Workforce Development Politics Robert Giloth,2010-06-25 A look at local efforts to improve job training Economic and Workforce Development Program Annual Report. 2015 California Community Colleges. Chancellor's Office,2014 California's community colleges continue to play a crucial role in the state's economy by providing students with the skills and knowledge to succeed and by advancing the economic growth and global competitiveness of California and its regional economies through the Economic and Workforce Development Program EWD The EWD program invests in the skills of California's workforce It brings together members of the business community and academia throughout the state to create job opportunities for Californians This report highlights the efforts in helping to build the workforce development programs in the state and discusses California's seven macroeconomic regions through the 10 important economic sectors or industries that have been targeted for investment The data for this report were collected through both quantitative and qualitative methods During 2012-13 EWD continued its commitment to provide training and technical assistance to California's students colleges workers employers and entrepreneurs The strength of the program stems from the continued support of industries and organizations that see the value in economic development Moreover EWD helps to serve regional economic workforce employment needs Statewide Strategic Priority Initiatives are appended Linking Workforce Development to Economic Development William J. Rothwell,Patrick E. Gerity,2000 Provides 28 case studies demonstrating how community colleges identify and address the continuous learning needs of their communities and how they develop individuals help employers and support communities as they fill the workforce training needs of the country Provided by publisher Workforce, Economic, and Community Development League for Innovation in the Community College (U.S.),1997 Making the Connection Joseph Stillman,1994 *Perspectives on Hawai'i's Economic and Workforce Development Priorities* Pacific Resources for Education and Learning,2003 **California Workforce Development** ,2000 *Economic and Workforce Development Program Annual Report, 2016* California Community Colleges. Chancellor's Office,2016 The California Community Colleges through the Economic and Workforce Development Program EWD continue to propel the California economy forward by providing students with skills to earn well paying jobs At the same time EWD helps provide California companies with the talent they need to compete on a global scale This annual report for 2014-15 highlights both groups efforts in helping to build workforce development programs in the state and discusses California's seven macroeconomic regions through the 10 important sectors or industries targeted for investment The data for this report is collected through both quantitative and qualitative methods Financial data and select performance information are collected through online grant reporting systems Qualitative data such as success stories are collected through the sector navigators The data presented in this report covers the grantee term fiscal year 2014-15 The following are appended 1 Priority Sector Summaries

2 EWD CCCCCO and Regional Consortia Resources and 3 EWD Program Advisory Committee *Workforce Development:* Nicholas C. Bolden, Cal Clark, 2020-11-02 For the century of approximately 1870 through 1970 America's ongoing industrialization brought growing prosperity to much of its citizenry and after World War II created a broad middle class society. After the mid 1970s however deindustrialization or the movement of manufacturing production to other countries resulted in growing economic and social stress on many of the working class who did not possess a college education. Donald Trump was the first major U.S. politician to recognize this problem and promise to create good jobs for working class Americans. Yet his most dramatic policy initiatives in the areas of trade, immigration and deregulation did not produce dramatic change during his first term. A more positive trend is bubbling up from state and local governments with the encouragement but not funding from the Trump administration. This is the growing importance of workforce development programs which seek to develop the skills necessary for America's 21st century economy through education reform, industrial apprenticeships and tax incentives. Does the future of the national economy rest in safe arms with the new reindustrialization strategy and education reform? States and local governments must ascertain what mix of higher education reform, K-12 reform, career readiness and high tech training is the best equation for the growing workforce deficit and waning middle class. In addition, education reform must consider high tech, automation, robotics and artificial intelligence as a curriculum component in education reform. This policy area must be constructed in ways that not only broadens the middle class but helps the victims of deindustrialization and reindustrialization. Chapter 1 provides an overview of the challenges facing the working class in the United States and an outline of the book. Chapter 2 describes the stage of industrialization 1870-1970 that created a middle class society. Chapter 3 discusses the periods of deindustrialization 1970-2000 and reindustrialization in advanced manufacturing early 21st century. Chapter 3 then analyzes the causes: globalization, organizational change, public policy, business strategy and automation and consequences: the emergence and shrinkage of a broad middle class society of the changing dynamics of industrialization. Chapter 4 presents a case study from the state of Alabama demonstrating how manufacturing reduces inequality. Chapter 5 discusses how work-based learning programs promote racial diversity. Chapter 6 investigates modern apprenticeship and work-based learning programs. Finally, Chapter 7 considers the implications of this study and argues that workforce development policies hold the key to American prosperity in the 21st century. *Michigan Connections*, 1997 **2019 Current and Emerging Issues in Economic and Workforce Development**, 2019 **Jobs and Economic Development in Minority Communities** Paul Ong, Anastasia Loukaitou-Sideris, 2006-07-15 Over the past four decades the forces of economic restructuring, globalization and suburbanization coupled with changes in social policies have dimmed hopes for revitalizing minority neighborhoods in the U.S. Community economic development offers a possible way to improve economic and employment opportunities in minority communities. In this authoritative collection of original essays contributors evaluate current programs and their prospects for future success. Using case studies that consider

communities of African Americans Latinos Asian immigrants and Native Americans the book is organized around four broad topics The Context explores the larger demographic economic social and physical forces at work in the marginalization of minority communities Labor Market Development discusses the factors that shape supply and demand and examines policies and strategies for workforce development Business Development focuses on opportunities and obstacles for minority owned businesses Complementary Strategies probes the connections between varied economic development strategies including the necessity of affordable housing and social services Taken together these essays offer a comprehensive primer for students as well as an informative overview for professionals

People and the Competitive Advantage of Place Shari

Garmise,2014-12-18 In the new global economy where rapid technological change is the norm the skills of the workforce are a key to local economic vitality This practical book shows how cities and regions can invest in their long term prosperity by expanding opportunities to ensure that all citizens have competitive skills and by aligning workforce development systems to existing and emerging industry needs Clearly written generously illustrated with an effective blend of theory and practice People and the Competitive Advantage of Place documents the challenges and opportunities involved in workforce development effective approaches for resolving contemporary problems what traps to avoid and strategies for investing in the workforce of the future The author integrates ideas and techniques from the fields of workforce development economic development and community development to present a comprehensive guide to approaching workforce needs from a city or region wide perspective Each chapter presents lessons from relevant research experiences from private public and community based approaches and evaluations of what is working and why

The Next Generation of Workforce

Development Project ,2005 Business, Community & Workforce Development Programs Missouri. Department of Economic Development,2009 *Local Economic and Employment Development (LEED) More Than Just Jobs* Organisation for Economic Co-operation and Development,2008-04-09 What should be the goal of labour and employment policies Job placement has been the traditional answer but this report argues otherwise To stay competitive in a globalised economy governments must also strive to enhance the skills of workers increase their productivity and provide upward mobility to immigrants and the disadvantaged This report provides valuable insights into how labour policies can be expanded to meet economic development and social cohesion goals while also reconciling national and local concerns Studies from seven OECD countries are presented Australia France Germany Japan Korea the United Kingdom and the United States each analysing attempts to expand workforce development policies and bridge the gap between national and local initiatives Included are various types of government private sector partnerships in the United States regional training in France and Australia s efforts to customise policies to local needs Based on the country studies the report then makes specific recommendations and suggestions on how workforce development policies can be expanded and improved
