennis O Flynn and Arturo Giráldez concerns the origins and early development of globalization It opens with their 1995 Silver Spoon essay and a theoretical essay published in 2002 Subsequent sections deal with Pacific Ocean exchanges interconnections between the Spanish Ottoman Japanese and Chinese empires and the necessity of multidisciplinary approaches to global history The volume follows the evolution of the authors thinking concerning the central role of China in the global silver trade as well as interrelations among silver and non silver markets Research before 2002 paved the way for

development of a coherent Birth of Globalization narrative that portrays economic factors in the context of powerful epidemiological ecological demographic and cultural forces In the final essay Flynn and Gir ldez argue for incorporating the work of all academic disciplines when attempting to understand the history of globalization advocating an inclusive historical data base which recognizes contextual realities and an inductive process of reasoning      **After Tamerlane** John Darwin,2010-08-08 Tamerlane the Ottomans the Mughals the Manchus the British the Japanese the Nazis and the Soviets All built empires meant to last forever all were to fail But as John Darwin shows in this magisterial book their empire building created the world we know today From the death of Tamerlane in 1405 to America s rise to world hyperpower to the resurgence of China and India as global economic powers After Tamerlane is a grand historical narrative that offers a new perspective on the past present and future of empires      **No Great Wall** Felix Boecking,2020-05-11 This book an in depth study of Nationalist tariff policy fundamentally challenges the widely accepted idea that the key to the Communist seizure of power in China lay in the incompetence of Chiang Kai shek s Nationalist government It argues instead that during the second Sino Japanese War China s international trade the Nationalist government s tariff revenues and hence its fiscal policy and state making project all collapsed Because tariffs on China s international trade produced the single greatest share of central government revenue during the Nanjing decade the political existence of the Nationalist government depended on tariff revenue Therefore Chinese economic nationalism both at the official and popular levels had to be managed carefully so as not to jeopardize the Nationalist government s income Until the outbreak of war in 1937 the Nationalists management of international trade and China s government finances was largely successful in terms of producing increasing and sustainable revenues Within the first year of war however the Nationalists lost territories producing 80 percent of tariff revenue Hence government revenue declined just as war related expenditure increased and the Nationalist government had to resort to more rapacious forms of revenue extraction a decision that had disastrous consequences for both its finances and its political viability      States, Intergovernmental Relations, and Market Development Jinhua Cheng,2018-05-17 This book is a theoretical and empirical analysis of institutional foundation of long term economic growth from the perspective of state market and central local relations The book argues that in order to safeguard sustainable market development it is necessary to centralize certain functions of the state to overcome local predatory governmental rulings and to decentralize others to increase local governmental market incentives simultaneously This institutional approach is conceptualized as Dual Intergovernmental Transformation for Market Development DITMD This book develops the DITMD model through an in depth empirical comparison on contemporary China and the 19th century United States      **The Oxford Companion to the Economics of China** Shenggen Fan,Ravi Kanbur,Shang-Jin Wei,Xiaobo Zhang,2014-10-30 China s rise as an economic powerhouse raises a number of questions that are the subject of lively debate How did the country do it How applicable are the lessons of China s economic reform of the past thirty years to the challenges it faces in the next three decades What does

the detailed pattern of China's success and challenges look like at the sub sectoral and sub national levels and what does this mean for future policy How will China's role as a global economic player evolve The Oxford Companion to the Economics of China presents an original collection of perspectives on the Chinese economy's past present and future 99 entries written by the leading China analysts of our time The topics covered include the China model future prospects for China China and the global economy trade and the Chinese economy macroeconomics and finance urbanisation industry and markets agriculture and rural development land infrastructure and environment population and labour dimensions of wellbeing and inequality health and education gender equity regional divergence in China and a selection of perspectives on some of China's provinces The Editors are four global leaders in Chinese economic analysis and policy who between them have held or hold the following positions Director General International Food Policy Research Institute Co Editor China Economic Review President Chinese Economists Society Assistant Director of Research at the IMF Principal Adviser to the Chief Economist of the World Bank and Professors of Economics at Ivy League Universities

**Colonialism, Institutional Change, and Shifts in Global Labour Relations** Karin Hofmeester, Pim Zwart, 2025-10-01 This book offers a view of shifts in labour relations in various parts of the world over a breathtaking span from 1500 to 2000 with a particular emphasis on colonial institutions How did growing demand for colonial commodities affect labour in the Global South How did colonial interference with land and labour markets affect developments in labour relations And what were the effects of the introduction of colonial currencies The contributors to this volume answer those questions and more combining global perspectives with impressively detailed case studies

**The Long Road to the Industrial Revolution** J. L. Van Zanden, 2009-06-17 The Long Road to the Industrial Revolution offers a new explanation of the origins of the industrial revolution in Western Europe by placing development in Europe within a global perspective It focuses on its specific institutional and demographic development since the late Middle Ages and on the important role played by human capital formation

**China in the Local and Global Economy** Steven Brakman, Charles van Marrewijk, Peter J. Morgan, Nimesh Salike, 2018-11-21 The history of China dates back thousands of years with periods of decline followed by periods of growth and innovation This book puts the last 50 years China's most recent period of growth into perspective It explores the changing national and international connections within China and between China and other parts of the world and their importance for understanding the past current and future developments of the Chinese economy The book brings together leading international contributors from China Japan and Europe to consider the historical developments of these connections the importance of natural and man made connections for the Chinese economy the role of institutions and policies for understanding the connections and their sustainability This book will be of interest to scholars and researchers focusing on China economics geography or international trade

**The Cambridge History of Southeast Asia: From early times to c. 1800** Nicholas Tarling, 1992 The Cambridge History of Southeast Asia is a multi authored treatment of the whole of

mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history aiming to present the current state of historical research on Southeast Asia as well as stimulating further thought and investigation Publisher description **OECD Economic Surveys: China 2010** OECD,2010-02-03 This 2010 edition of OECD s periodic review of China s economy finds that China s spectacular expansion has continued in recent years making for impressive improvements in living standards The slowdown associated with the global financial and
