China's Economic Development and

Democratization Yanlai Wang, 2017-03-02 China's Economic Development and Democratization examines China's transformation from an institutional perspective. It proposes an analytical framework comprising six macro institutional environments: international, ideological, political, economic, constitutional, and civil social, to analyze the Chinese transition. Through an institutional analysis of the ruling elite's policy institutionalization, it tries to answer three main questions: Will China's economic reforms lead to a meaningful political reform? Will economic freedom lead to political freedom? Will economic development lead to political democratization? The major findings from the institutional analysis of the dynamic interactions between political actors and institutions suggest that China is moving closer towards democracy. Students and scholars who are studying or conducting researches on the Chinese economy, society, or politics will find this book of particular interest.

Economic Development in Modern China Since 1949 Guan Quan, 2023-07-31 As the second volume of a two volume set on the Chinese economic history, this book investigates Chinese economic development since 1949, uncovering the momentum, unique models, and general laws of economy in China. From the perspective of development economics, the two volume set studies the economic history and development of China since 1912, with a focus on the quantitative analysis of economic activities. This volume describes the historical process and characteristics of the economy since 1949, then looks into the momentum and inner logic that underpin the economic development. The former part covers issues of agriculture, industry, population, and labor force; urbanization and mobility; income distribution and poverty; and price changes. The latter part includes analyses on the capital formation, human resources, technological progress, institutions, macro policies, international trade, and direct investment. This title will interest scholars and students working on Chinese economic history, the Chinese economy, and modern Chinese society.

China's Economic Rise and Its Global Impact Ken Moak, Miles W.N. Lee, 2016-04-08 Through a thorough analysis of China's recent history and economic development process, the authors of this book seek to explain the causes of China's economic rise and its impact on the rest of the world.

Chinese Economic Development Yinxing Hong, Ninghua Sun, 2021-07-08 The book provides a meticulous analysis of economic development and concomitant problems in China since the late 1970s and advances suggestions on further economic modernisation and transition from both theoretical and practical angles. Based on theories from development economics and solid empirical studies, the authors, two renowned Chinese economists, provide a perceptive analysis of the Chinese development model in the post Mao era. They shed light on questions that have perplexed many: How can China sustain the rapid growth of the past 40 years? Is there a unique China path to economic progress? They argue compellingly that China's development model has to switch from a manufacturing driven one to a brand new approach centring on scientific and technical innovation and the integration of its existing economic structure into an increasingly complex global economy. Such transformation will help overcome the middle income trap while addressing other institutional and economic challenges. The book will appeal to students, scholars, and policymakers interested in the Chinese and global economies, as well as transnational studies in the

post COVID 19 world General readers willing to obtain a grasp of Chinese economic development from the insider s perspective will also find it useful
